

SUN DIAL FOR OREGON TRAIL

Monument is Unveiled Saturday with Fitting Ceremonies.

PLACED IN RIVERVIEW PARK

To Mark the Spot Where the Famous Trail Entered the State of Nebraska Many Years Ago.

Marking the spot where the old Oregon trail entered the state of Nebraska, the sun dial erected by the Daughters of the American Revolution was unveiled with appropriate ceremonies Saturday afternoon.

The veil was drawn from the sun dial by Miss Kathryn Selby and Master Willard B. Willard. It stands upon a granite monolith at the left side of the road that leads up the hill into the park.

Mrs. A. K. Gault, vice president of the general national society of the Daughters of the American Revolution, made the presentation speech, stating the purpose of the monument and giving a short account of the movement which resulted in its erection.

Davidson Representative Governor, W. M. Davidson, superintendent of the Omaha schools, made the address at the pavilion that was to have been given by the governor.

"It is well," he concluded, "that the Daughters of the American Revolution are preserving to our children the memories that make us proud of the achievements of the past."

"It is good to see such an organization taking interest in the commemoration of historic places. May they do some when we will see other monuments to mark other places of historic interest. Others have caught this spirit from you and will further the work you have begun. I congratulate you upon having done the greatest service one generation can render to the one that has to follow it."

"Mrs. Orel B. Ward of Lincoln, state regent, gave the concluding address.

"By placing these monuments as visible evidences of heroic deeds and hard-won victories before the present and future citizens of the United States we may foster in their hearts the desire to give of their best to their country's service," said Mrs. Ward, "and the inspiration may come to them to strive for the higher patriotic ideals of American citizenship. And may this quaint old sun dial record the rising of the sun upon a tidal wave of patriotic enthusiasm that will sweep the length of the famous and historic old trail. It has been placed here to mark for all time, and may the results of that patriotic spirit be as proud and far-reaching as that of the old trail itself."

The invocation and benediction were pronounced by Rev. T. J. Mackay and patriotic airs were played by the Fourth Infantry band.

INSPECTORS LIKE OMAHA METHODS OF PROTECTION

Say that They Will Apply the Rules in Force Here to Other Cities.

The meeting of the Western Association of Electrical Inspectors just closed in Omaha resulted in a movement to spread to a number of cities the principal of house protection that has been in use here. "It is one of the rules of our inspectors," says City Electrician Michaelson, "that in all cities and in all buildings where there are ground connections the fixtures must have ground wires. This is a precaution against the chance that the fixtures may become charged, and when they do a person with wet hands or touching the fixture with one hand and a pipe or faucet with another part of the body would be liable to get a heavy shock. The ground wire, however, will always carry off the charge before it can do any damage. The Western association discussed this precaution, and as a result it probably will be made a part of the rules in a great many other cities that do not have it now."

WORK ON NEW RAILROAD HEADQUARTERS IS FAST

Seven Hundred Tons of Iron Work Already in Union Pacific Building—Vaults Being Built.

Work on the new Union Pacific headquarters building is progressing rapidly, the basement and the first story of the steel being done, a total of 300 tons having gone up in the last week. This makes just one-fourth of the ironwork up, the whole amount of the iron structure amounting to 1,200 tons.

Work of laying the heavy foundations for two big vaults also began this week. These two big receptacles, each 48x38 feet, are to hold the immense volume of records that the railroad keeps on file. They are both of fireproof reinforced concrete construction and are located in the basement of the new building.

Brick work will begin on the headquarters in a short time. By the time the steel is started the steel will be almost up.

BRUCKER SAYS DAIRIES BETTER

Acting Mayor Finds that Dairymen Are More Generally Complying with the Law.

Results of the new regime of dairy inspection are very satisfactory, according to Acting Mayor Brucker, to whom a report is brought daily by the inspectors under Dr. Connell, E. M. Boney and A. J. Damsch. "There is a decided improvement to be seen from these reports," said Mr. Brucker, "and next week the council will probably make another tour of inspection. Screens, drains and cement floors are all being attended to. Several milk dealers have been threatened with revocation of their licenses, but they have always done what we demanded before that was necessary."

WAVENLOCK WARMS THE SCALP, promotes circulation, increases flow of secretions in sebaceous glands, feeds the hair follicles, induces hair growth. At druggists, barbers and hairdressers.

Marking the Path of Empire

EFFORT TO REDUCE FIRE RISK

Insurance Committee of Commercial Club Has Another Meeting.

ASKS FOR EXPERT ADVICE

Experts Tell of Some Things Which Might Be Changed to Remedy Some of the Existing Evils.

The insurance committee of the Commercial club has taken up the question of fire losses and rates in Omaha in deadly earnest and has compiled some figures which are startling. "To begin with," says the committee, "let us remember that the annual fire waste in the United States is something like \$500,000,000, or enough to build a Panama canal every twelve months; that this, reduced, represents a fire loss of \$40 a minute, or \$1.30 per capita for the United States, as against a range of 20 cents to 3 1/2 cents in Europe."

"Here in Omaha the per capita tax for fire protection is \$2, much higher than most other places, as in the payment of freight rates, the ultimate consumer pays the bill, and it might be well for those who are trying to solve the problem of the high cost of living to include in their calculations the enormous tax on every man, woman and child caused by careless business and the unavoidable sources that make this fire loss possible."

"The insurance committee knows that it has a big task before it, but it believes it has the backing and interest of not only business men, but of every citizen of Omaha in bringing about an improved condition pertaining to fire losses, whether this be with respect to losses by water and smoke, inspection laws, inadequate equipment or otherwise."

M'CAQUE BUILDING REMODELED

New Entrance on Street Level and Elevators to Modernize Structure.

A contract was let Saturday by the Omaha Loan and Building association for the remodeling of the McCague building at Fifteenth and Dodge streets, W. H. Farish getting the job, which involves the expenditure of \$20,000. When the work is completed the building will have a new street level entrance on Dodge street and will have been thoroughly modernized. It is planned to put in new elevators and to make the main corridor a handsome affair with marble walls and tiled floor.

The work, which will be done under the supervision of T. R. Kimball, who has drawn the plans, will take three or four months to complete. The Omaha Loan and Building association will move about that time from Sixteenth and Douglas streets to its new home.

YOU CAN FEEL YOUR ECZEMA HEAL

(From the American Drug Reporter.) "Eczema on the head and scalp is a common occurrence of a most common disease, and it is to be regretted that most remedies for eczema which produce cures when other parts of the body are affected fail to give good results when used for eczema on the head."

"The new drug quinine is different from other eczema cures offered to the public, for it proves an excellent remedy for all forms of salt rheum, tetter, ringworm, psoriasis and similar skin diseases, and purchasers report that they can feel it heal."

"As eczema on the scalp causes annoying itching, dandruff and falling hair, the sales of quinine are rapidly increasing and it is probably the most popular home treatment known. All that is necessary is to dissolve two ounces of quinine in a half pint of hot water and let it cool. For eczema on the head rub quinine lotion well into the scalp with the finger tips. For eczema elsewhere a cloth saturated with quinine lotion is applied for a half hour twice a day to the affected surface. Quinine stops the itching at once."—(Adv.)

FOREIGN MISSIONS THEME

Bishop Oldham of Singapore and Dr. Nicholson of New York Address Dakota Conference.

INDIANAPOLIS, Ind., Oct. 15.—Convicted of the theft of twenty-one canary birds, Walter Gastetter, in police court rather than to go to the work house agreed that an operation should be performed upon his brain for the correction of a criminal tendency today, but he escaped from the hospital while the nurses were preparing for the operation and was still at large tonight.

Gastetter, it was shown, had entered the home of a woman whose hobby was canaries, and had carried the birds off. He was arrested and the birds recovered. His father brought to court a physician who told the judge he was sure he could reform Gastetter by a surgical operation. After his escape his father told the police that his son was only frightened and would return.

SET D. PUTTES ON SPEEDERS

County Commissioners Order Country Roads Patrolled.

THIRTY FARMERS COMPLAIN

Complaining Residents Suggest Big License Numbers for Front and Rear of Machines—Motorcycle Men on Watch.

Complaints made to the Board of County Commissioners by about thirty farmers living on the country roads leading into Omaha, when the board met as a committee of the whole yesterday afternoon, led to a decision to have the sheriff's office patrol the roads in search of automobile speed law violators at frequent intervals, and arrest all men driving cars in violation of the law.

Driven almost to desperation by the alleged speeders, the farmers waited on the board in a body and declared that something must be done to protect them. They said that the sight of an automobile dashing along the road at a rate of thirty-five or forty miles an hour is a common one. They suggested that automobile owners be required to carry larger numbers on their cars and carry them on the front as well as on the rear of their cars. The board members explained that the board has no power to require this, and, further, that owners of machines cannot be punished for speeding unless it can be shown that they themselves violated the law. This makes prosecution difficult, as it is easy for a driver to make the defense that someone else was operating his car when it exceeded the speed limit.

It was agreed that the only way to stop the speeding practice is to station sheriff's with motorcycles on the roads. The motorcycles will be equipped with speedometers. Deputy Sheriff Foster was called down to the committee room and ordered to have the roads patrolled. The farmers went away satisfied. Among those who made complaints were: H. C. Gilsman, Wm. Jensen, West Center; H. Avery, West Leavenworth street; C. and John Bull, Elkhorn; J. Armbrust, Millard; Henry Kruse, Benson.

Friends Mention

Miss Sullivan for Head of Teachers

Instructor in English in Omaha High School Spoken of for President of State Association.

Friends of Miss Mary Sullivan, for nine years a teacher in the English department of the Omaha high school, have of late been mentioning her in connection with a movement to secure the election of a woman president of the State Teachers' association of Nebraska. Miss Sullivan is at present in England studying under Dr. Charles W. Wallace of Nebraska university for her doctor's degree, but she will resume her work in the Omaha schools early in November. During her absence and without her knowledge she has been spoken of as one of the particularly well qualified women of Nebraska for the presidency of the association should the women of the body secure this honor at the November meeting in Lincoln.

Miss Sullivan had been connected with the Omaha high school English department for nine years following her graduation from Nebraska university and she has since taken a master's degree. She has specialized in Shakespeare and is already the author of several questionnaires that are being used in school work in this state, and that have run through several editions. Miss Sullivan has been working directly under Dr. Wallace in his search for new Shakespearean materials in London and Stratford and in an article he has written for a September magazine he has given her credit for two important discoveries in this line.

For two years Miss Sullivan has been presiding officer of the literary section of the state association and her Omaha friends, it is said, think when her name is brought before the teachers of the state it will meet with instant recognition.

KLEPTOMANIAC AGREES TO OPERATION, RUNS AWAY

Man Steals Twenty-One Canaries and Doctors Would Cure Him.

INDIANAPOLIS, Ind., Oct. 15.—Convicted of the theft of twenty-one canary birds, Walter Gastetter, in police court rather than to go to the work house agreed that an operation should be performed upon his brain for the correction of a criminal tendency today, but he escaped from the hospital while the nurses were preparing for the operation and was still at large tonight.

Gastetter, it was shown, had entered the home of a woman whose hobby was canaries, and had carried the birds off. He was arrested and the birds recovered. His father brought to court a physician who told the judge he was sure he could reform Gastetter by a surgical operation. After his escape his father told the police that his son was only frightened and would return.

DOCTORS SAID INCURABLE—RELIEVED BY PE-RU-NA.

Mrs. E. West, 137 Main St., Menasha, Wis., writes: "We have used Peruna in our family for a number of years and when I say that it is a fine medicine for catarrh and colds, I know what I am talking about. I have taken it every spring and Fall for four years, and I find it keeps me robust, strong, with splendid appetite, and free from any illness. A few years ago it cured me of catarrh of the stomach, which the doctors had pronounced incurable. I am very much pleased with Peruna."

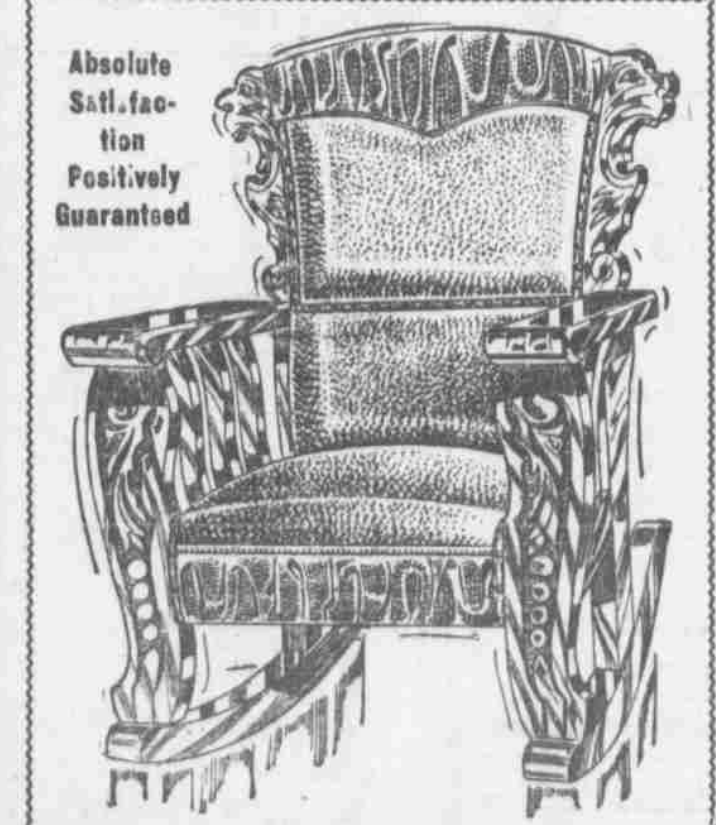

Bowels and Stomach. Miss Mary Jones, 7514 Reynolds Ave., Chicago, Ill., writes: "I can recommend Peruna as a good medicine for chronic catarrh of the bowels and stomach. I have been troubled severely with it for over three years. One year ago I began to take Peruna, the wonderful tonic for women, and I noticed a wonderful improvement. At once I took six bottles in succession and I always have it on hand to take some now and then when my cough is bad."

Catarrh of Internal Organs. Mrs. H. H. Jackson, R. F. D. 5, Newmarket, Ga., writes: "I have had catarrh of the internal organs for more than 2 years. I tried other medicines without benefit. I was persuaded to give Peruna a trial, and the first bottle proved a good one, and after taking ten bottles I have received a permanent cure."

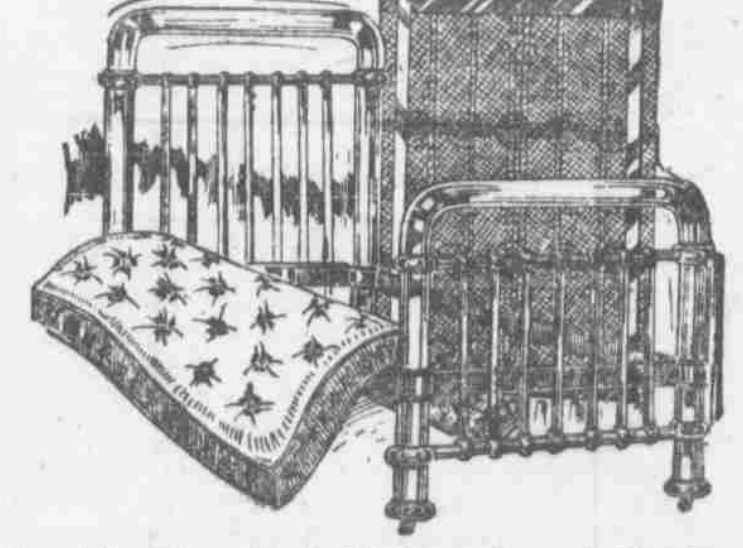

Order Your Peonies Now—It's Planting Time. Ask for Our Special Fall Catalogue by Telephone or Postal. It is complete Peony book—contains planting instructions and accurate descriptions of all our beautiful varieties and prices. Other plants for Fall planting are included. We will mail it at once.
