In outdoor are employed on the rathroad,"

One of the most interesting developmen of recent educational programmes among the Indians is thus referred to:

"The Indian has also an increasing source of livelihood in his arts and crafts. These are of far greater value than is gen erally known. When the crops of the Pimas failed for lack of water, they sup ported themselves by the sale of baskets thus emulating the example of the Mohaves, Apaches and Mission Indians, who are doing a thriving business in their arts. Those interested in Indian crafts see great possibilities. The presidents of railroads from the Mississippi to the Pacific coast say that the sale of goods alons their lines has increased 1,000 per cent in school auditorium under the auspices of ten years. One tribe in Oklahoma sold the High School Athletic club. Professor \$5.000 worth in one year. But the demand Swihart's work is well and favorably for Indian goods is not confined to the west. A dealer in New York handles \$10, 000 worth yearly, and a New York woman Professor and Mrs. Boggess entertained of influence, who has long been interested

"These figures prove that the Indians Worlds in the Making was given by Ediomes in their native crafts and that it desirable to teach them to their children. Each tribe reached a high proficiency in one speial art and it has been the policy of the schools to perpetuate that particular presentation speeches and speeches of ac. art among the children. This policy has diminished competition among the several peoples.

MARQUETTE UNIVERSITY.

Admen Furnish Pointers for School of

Journalisis committee from the Milwaukee branch of the National Advertisers' club recently met the president. Dean Webster, of the College of Economics, and Prof. Copus, the director of the School of Journalism of Marquette university, for the purpose of offering suggestions and assisting the courses in advertising which the Schoel of Journalism will teach next year. In furtherance of this purpose there is in contemplation a source of the purpose there is in contemplation. contemplation a course of public lectures to be given in the second semester by action of the Milwaukee Advertisers' club chosen. At present R. H. Golding holds is in pursuance of a resolution passed in the place. professional advertisers of Milwaukee. This the national convention of this body at Omaha during the summer, offering the organization's assistance and advice to tools of journalism. The proposed course of lectures will not only interest students of journalism, but are intended to appeal largely to business men who buy much advertising. It is expected that the course of lectures will be announced by Dean Webster in a few days.

Outside the regular class work in the various departments of the university, the institution has already arranged for a course of lectures in the engineering. conomics, law and journalism departments during the winter and early spring months. Other courses of lectures of broader scope are also being arranged.

Educational Notes. A report on negro education at Dunham, N. C., shows a reduction of the percentage of illiteracy from 63 to 45 in ten years.

Mrs. Matilda Ford, examiner in the finance department of New York City, tells the hoard of satimate that she is satisfied the salaries of tachers could be out \$400,000 without any harm resulting to the schools. without any narm resulting to the schools.

William J. Cunningham, the Boston &
Albany railroad statistician, has been appointed assistant professor of transportation at Harvard. His duties will be with
the university's graduate school of business administration. The policy of the
school is to have instructors with practical knowledge of the subjects they teach. cal knowledge of the subjects they teach. Claude Venue of Tornahawk, Wis. was so determined to get an education that he walked ninety miles to Appleton to enter Lawrence university with the freshman class. He arrived with just 5 cents in his pocket, but immediately secured employment as a belibay in a hotel. Next day he opened a hank account, depositing the dips he received.

he received.

Ulysses Grant Houston, 50 years old, has entered Michigan university as a freshman. He has not been in a class room for thirty years, and all this time he has worked, planned and sayed that he might some day enter a university and study, and in all this time he has sayed the pittfully small sum of \$150, haif of which is available at this time and haif he will not be able to get for another six months.

The quicker a cold is gotten rid of the less the danger from pneumonia and other serious diseases. Mrs. B. W. L. Hall of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best prevaration on the market for coids. I have recommended it to my

BUY RUBEROID ROOFING AND-

The oldest roofing on the market and still there-sold in every country in the world-subject to the fiercest competition-trailed by over three hundred imitators, many of whom copy its very name as closely as possible-Ruberom Roofing still dominates the roofing market in the quality of the product and the volume of its sales.

You can identify genuine, lasting RUBEROID ROOFING by the large trade-mark picture of the Ruberoid man, shown herewith, which

appears on the outside of each roll. RUBEROID ROOFING, manufactured by The Standard Paint Co., is made of wool felt. Its value lies in the gum with which it is saturated and coated so that the gum and wool in

combination make Rus-EROID the most lasting roof covering known. This gum contains no rubber and no oil. It is absolutely waterproof. It keeps its life and does not crack or dry out. It resists gases and acids more than other roof coverings. It is tasteless and odorless, and water collected on it can be used for drinking purposes. It is an insulator and so keeps a house warm in winter and cool in summer. RUBEROID ROOFING is highly fire-re-

sisting. Another advantage of RUBEROID Roofing is that it is also made in permanent colors of RED and GREEN. The reason Ruberoid colors are permanent is that they are not painted on-they are built into

the fabric, and so cannot peel off. The satisfaction RUBEROID ROOFing gives in resisting temperature, moisture, chemical action and time, are the proofs of its supremacy, and are known to every man acquainted with roof covering. Our efforts are directed at guiding the consumer through the maze of imitation and enabling him to get RUBEROID ROOFING when he asks for it.
