Colorado Fruit LAND

Twenty-five miles west of Pueblo. Our district markets apples in Omaha, this is due to their high quality.

If desired we plant and care for orchard until bearing, "at actual cost."

We have the finest irrigation system in the world, all being built of cement, which means an enormous saving in the upkeep of same.

We also built, own and operate a railroad connecting with the Santa Fe and D. & R. G.; no other district offers such shipping facilities.

We firmly believe that we offer you better values in land and water rights than any other section, and on reasonable terms. Investigate us, we seek it; join others on a trip of inspection; you lose only two days' time on the round trip. Drop a card, I will be pleased to furnish further information.

Let "experience" cleanse your clothes....

Experience is just as essential to thorough Dry Cleaning as to any other work—perhaps more so. Theory is all right in lots of things but it takes professional born of experience to be uniformly successful with so many kinds of garments sent to us. Our experience cost us lots of money but it doesn't cost you a cent. We charge you only the regular charges, and our 13 years' practical experience is an insurance against disappointment.
