CHICAGO, Dec. 12.—Reports that prospects were decidedly unfavorable for an average crop in Oklahoma or the southwest part of Kansas tended today to advance the price of wheat. A speculative advance in Liverpool had also considerable effect. The close here was at a net gain of \$40 to \$40 %c. All the other leading staples showed losses, corn finishing \$40 %c. Rising quotations for what were in the three preceding years.

Rising quotations for what were in the face of an unusual array of bearish news word shipments were much larger than a year ago and there was said to be an increase of \$4,554,600 bushels in the Russian yleid as compared with the previous twelve months. Primary receipts, too, were greatly in excess of those of a year before. On the other hand, rain in North Argentina, and temperatures are decidedly lower in the upper valleys and lake region. Cover in the upper valleys and lake region lower in the upper valleys and lake region. Cover in the upper valleys and lake region in the upper valleys and lake region. It is morthing. The northwest depression is accompanied by a very decided rise in the temperature and the extension of this low down the valleys during the next thirty-six bours will cause increasing cloudiness, with probably snow, in this vicinity, tonight or Tuesday, with rising temperature.

Te

other hand, rain in North Argentina, drouth in the Punjah, floods in France and italy, as well as crop conditions in the American southwest received greater attention. According to one authority 50 per cent of the wheat 4,500,000 acres of Kansas and Oklahoma has not germinated. Largely because of this alleged handicap to the winter crop the close was not far from the top figures of the session. May ran between 654c and 555c, with last sales at 365c, a net gain of 4c.

Corn consignments were large from lowa and illinoin. May ranged from 474c to 675c, with the close 4c net, lower at 474c. Cash, steady: track, No. 2, 449c; No. 2, 475c, with the close 4c net, lower at 474c. Cash, steady: track, No. 2, 316214c; 16 of 1846c. Cash was weak. No. 2 yellow finished at 185614c.

In oats shorts helped prices up early, but weakness followed. May varied from 244c to 344c and in the end was 4c off, at 235624c.

Business in hos products was on a decidedly but scale Law sales left port core.

. 5,605 CATTLE—Receipts of cattle were very liberal this morning 25 cars being reported. At the same time other market points were largely supplied, Chicago especially having a very heavy run. With most all markets heavily supplied and with early telegrams indicating a lower tendency to values, the trade at this point was naturally slow and backward, although receipts were really none too large to meet the requirements of the market under normal conditions. Thus it happened that the forenoon was well advanced before enough business had been transacted to really establish a market. CATTLE-Receipts of cattle were very

Coffee Market.

NEW YORK, Dec 12—COFFEE—Futures opened barely steady at a decline of 5011 points under scattering local liquuidation and bear pressure inspired by nervousness over the Brazilian situation which, in spite of reassuring press reports, was augmented by the failure of the official cables from Rio to give any quotations or to indicate any receipts at that port. Offerings were pretty well absorbed around the initial figures, but the market continued very nervous and with the late French cables easy prices eased off a few points further during the afternoon. The close was steady at a net decline of \$217 points Sales, \$7.256 bags.
