The authority for this is a man who has been in the employ of the "tip trust," part of his duty being to receive and audit the cash turned in by the uniformed boys who are employed to squeeze coins out of the guilible public The failing off in the daily receipts from this source of hotel and restaurant graft began some six months ago, when the public discovered through the newspapers that the uniformed boys who check your hat and coat don't get the coins that the patrons give them, but that the money goes to a man who pays for the privilege

of keeping the boys in these places. For several years this trust in tips reaped a fine harvest. The person who conceived it and put it in operation gathered in profits at an astonishing rate. He ginning with only a few boys, he soon found his industry growing to a point where he could advantageously employ scores of them. Every boy represented an asset in the traffic. If the boy turned in less than \$5 a day he was not looked upon as fit for the trade of making the public stand and deliver every time it entered a hotel or restaurant.

The inventor of the monopoly was an ingenious person. He realized that for the boy who checked the hats and coats there was great temptation to pilfer part of his
