Varied from \$08504c to 565c, closed with the control of the contro

that appeared to be no better than steady. Heavy animals had to move at usual discounts, \$1.55 and less, buying loads especially suited for lard manufacture. Mixed ruled around \$1.60 and choice bacon grades reached \$1.50. This price is a dime less than extreme tops a week ago.

Receipts lately have been fairly liberal, almost \$3.000 head showing up this week. Trade has been erratic, however, and present values on all weights are just about a dime lower than those in force last Saturday. Trade reached its lowest point at midweek when prices were hammered for 200 week when prices were hammered for

Similar-lue succe and same market was practically bare of offerings of any description this morning, so that no new developments in the way of price changes

a quarter for the week, this reduction being warranted by cheaper cost and slack retail demand in the east. Choice grades are closing around \$5.80, but heavier classes were avoided at all times and found an outlet only through the support of country buyers. More activity was evident in the demand from this source and competition, such as it was, helped much in making clearances.

NEW YORK, Feb. 4.—Closing quotations on the Mining exchange:

A Guarantee of Business Prosperity-

Drop in National Bank Deposits Factor in Arriving at Betimate of Conditions in East-Improvements in Steel.

NEW YORK, Peb. 5. Fresh growth of confidence in the promise of the prosper-ous outlook for business was reflected in the renewed uplift of prices and expansion of activity in the stook market last week. Two incidents of the week were of dominant effect in shaping apeculative sentiment, the statement of the program the supplementary announcement of Chair-man Gary of the United States Steel cor-poration with the quarterly statement of earnings.

The decision of the Union Pacific man-The decision of the Union Pacific management to proceed with the double tracking of the system by the expenditure of \$75.000,000, extending over the next five years, swept into the background most of the misgivings over railroad conditions which still remained. This program and the expression of confidence by the chairman of the Union Pacific board procisimed man of the Union Pacific board procisimed a sense of security for the future which is not impaired by the still undecided question of railroad rate increases, the anti-trust cases before the supreme court and the suit for the dissolution of the Union Pacific and Southern Pacific systems. Approach of the time for decision of these questions threatened to bring them into force as repressive influences on the financial program. The Union Pacific announced cial program. The Union Pacific announce-ment proved a timely factor, whether de-signedly or not, in counteracting this in-

Restored confidence on the part of rail

road managements may be traced to the ready absorption of new capital issues. Issues of new securities in January were \$225,000,000 in the New York money market.

\$225,000,000 in the New York money market. a new high record for that month.

The prevailing sentiment of speculation was signalized in the resolute way in which the poor showing of the December quarter of the United States Steel earnings was ignored in favor of the announced improvement since the first of the year. This statement said that the daily average of booking of new orders for the corporation had risen in January to 30,000 tons, compared with 22,000 tons in November and December.

The controller's abstract of the corporation had reson to the controller's abstract of the controlle

pared with \$2,000 tons in November and December.

The controller's abstract of national bank returns as of January 7 was notable for a drop of \$191,565,000 in individual deposits in eight weeks, with a parallel reduction of only \$45,000,000 in the loan account. New York clearing house banks accounted for \$12,000 (0.318,500).
