Four or Five Suits of Each Pat- Fresh Dipped tern, That's All - Bennett's Men's Suits are Exclusive in Style and Tailoring and Fabrics

When a man buys a new suit it is not a uniform he wants not a suit in pattern and style he will see duplicated every time he turns a corner. Our experience says he likes a measure of distinctiveness of difference.

Four or five suits of each pattern-that is all that will be found in our stock. This way of choosing our stock means practically exclusive-You know exclusiveness in clothing is now-a-days the only cry of custom tailors-and is what makes the custom tailored suits cost. The Bennett's large variety gives the same results without the added cost.
