**SALT LAKE CITY JUNKETERS INSPECT THE HIGH SCHOOL**

Come to Omaha for Pointers on a Real Modern High School Building.

A junketing committee of three from Salt Lake City, Utah, touring the larger cities of the country for the purpose of inspecting high school buildings, arrived in Omaha Wednesday morning. Superintendent of Schools William M. Davidson took the visitors under his wing and conducted them to the high school, where an exhaustive investigation of the building was made.

The party consists of A. G. Glaucus, a member of the board, James L. Chesbro, and E. O. Falland, superintendent of instruction.

"Salt Lake City is going to build a new high school building to cost in the neighborhood of \$500,000," said Mr. Glaucus. "That we may have the benefits of high school construction throughout the country, we decided on this tour. Though our plans have been drawn, we will modify them if we find any departures which we think should be included.

"The Omaha high school building is the best we have seen yet. Many details here will be considered when the final plans for our building are approved.

"Our tour will include all the cities of the country. We will go from here to Minneapolis. Before we get back we expect to visit St. Paul, Milwaukee, Detroit, Philadelphia, Cleveland, Chicago, New York City, St. Louis, Boston and Kansas City."

**FEDERAL GRAND JURY AT WORK**

O. F. Turner of Fremont is Foreman—Charge is Made by Judge W. H. Munger.

The special federal grand jury was called and charged Wednesday morning by Judge W. H. Munger and sent into session. O. F. Turner of Fremont was chosen as foreman. Seven cases will be heard by the jury, leading among which is the case of the United States vs. Frank Morrison, who is charged with mailing nonmailable matter. It was for the special purpose of hearing the Morrison case that the jury was called. Morrison is alleged to have written several letters to young girls throughout the state. United States District Attorney E. S. Howell has five of the letters in his possession. The character of the letters, as written by Morrison, is such that the attorney and the marshal decided to hear his case at once. It is said that Morrison will plead guilty to the charge when brought before court for trial.

Woman Denied Divorce by Judge Kennedy to Carry Case to Higher Court.

An alimony suit for \$20,000 brought against J. I. Kemp, a prominent coal dealer, by the husband of Mrs. Tighe is at the bottom of the strenuous fight being made by both parties for the decree. W. J. Connell is the attorney acting for both Mrs. Tighe and J. I. Kemp.

**Woman Invades Sacred Precincts of Omaha Bank**

When woman invaded the sacred precincts of the Omaha National bank the mooted question of femininity capacity for breadth of responsibility and keen insight into financial matters was removed from doubt. This was thoroughly exemplified in the instance of Miss Anna Hansen, who came to the bank about a year ago, rising within the twelvemonth to the charge of the savings department, which was inaugurated at the bank Monday.

Some time since the officials of the bank resolved to experiment with women assistants, and they found them eminently successful as clerical helpers. This was especially true of Miss Hansen, who demonstrated remarkable deftness, pleasing accuracy and almost endless ability. Her worth was put to the severe test when she was assigned to the analysis department of the bank, where special knowledge of the intricacies of financial patronage is so absolutely necessary.

Miss Hansen is regarded as one of the cleverest women banking employees in the west. She came here in June, 1910, from the German Savings bank at Manning, Ia., where, by her cleverness, she attracted the serious attention of the Omaha National bank officials.

MISS ANNA HANSEN.

**Park Board Worries Over Money to Pay for Improvements**

Cannot Decide Whether to Take the Money from the General Fund or Not.

Whether the Board of Park Commissioners shall pay for street and sidewalk improvements on property abutting the parks out of the general fund is a question which is worrying members of the board. John A. Rine, city attorney, has been asked for an opinion and Wednesday morning informed the members that such improvements should be paid out of the bond fund. Contemplated improvements during the year will run into a goodly amount. The Park board will soon have \$50,000 to its credit, the amount coming from the sale of bonds. The feasibility of paying for the improvements out of this fund was discussed. Some members of the board contended that the bond fund money would be available for improvements, while others insisted that the expenditure should be met out of the general fund.

**Clever Young Man Solves Hard Task**

Helps Two Pretty Girls Out of Trouble Beyond Their Power to Solve.

A glossy, black electric motor car, hardly more than a colt, and evidently not well city broke, was prancing up Farnam street Tuesday evening and ran itself madly into a telegraph pole. The two young women who occupied the car screamed and turned on the power frantically, but the car refused to push the telegraph pole out of the way. A young barrister not unknown to fame in Omaha as a lady's man happened by and rushed to aid the distressed motorists.

"Might I be of any service?" he asked politely.

"Do you understand the mechanism of an electric?" asked the most lovely of the two damsels, blushing slightly as she said "mechanism."

"I am sorry to say that I don't," replied Sir Launcelot, "but I might be able to help. What seems to be the matter?"

The loveliest damsel looked mildly vexed at his scrutiny and replied, "It seems to have run into this telegraph pole and can't get any further."

"Have you tried reversing the power?" asked Sir Launcelot.

"No, we hadn't thought of that," said the loveliest damsel, looking mildly vexed. "The power is on the electric cables and was turned on by the pole and will be turned on by the pole."

"That's a clever man," said the loveliest damsel, blushing slightly.

**FLORENCE COUNCIL IS HISSED**

Protests Against Granting Saloon Licenses Read at Meeting.

**MORE RESTRICTIONS ARE ADDED**

Doors Must Be Locked on the Outside with Padlocks and Chairs and Tables Forbidden on the Inside.

The thirsty citizenship of the village of Florence gathered at the town hall Tuesday night and watched with pathetic eagerness the vagaries of the council on the license question. Protests against the granting of the four licenses which recently expired were read and the audience groaned and hissed.

This enraged the prohibition people and Councilman Grigg introduced an ordinance which was passed, putting upon the saloons more restrictions than ever before. They are to pay under this law \$1,000 license and \$300 occupation tax. The saloon law was embodied and all such unpleasant regulations as the forbidding of chairs and tables, and inside locks were specified. The locking regulation was to make saloon keepers close their places of business only from the outside with a padlock and key.

Pool halls and bowling alleys received two blows. Councilman August Peterson introduced an ordinance to abolish them altogether and Councilman Paris followed with one for a strict regulation. The license fee was fixed at \$2 for the first table and \$10 a table for others and all gambling and playing of cards prohibited. The halls must be closed at 10:30 and on Sundays. The pool halls also must be locked with padlocks.

The most throes of the council were observed by a crowd which packed the hall and hung around the outside edges.

**Col. Wallace Taylor Comes Home on Visit**

Went to Philippines When War with Spain Was Declared—Still in Service There.

Greetings from the sea, via wireless, have been received from Colonel Wallace C. Taylor, by his father, Cadet Taylor, collector of customs at the federal building, announcing the fact that he was on his way home on a five-months' leave of absence.

Colonel Taylor left Nebraska as a volunteer in 1898 for the Philippines. When that company was discharged he joined the Thirty-ninth infantry with the rank of captain. Later he entered the constabulary service, and is still with that branch with the rank of colonel with headquarters in the northern Luzon district. He was severely wounded when hit in the jaw by an enemy's bullet.

For thirteen years Colonel Taylor has been in the service and this is his second trip home to visit his mother and father, who live in this city, and his brother, H. B. Taylor, who resides on the outskirts of Los Angeles. He is 40 years of age. Taylor will arrive on board the Manchuria at San Francisco Friday evening. He will spend a few days at Los Angeles and will then come to Omaha and in company with his mother and father will go back to Los Angeles, where the three will remain until the son leaves again for the Philippines.

**To Have a Clear, Velvety Complexion**

By MADAME D'VILLE (From Chicago Inter Ocean)

Madame D'ville, one of Paris' most famous beauties just passing through Chicago, gives us a few valuable ideas on skin treatment, as follows:

"Yes, I have just come from beautiful Japan, and I must say the Japanese women have many toilet formulas and ideas which American women should know.

"What do they use to make their skin so soft and velvety?"

"Any American woman can use the same treatment if she desires. Dissolve a small original package of mayatone in about eight ounces of witchhazel. Massage the face, arms and neck with this solution once or twice a day, and you will shortly find you have a lovely, soft complexion, and then the best of it all is that this solution prevents the growth of hair and is absolutely harmless to the most delicate skin. Make the solution yourself.

Why, yes—of course I use it. Just see how beautifully soft my arms and face are, and not a hair.

"No, you will never use powder again, and those stray hairs will soon be missing from your face."—Adv.

**How to Avoid Street Car Accidents I.—Boarding a Car**

GRASP the forward hand-hold with your right hand; face slightly towards the front of the car and step up onto the step with the left foot first; retain hold with your hands until you are safely on the platform. It is always better to wait until the car stops and then step lively.

Never under any circumstances attempt to board the front platform of a moving car, as a mis-step here is almost certain to throw you under the wheels, and death or a crushed limb will be the result.

If you board a car properly, there is not much danger of accident, even if the car should start before you are fully on.
