This creates the anomalous circumstance of forcing the president to depend upon his political adversaries for the balance of power needed to push the bill through. Here is Senator Stone, for Instance, an uncompromising democrat, vehemently declaring his purpose of standing by the president in his effort to secure the passage of the bill unamended.

The condition only goes to show how sharply it is possible for men of the same political faith to differ on this proposed reciprocity with Canada.

Superintendent Davidson.

The acceptance by Superintendent Davidson of the position of superintendent of the public schools for Washington and the District of Columbia means his departure from Omaha, and the announcement causes real regret among our people.

Superintendent Davidson has been exceptionally successful in his conduct of the Omaha schools, and while the credit is to be shared with the efficient corps of principals and teachers under him, our schools have made better and run with less friction since his advent than ever before during a like

period of time. Superintendent Davidson has per-

haps shown brighter by contrast with his immediate predecessor, by whom our schools were used as a foot ball of personal favoritism and political wire-pulling, the teachers terrorized until they hardly dared call their souls their own and the schools thoroughly demoralized. Dr. Davidson quickly brought order out of chaos, demonstrated that he was a schoolman and an educator and not a mere politician. order which has been issued, to take effect He was at once found to possess on the 1st of July; besides, the officers scholarship and culture, as well as executive ability-in a word, to be the kind of a man who could be presented with pride as the head of our school system. The fact that he inspired confidence and displayed real capacity naturally gave him a larger field and

a freer scope of action, and as a consequence the position of superintendent under Dr. Davidson has become much more important and will be just that much more difficult to fill with the right man to take his place.
