More Rains Are Received Over the Corn Belt and Crop Advices Are Now Coming In More Favorable.

The Liverpool market was closed today a account of the August banking holidays in the northwest reported war-

weather in the northwest reported warmer with prediction of clear weather.

Hlack rust damage in the three big spring
wheat states with the possibility of damage to the Canadian crop, builish Russian
news and higher country acceptances
which have been the ruling bull features
were all overlooked in today's trading.
Heavy selling broke the market.

More rains were received over the corn
belt and crop advices are coming in more
favorable. Sales of old corn are very light,
while new corn for deferred shipments are
being freely contracted by country dealers.
Crop conditions are more encouraging and
sentiment leans more to the bear side.

Wheat was overbought on the late advance and weed-end profit taking found
the market with no buying support and
values broke sharply. Cash wheat was 2c
lower.

the market with no buying apport values broke sharply. Cash wheat was 2c lower.

More rain and late crop advices showing a more favorable orap outlook and the break in wheat caused selling pressure in corn. Cash corn was 1gH3c lower.

Primary wheat receipts were 1,089,000 bushels and shipments were 407,000 bushels and shipments were 250,000 bushels.

Primary corn receipts were 381,000 bushels and shipments of 593,000 bushels.

Primary corn receipts were 881,000 bushels and shipments were 250,000 bushels.

Primary corn receipts were 881,000 bushels and shipments were 46,000 bushels and shipments were 46,000 bushels and shipments of 510,000 bushels.

Clearances were 46,000 bushels of corn, 1,000 bushels of oats and wheat and flour equal to 385,000 bushels.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 5.—A disposition on the part of crop experts to trim down sensational estimates regarding black rust damage had a bearish effect today on the market for wheat. Closing prices were to %2%c lower than last night. In corn the outcome was %c to ic decline and for oats a loss of %c to %c. Hog products varied from 5c off to 7%c up. According to one report, which received much notice, the black rust injury to wheat in North Dakota will not exceed 15 per cent. Against the buils were reports from India, telling of general rains and there were dispatches bringing word of excellent weather for the growing crops in Australia and the Argentine. From the outset, breaks in prices formed the rule. Appetite for wheat thrown overboard on stop loss instructions caused a reaction, CHICAGO, Aug. 5 .- A disposition on the as did rumors of fresh discoveries of black rust in Manitoba. Besides news from rust in Manitoba. Besides news from Russia exhibited no improvement, Odessa Russia exhibited no improvement. Odessa cables predicting that shipments would be 50 per cent smaller than last year, but not a great deal of the setback experienced could be overcome. During the day, September ranged from 91%c to 93c, closing firm, but %c net lower at 92@92%c.

Corn suffered from week-end realizing. There was, however, no heavy selling, such as noted in the wheat pit. The September option, which increased its premium over December, fluctuated between 64%66%c

December, fluctuated between 64\\\ 664\\\ c a net loss of \(\)\cdot \(\)\cd at 64,4764%c.

Prices for oats had to contend with an estimate placing the liniois crop at 13,000,000 bushels in excess of last year. Outside limits touched by the September delivery were 42%c and 42%c. The closing figures at 42%c, showed a fall of %c from last night.

night.
The provisions market with a weak unertone closed about steady.

Illinois Central Cattle. Head, Sheep. H'r's Central Total receipts 5 DISPOSITION-HEAD.

Murphy Burr Meat Co..... CATTLE—Receipts of cattle today were limited to about three cars, which, as a matter of course, was not sufficient to make a market. For the week receipts foot up 24,766 head, being the largest since the first week in December, when 27,537 head were received. Still receipts this week have not been large for this season of the year, as 27,277 head were received in the corresponding week a year ago.

not been large for this season of the year, as 77,277 head were received in the corresponding week a year ago.

In spite of the liberal receipts the market this week on beef steers has been very satisfactory from start to finish. There has been an active buying demand every day and prices have steadily firmed up until at the close of the week it is safe to quote both cornfeds and grassers as 15@25c higher than one week ago. A feature of the trade has been the free buying on the part of packers of common thin cattle that other years would go to feeder buyers.

While the demand for cows and heifers has been very good this week and supplies have been kept well cleaned up the fact that receipts were larger and that prices at the beginning of the week were unreasonably high as compared to other selling points caused a downward movement in values until at the close of the week the market is 15@25c lower than one week ago. Another cause for weakness in the market for cows and heifers was to be found in the fact noted above that packers are buying a good many of the common and thin steers, which as a mater of ers are buying a good many of the common and thin steers, which, as a mater of course, are cheap beef producers and hence take the place of cow stuff. The large

been a six.

During the week the hog trade has been moderately supplied with trend to prices decidedly higher. Current sales show net advances of 30% to over a week ago, this improvement being partly due to a liberal shipping demand. About 15,000 head of hogs, all weights, but good quanty, sold on shipping orders, fully 30 per cent of the week's total. week's total. Representative sales:

Progress of Western Development

Montrose County Has Many Records

Western Slope of Colorado Will Ship More Fruit Than Any Section in Country.

MONTROSE, Colo., Aug. 4 - (Special.)-The western slope of Colorado will ship to the outside world more products than many entire states will ship, and Montrose county will lead them all," says F W. Monell. "The great Gunnison tunnel driven by the United States government was completed a year ago and part of the water has been available. The result has been to treble our output. While not so large in the fruit line as some counties, Montrose will make a good showing. The Ashenfelter orchard will ship 15,000 boxes of peaches, 7,800 crates of prunes, several cars of apricots and 95,000 boxes of apples Dates. | 1911 | 1916 | 1909 | 1908 | 1907 | 1906 | 1905 |

Cattle Hoad 2 country for them. The yield will average twenty-one townsty-four hours ending at 3 0 cnock p. m., yesterday;

RECEIPTS—CARLOTS.

**Cattle Hoad 2 country for them. The yield will average twenty-one townsty-four hours ending at 3 0 cnockers and butchers, \$1.2567.45; heavy for them. The yiel Fraser & Hill on ninety acres will have 9,000 bage. Cattle will be around 400 cars and Acreage This Year is Greatest on will take over 500 cars to move. The farmers are paid on the sliding scale, according to saccharine matter contained in the "Montrose county holds the world's rec-

ord on cattle, Al A. Neale, with his shorthorns having won the world's championship twice in succession at the International at Chicago. At the Western Stock show Montrose county won everything in the forage department. At Columbus, O., It got the gold medals for wheat and barley and made a good showing at Omaha. At Portland and all the late expositions it won many firsts.

"Montrose county will, on a very conservative basis, contribute from farms \$3,000,000 to the nation's prosperity. Its silver, copper and uranium, mines many thousands more, while its sawmills will be no small item."

Activity at Nyssa of Substantial Sort

Short Line Being Rushed to Completion and Crops Are in Excellent Condition. NYSSA, Ore., Aug. 4 .- (Special.)-There

is a great deal of activity in all kinds or business in the vicinity of Nyssa. The Short Line is rushing to completion and to accommodate the growing business last season.

St. Paul capitalists are furnishing money to pump water from the Snake river at a point just above Nyssa to the lands above the Owyhee ditch and extending down the river to cover 10,000 acres or more back of Nysea and Ontario. Another project that will irrigate about 4,000 acres lying just above the mouth of the Owyhee river and along the new section of the Short Line is financed by Chicago people.

Farm crops were never better. Oats will field from sixty to 100 bushels per acre. wheat from thirty to sixty bushels per acre, barley about sixty-five bushels per acre. The first cutting of alfalfa and clover is in the stack and the second cutting has just commenced. Many fields here are devoted to aifaifa seed and the prospects are for a yield of from eight to welve bushels per acre.

Annual rainfall here does not exceed eight inches; therefore "dry farming" pays only when much of this moisture comes in the spring. As it happened this year, the dry farmer is exceedingly happy.

Beet Sugar Industry

Record, and Mills Will Run Four Months.

BILLINGS, Mont., Aug. 4-(Special.)deports received from every section of the district where sugar beets are being cultivated are to the effect that the crop is in the best possible condition and that the largest harvest in the history of the industry in Montana is promised.

Not only will the yield per acre be entirely satisfactory to the growers, but the aggregate will be such that the big mill year or two a cry of distress may go up will be kept running to capacity day and from some of the new towns like that night for four months or more—the long- which was wired from Belgrade, a center est season since it began operations in October, 1906.

The fact that the mill will be able to operate through a four months' campaign is because the acreage cultivated to beets this year is also the greatest on record. Friction Between this year is also the greatest on record, and, according to those in position to make such statement, fully 15,000 acres are being grown in the Yellowstone, the Clark Fork and adjacent valleys and the Big Horn country of Wyoming.

An idea of the manner in which the industry has expanded can be gained when it is remembered that not to exceed 6,000 acres furnished the beets which went into the maw of the factory during its initial ist, and George P. McCabe, solicitor of the campaign.

According to those who have been keeping posted on farming conditions, some of the best beets produced are those coming secuted, was indicated today before the from the Huntley project, and, realizing house investigating committee, Counsel that their lands seemed peculiarly adapted for Dr. Wiley placed in the record a copy to the crop, the settlers have acted ac- of a letter written by Mr. McCabe to Dr. cordingly, with the result that hundreds Wiley on January 29, 1910, in which McCabe the section of their water-grade railroad of acres of beets are growing there today, demanded to know why Dr. Wiley perfrom Nyssa, Ore., to Homedale, Idaho, the area being more than twice that of mitted certain "cut rate patent medicines"

are putting in over two miles of sidetrack Prize Barley Grown in Gallatin County

Pabst Cup for Brewing Barley Was Won by the Manhattan Company.

BOZEMAN, Mont., Aug. 4.-(Special.)-The best barley in the United States is grown in the Gallatin valley and the Manhattan company has proof of the fact in the large, costly and beautiful Pabst cup, which their exhibit of barley won "for the best brewing barley grown in America."

Reports of 192 fields of irrigated grain covering 14,000 acres have been collected and show an average yield of 58.2 bushels per acre and an average value of \$38.28 per acre for the crop. The average crop yields were: Oats, 76.4 bushels; barley, \$8.7 bushels; wheat, 44.2 bushels, and potatoes, 291.6 bushels. So much for irrigated land. For forty

years the farmers of Gallatin county have been growing crops without irrigation and did not know that they were doing anything remarkable or founding a new sci-Booms at Billings ence, that of dry land farming. The sereage in cultivation above the ditches has increased every year until now it is larger than the area under irrigation.

Reports of seventy-six fields of grain embracing 7,490 of non-irrigated acres show an average yield of forty-two bushels and an average value per acre of crop of \$35.39. in addition to the staple crops Gallatin valley farmers realize large sums from dairy products, poultry, eggs, berries, fruits and

This favored valley is one of unequalled natural beauty. Robert Ingersoll called it "a dimple on the face of nature." It has pure water, pure air and a delightful and healthy climate. New settlers are pouring into the vacant public lands and in a of the grain region of Gallatin county, vin: "Hurry up those automobiles; I can't meet the demand from farmers."

Wiley and McCabe

Copy of Letter from Solicitor to Chemist is Placed in Evidence by Doctor's Attorney.

DES MOINES BALL TEAM SOLD league. That the Des Moines team will Koch and McKay

Higgins Announces Transfer of Franball season. chise to Unnamed Purchasers.

WINSTON GAINS CHAMPIONSHIP ILL PLAY GAMES AT HOME New Management Will Try to Put Defeats Cannon for Missouri Valley Team Again on a Popular Basis

at Home and Dwyer Re-

mains Manager. Announcement was made Saturday of the sale of the Des Moines base ball team purchasers of the team are and where they hall from is at present unknown to the public and will be kept a secret pending the transfer of stock and purchase price That the new purchasers, who are two in number, are in good with the Des Moines fans is an established fact according to

Mr. Higgins. The sale of the team came after a con ference with the new purchasers for three The sale price was in excess of days. \$18,000, and the three players, who were not supposed to go with the sale were thrown in. The three players are, Benz, the star twirler; Mattick, the heavy hitting and clever centerfielder, and Ulatowski, touted around the circuit as the best catcher in the league. President Higgins some time ago stated that he would sell the team for \$15,000 without the three players, or for \$21,000 with the three players. It is not thought that \$21,000 was paid for | the team, but that a compromise was amiably settled upon.

The purchasers of the team are said to be practical base ball men, having been connected with base ball for the last eight or ten years, and are familiar with the business end of the game. President Higgins said he was glad to get rid of the team to men who were in good anding with the Des Moines fans and who would oon put the team on a paying basis with the co-operation of the Des Moines people According to Mr. Higgins, he is glad to get out of base ball and, following the final disposal of the team, he will return to Chicago, where he has lived severa

Games Go Back to Des Moines. All games which were scheduled to be played at Des Moines and which were ransferred the early part of last week to the other towns in the league who were to play at Des Moines, will be transferred to the Iowa capital. The three games which are to be played with St. Joseph the latter part of this week, may not be played at Des Moines, unless the car strike is settled, or arrangements made to carry the fans to the park. For the fiew owners it was stated that strike conditions in the lows city would not prejudice the closing of the deal, but that it probably would not be possible to play the early scheduled games there unless traffic becomes normal

City Will Have a New Park. It was also announced last night that arrangements were practically completed for a new downtown park at Des Moines and that plans had been drawn for the erection of the grandstand. It is thought by the purchasers that the erecting of new park would bring out a better crowd than the park out in the outskirts of town. When the sale has been completed word will be sent to rush the work on the new park.

"Bill" Dwyer, who has managed the Des Moines team all season, and who is a great favorite with the Des Moines fans and people at large, will still retain the SHEEP—Only three cars of sheep were reported in today and they were consigned though being held over here only for feed and water, so that there was really nothing on sale. For the week receipts foot up 51.505 head, being the largest of any weak since the third week in November.

A feature of the week's receipts has been the large run of heavy wethers, as fully half of the receipts consisted of that kind. As a result of this excessive run of one kind prices broke badly and at the close of the week are around sole lower. Handy ewes and yearlings are closing suppose lower than last week.

Lambs were active some days, dull others and alternately strong and weak, but the strong and office of manager, and is personally ac-

and what a new management can do for Lose to Dakotans it, is shown by the fact that the team will be home practically the rest of the base-

Branson and Barton Defeat Omaha Men in Doubles at Sioux City.

SIOUX CITY, Ia., Aug. 6.-Ray L. Bran-Winston of Norfolk today became tennis son of Mitchell, S. D., and John Barton of champion of the Missouri valley by de-Sioux Falls won the championship doubles feating Jack Cannon of Kansas City, who in the tri-state tennis tournament here held that title. The match was the final today, from Koch and McKay of Omaha, in the singles in the last day's play of 6-1, 6-1, 7-9, 6-3. In the forenoon, the Omaha by President John F. Higgins. Who the the tenth Missouri valley championship pair defeated Hicks and Howell of Sloux City.
