WHEAT BELT REPORTS BULLISH Corn Crop is Undonbtedly a Short One Compared with Average Year and Very Short Compared with Lunt Year.

OMAHA, Sept. 11, 1911. The foreign situation continues to be builish, the semand for all foodstuffs, both numan and animal, is very active abroad. Reports from our spring wheat states is also bullish, wet weather adding to the damage already done. Threshing returns are not good either as to quality or quantity. It is thought a good deal more export business is being done than is reported and the trade is watching foreign conditions closely.

onditions closely.

The corn crop is undoubtedly a short one to b., affoat, export grade. Futures market was without transactions, closing compared with an average year and very short compared to last year. Present prices are based on the largest crop of corn ever raised in the country. Built leaders are confident and the cash situation is a strong one, all the corn marketed will be needed.

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Sept. 11.—Official announcement that although the potato crop in Germany is badly short the promised yield of grain is about the same as last year, had a weakening effect today on the ptice of wheat. Closing figures were ic to 1% period ending the process of the proc i'de lower than Saturday night. All other leading staples, too, showed a net decline. corn 'de' to 'de''de', except for September, oats 'de''de and provisions to 10@00c.

Weakness at Berlin found a prompt response in Chicago. In the absence of a more definite reason, a drop in the quotations cables from the German capital was first attributed to big world shipments, with a surprisingly heavy total credited to the Danube. Liverpool stocks were also said to be accumulating in a rapid man-Danube. Liverpool stocks were to be accumulating in a rapid ner. Besides the foreign news there was depressing influence felt from hedging sales in the American northwest, particu-larly as a change to bright favorable

weather pointed to a decided increase in the movement of shipping wheat. No important rally occurred at any time during the day. December, after ranging from 56% to 57% c closed steady, but 1% 67% c corn made a more bullish display than any other cereal, owing to a little export business. September finished with a net gain of % 6% c. Other positions suffered from weakness of wheat and closed weak, with December 1% c off at 64764% c, after fluctuating from 6% to 64% c. Cash grades were firm. No. 2 yellow was quoted at 67667% c.

FINAL RALLY IN PRICES LIVELY Pressure Against United States Steel Coincident with Reports that . Operations at Mills Are on Small Scale.

NEW YORK, Sept. 11.—After opening on a considerably higher level, stocks feil to the lowest point of the year and then recovered. Net changes were slight in most cases and the final rally was so spirited that many of the active issues closed with small gains, running up to a point in Reading and Southern racific.

Opening gains, ranging from 1 to 3 points, were due to the earlier rise of prices in the London market. Traders took advantage of the rise to sell stocks. The selling had the appearance of being renewal of liquidation such as was the chief depressing factor for several weeks.

compared with an average year and very short compared to last year. Present prices are based on the largest crop of corn ever raised in the country. Buil leaders are confident and the cash situation is a strong one, all the corn marketed will be needed.

Reports of a less strained situation between Germany and Morocco gave wheat an easier tone. Prices eased off on selling bound sacks, \$25.35; standard milding, 100 pound sacks, \$25.35; standard milding

BHEEP-By far the heaviest supply of lambs arrived today that has been recorded since the high-water mark receipts of 1819. All of this season's records were broken in a run of over 50,000 head, this total approaching the largest run ever received here within only a few thousand head. Something like 30 per cent of the entire offerings were lambs and the proportion of fat classes proved seasonably limited. Feeders made up the big end of the supply and the market, in which country buyers, speculators, etc., held forth, promised to be the busiest.

Nothing much was done early to try out values, however, as more or less time was NEW YORK. Sept. II.—DRY GOODS— The cotton goods markets were more active during the day following the naming of new prices on ginghams. Jobbers are doing a fair trade. Yarns are inactive and irregu-lar. Novelty dress goods in woolens are in better demand.

In lambs, the entire buying party insisted BARBER WHO PLAYED POKER

In lambs, the entire buying party insisted upon cheapest cost. Generally it was a 10 Gibe lower trade, but declines were by no means uniform and a 1597 lower finish was hinted at in many quarters. Good fat lambs had to sell from \$5.00 to \$5.25. Feeder lambs had to sell from \$5.00 to \$5.25. Feeder lambs met with a broad demand, but showed poor action, the first figure on most sale being a "4." In spots the market ruled steady, bulk selling lower. The even money, \$5.00, was the popular guess at extreme top, for choice quality.

Sheep, both feeder and fat usually moved in last week's grooves. Desirable wethers, ewes, etc., were in very fair request from the start and early business indicated a steady scale of values.
