DURUM WHEAT

A Most Valuable Food original Durum wheat was grown banks of the Black Sea, and be-The original Durum wheat was grown on the banks of the Black Sea, and because of its richness in gluten has always been used by the Italians for the making of macaroni. The U. S. Agricultural Department imported some of the best specimens of this Durum wheat and tested it out. When they found the right soil and climatic conditions they produced the finest Durum wheat in the world.

From this wheat, so rich in nourishing elements, Faust Macaroni is made. For this reason Faust Macaroni is the most nutritious food of all—and, best of all, it contains that nourishment in the most easily digested form. It is all food, good food without waste.

Pays For Itself and Benefits Everybody

Merchants

National Cash Registers benefit merchants by preventing mistakes, carelessness, and misunderstand-

Mistakes cause loss, losses reduce profits and interfere with the growth of a business. Nationals cause clerks to increase their sales and benefit the merchants by increased profits.

Clerks

National Cash Registers benefit clerks by enabling them to get credit for their efforts.

They enable clerks to prove their integrity, and protect them from unpleasant disputes and unjust suspicion.

This helps the clerk to maintain that reputation which is so essential to his success.

Cashiers

National Cash Registers benefit cashiers because they remove temptation, relieve them of a mass of detail and prevent unjust suspicion.

They are protected from mistakes-their own and other people's Nationals enable cashiers to check the cash quickly and go home on time.

National Cash Registers benefit customers because there is a guarantee of accuracy in dealing with merchants who use Nationals.

Customers like to deal in stores where discipline, system and order prevail.

The National Cash Register stands for these desirable things in any store.

Servante and Children

benefit because they are taught accuracy and promptness in buying where a National Cash Register is used.

They are guaranteed exactly the same kind of treatment in a store where a National is used as the head of the family would get.

This is important, but not nearly so much so as the lessons of exactness and honesty which the National teaches.

We created the cash register industry.

We created the demand and after years of effort proved cash registers a business necessity.

There is 30 years of study and experience back of our product.

We developed the cash register business by studying the needs of merchants and building cash registers for all lines of business where money is handled and records kept.

The merit of our product has extended the cash register business to every civilized country in the world.

Improved organization, modern manufacturing buildings, improved machinery and trained employes have enabled us to meet the needs of over 1,000,000 merchants who are using National Cash Registers.

It will pay you to investigate how a National will benefit you.

Our facilities have always enabled us to guarantee to sell a better cash register for less money than any other concern in the world
