### ALFALFA NETS BIG RETURNS

Holdrege Man Tells of Profits Made by His Neighbors.

### BETTER THAN IRRIGATED LAND

Nebraska Acres Bring Greater Returns Than Any Land in the United States for the Money Invested.

"Alfalfa," said B. H. Price of Holdrege at the Paxton Sunday, "is one of the most profitable crops that the farmers of Nebraska can raise, and under some conditions and circumstances will pay the land owner \$9 to \$10 per acre gross per annum. I think it can be raised successfully in all portions of the state, but probably it does a little better in the South Platte valley than farther east and north. The soil seems to be better adapted to its growth for some reason."

"When I talk of the large returns from alfalfa I have a case in mind. North of Holdrege George Taylor has a field of forty acres of the forage plant. It was mowed all last fall and winter until the heavy snows came and at that time the ground was almost bare. The plants started to grow with the first approach of warm weather this spring and right now the entire field has the appearance of a flower garden. The field is ready for the first cutting, which will be started this week."

#### Taylor Makes Estimate.

"Mr. Taylor has made some estimates and he figures that the cut will run two tons per acre. But the best part of the deal is that he has contracted every ton to a Denver commission man. He gets \$12 per ton, f. o. b. Holdrege. The expense of the harvest will not be to exceed \$2 per ton, which leaves a nice little net of \$10 per ton, or \$20 per acre. There are few crops that will make more than this, but this is not all."

"Along in July, or perhaps the latter part of June, in the event the climatic conditions are right, Mr. Taylor will take off another cutting. This ought to run around three tons per acre and sell for at least \$12 per ton, f. o. b. Holdrege, which you can figure in another \$24 per acre gross. This ought to satisfy any man. But hold on."

"In August there will be another crop ready to take off this field. This will probably be about two tons per acre and it ought to sell for \$10 per ton gross, thus in the aggregate making \$40 per acre that the forty acres stands to return this season as revenue, to say nothing of the pasturage that it will afford after the last cutting and until the ground is covered with snow so deep that cattle cannot graze."

#### Better Than Irrigation.

"Show me a place in the famous and much lauded irrigation sections of the west where land will produce such returns. While Mr. Taylor's land is not for sale, tracts in close proximity and equally as productive, though not so highly improved, can be bought for from \$50 to \$75 per acre, while that irrigated land out there they can raise three to six tons of alfalfa annually is advertised and talked up as being cheap at \$200 to \$250 per acre."

#### Nebraska is good enough for any man who will cultivate the land and use his head in so doing. If a man can make \$20 per acre as Mr. Taylor is doing there is no use of looking or going elsewhere to try and find something better."

#### Julia Basso.

Scarlet fever claimed a second victim in the Basso family Sunday, when Julia, the 6-year-old daughter of Mr. and Mrs. John Basso, died. Three weeks ago, John, Jr., the infant son, died from the fever. The funeral was held yesterday afternoon from the home, 1218 South Twelfth street, inasmuch as in Forest Lawn cemetery.

### The Newest American Drink

Hawaii Has Presented the World With a New Drink that is Destined to Become the Drink of the Age.

Try taking this wonderful new beverage for awhile and notice how good you feel. It will build up the entire system.

Pure pineapple juice has a taste that makes an instant appeal. Its incomparable goodness and health-giving qualities have made it the foremost American drink.

It very decidedly aids digestion and is especially recommended for cases of core throat. Singers and public speakers should never be without it.

Dole's Pineapple Juice is the pure juice of choice pineapples, and is bottled right where the fruit is grown.

Sold by grocers and druggists everywhere. Order a bottle to-day.

"Cooling Drinks and Desserts," a little book containing recipes for many pleasant, cooling drinks, sent free.

Hawaiian Pineapple Products Co., Ltd., 312 Market St., San Francisco

### CUBANS DO NOT NEED AID

President Gomez Cables Firm Protest Against Intervention.

PEOPLE WILL CRUSH REBELLION Abundantly Able and Willing to Put Down the Insurrection—Fleet Sails South on Hasty Orders.

HAVANA, May 27.—President Gomez yesterday sent a cablegram to President Taft in which he protests in friendly but firm terms against intervention by the United States.

"It is my duty to say that so serious a resolution alarms and hurts the feelings of a people who love and are jealous of their independence," he says after reciting that he had received from United States Minister Beaupre a note informing him that the Washington government had ordered a gunboat to Nipe bay and a strong naval concentration at Key West in anticipation of possible eventualities, and also in event that the Cuban government was unable to protect American property it was the intention to land forces for that purpose.

President Gomez says the government is doing its utmost, having within four days sent 2,000 troops by land and sea to crush the rebellion in Oriente and in that short time restored order in all parts of the island with that exception. He also says that 2,000 rifles with ammunition have been distributed to loyal citizens and that the government is prepared to flood the comparatively small disturbed section with regulars and volunteers.

Cuba Able to Act. "I appeal to you," he continues, "as a loyal friend of Cuba, respecting its rights, that you will be convinced that this government is capable and sufficiently supported by the valor and patriotism of the Cuban people to deal promptly with a few unfortunate and misguided persons without reason or fear."

"If you understand these conditions you will perceive that it is not the part of a friendly government to contribute, under such circumstances, to the embarrassment of a government and people such as those of Cuba, placed, it is true, in unfortunate conditions, but not lacking in its methods, patriotism and courage."

### REBELS ACTIVE IN ORIENTE

Numerous Calls for Protection Made Upon Government.

SANTIAGO, Cuba, May 27.—Conditions in the province of Oriente continue to be extremely alarming. From all quarters petitions are pouring in for protection, which the government is unable to furnish because all available troops are being concentrated for the purpose of surrounding the main bodies of the rebels under General Estenos and Iveton.

Troops under Colonel Machado had an engagement at Farral with the rebels, in which a number of the rebels are reported to have been killed or wounded, the remainder being dispersed. A company of volunteers of Santiago exchanged shots last night in the outskirts of the city with a party of insurgents whom they dispersed.

At Tiguanoh, near Guantanamo, government forces under Captain Percy routed a band of insurgents, killing several.

### El Cobre Threatened.

A PARTY of 100 mounted negroes appeared last night at Aurora Maniel, threatening an attack on El Cobre, ten miles west of Santiago, where the mines of the Cuba Copper company are located. The government being unable to despatch troops sent fifty rifles with which officials of the company armed the miners and other employees.

Great alarm is felt at Baracoa. The town is without protection and is cut off from communication with the interior. An urgent appeal has been made to the government to send a gunboat.

General Estenos passed through Jara-buaya, about thirty miles to the north-west of Guantanamo, this morning with 100 mounted men under his immediate command. General Iveton, with a band of 100 negroes, mounted and armed with new rifles, is pillaging the stores at La Carolina and vicinity. Insurgents have appeared near Bayamo and Jiguan, in the interior of the west, which heretofore has been reported tranquil.

### Rebels Active.

The rebels have again surrounded Palma Soriano, north of Santiago, the inhabitants of which are vainly appealing for protection. The Atlantic Fruit Steamship company has also asked protection for its property at Sagua de Tanamo, on the north coast of Oriente, but no troops are available.

General Estenos yesterday demanded \$1,000 from planters in the vicinity of Tiguanoh. He obtained \$1,000 after threatening to hang the planters. Reports from Manzanillo, on the west coast, state that a number of negroes, who were leaving town to join the insurgents in the field, exchanged shots with a police patrol, some of them being wounded.

The force of volunteers organized by the chamber of commerce of Santiago to

defeat the city now numbers upwards of 200 well armed men. The strike has been settled and the work of loading the steamers has been resumed.

### Automobile Stops on Interurban Track and Four Are Killed

MARTINSVILLE, Ind., May 27.—Four persons were killed at Centerton, near here, late today when their automobile went dead on the tracks of the Martinsville division of the Indianapolis, Terre Haute & Eastern Traction company and was hit by a car. The automobile was thrown into a ditch and wrecked.

The dead: W. D. BROWN, JR., MRS. W. D. BROWN, JR., MISS BONNIE BAILEY, II., MISS JESSIE CURE, II. All lived in Martinsville, Ind. Eddie Brown, aged 19, son of the dead couple was driving the automobile and owes his life to the fact that he jumped when he saw he was unable to get the machine started. He was severely injured.

### Chief Justice White Asked to Take Hand

NEW YORK, May 27.—After trying in vain to select the five men necessary to complete the board of seven men to arbitrate the demands of the engineers on the eastern railroads, it is understood that Daniel Willard and P. H. Morrissey, the arbitrators, respectively representing the railroads and the engineers, formally will place the matter in the hands of Chief Justice White of the United States Supreme court. Judge Martin A. Knapp of the commerce court and Labor Commissioner Charles P. Neill this week. It was originally agreed that they were to select five arbitrators to complete the board in case Willard and Morrissey were not able to agree on them.

Mr. Morrissey left here today for Washington, where, with Mr. Willard, will confer with Judge Knapp and Commissioner Neill, who will select the five arbitrators and the chief justice will ratify their choice.

### TEXAN GOES ON SEARCH FOR WOMAN WHO SLASHES HIM

"I'm from Texas and as soon as I get my six-shooter I'm going to make one Omaha colored woman understand how we resent insults down in the Lone Star state."

In a dramatic manner a man giving the name of Ed Kinney and his address as Rosenberg, Tex., told Police Surgeon Eiwold Sunday afternoon what he was going to do to a woman who had slashed him across the left arm with a razor.

Kinney says he was cut by a woman in the Paris hotel on Douglas street. At a late hour last night Mr. Kinney from Texas had not made his return trip to wreak his vengeance upon the woman with the razor.

### DES MOINES CONDEMNS MEAT

Five Thousand Pounds Held to Be Unfit and Unwholesome.

PRODUCT OUT OF COLD STORAGE

State Board of Education Upholds President Bowman in His Consolidation of Branches of Medical School—Beautifying City.

(From a Staff Correspondent.)

DES MOINES, Ia., May 27.—(Special Telegram.)—Five thousand pounds of meat belonging to J. W. Dorr, the Dorr Cattle company and Iowa Packing company, pronounced impure and unwholesome by City Physician Saylor, was ordered confiscated today by the city council, sitting as the board of health. The meat was in cold storage at the Sherburne and Shotwell warehouse. Notice of the council's action condemning the meat and ordering it destroyed was sent to the owners at once.

Some of the alleged impure meat was seized by health officials at the grading camp of the Lincoln Improvement company.

The State Board of Education held a session today and among other things considered the attack made on the state university in regard to the changes in the medical school, to which the homeopathic object. The board members say they will not comply with the request of doctors for a change.

Members of the Greater Des Moines committee today pledged \$200 in aid of the building of a dam across the Des Moines river near the junction of the Coon River to form a lake in the city and for ornamental purposes. It is proposed to build such a dam to beautify the river near the postoffice and city hall.

### Sergeant Acquitted in Murder.

CODY, Wyo., May 27.—(Special.)—Sergeant Clarence Brittain, charged with the murder of Private Cunningham in Yellowstone park last March, was acquitted by the jury.

### TREES GROW IN SAND HILLS

Mullen Man Says it is Possible to Reforest Wastes.

### USED MAPLE COTTONWOOD PINE

Three Years Ago He Starts Experiments and Now Has Many Fine Growing Trees on Former Great Desert.

"That it is possible to reforest the sand-hill section of Nebraska has been thoroughly proven," said E. E. Olson, residing north of Mullen, some twenty miles in Cherry county. He was in the city over Sunday, stopping at the Paxton.

"My ranch, including a Kinkaid homestead and 1,000 acres of deeded land, is right in the heart of the sandhills of the sandhills. Of course, I have some valleys and hay flats, but the greater portion consists of a succession of hills of sand. This sand is without bottom and as white and pure as that along the Missouri river. By keeping the prairie fires off I have succeeded in getting all of the hills grassed over so that the pasture is fine and the blizzards no longer occur. However, it is sand."

#### Experiment a Success.

"Three years ago I started experimenting with trees, planting boxelder, maple, cottonwood and pine. The first year was unusually dry, but of the 10,000 trees planted I did not lose to exceed 500. The maples nearly all pulled through, as did the cottonwoods. The losses were the heaviest with the boxelders, the poorest of all. I did not lose more than fifty of my pines. The next year I did not lose a tree and this spring every one of them is in fine condition and growing rapidly."

"To get my start I planted pine seedlings and the seeds of the maples and boxelders. The cottonwoods were seedlings pulled along the Niobrara river in the north."

"Understand I did not plant my trees in any flats and valleys, for this land was too valuable for this purpose. I put them on the side of the sandhills and in some instances right on the very top of the ridges. Now I have hundreds of trees six and eight feet high and they have been growing but three years. I expect I have 1,000 pine trees as large around as a man's wrist and from four to five feet high."

### Sudden Flood Causes Loss Near Yankton

YANKTON, S. D., May 27.—(Special Telegram.)—Three inches of rain fell in Yankton this morning. This creek rose to a height not known since the town was settled. Many houses were flooded and at daybreak inhabitants were rescued by boats. Great damage was done to city and country bridges, with heavy individual loss. Half of the rainfall fell in twenty minutes. The James river valley is flooded and there will be great loss to farmers, it is feared. The water is now rapidly subsiding.

### SUNDAY SCHOOL PICNIC IS MARRIED BY A JEST

Thomas and R. E. Foren, bricklayers, nearly brought the annual picnic of the Talmud Torah Hebrew school to an untimely and yesterday afternoon by accidentally pulling a string of dynamite, resulting in a. Richards, one of the picnic-makers. Thomas Foren and his brother were unbidden guests at the picnic and feeling that their presence was not wanted they grew restless.

"Hey, look, want to buy a tinhead," mockingly shouted one of them. In the rush to see the diamond Richards led, and the intruders thinking it was a concealed attack upon them, used their fists heavily, putting the picnic-makers to rout. The police were called and the brothers were jailed, but were later released at bonds of \$5.

They were given ten days in jail each this morning by Judge Elliott.

### DRUGGIST'S MESSENGER IS WORKED BY BOGUS CHECK

The mosty old check-book was worked successfully early Sunday morning upon Arthur McCray, a messenger, by an unidentified person who would fare rather ill should McCray lay his hands upon him. About midnight Saturday night someone called up the Paxton drug company at Fifteenth and Farnam, streets and asked that a certain prescription be filled and sent out, and that the messenger delivering the package should bring along change for a \$5 bill.

When McCray delivered the package to a man in apartment No. 2 of the Sterling apartments at Eighteenth and St. Mary's he was tendered a bogus check, but he did not know it then. McCray gave the stranger \$2.25 and returned. The check was discovered to be so good.

### TWO FISHERMEN NARROWLY ESCAPE DEATH IN RIVER

Charles West, Jr., and another fisherman, living on the Iowa side, narrowly escaped death by drowning when their boat was overturned yesterday in the middle of the Missouri by the high wind while using a trammel net.

The overturned boat and abandoned net were found and both were thought lost. Later search by the officers of Council Bluffs revealed that they had managed to "porpoise" swim through the high waves to shore.

Live wire smokes Permitts, 5 cents.
