Say Collins Will Continue. Stories of the strivings of petty politicians to win the good graces of the Omaha Water board and incidentally the dispensing of whatever local patronage that body may exercise are going the rounds of South Omaha. One intimately associated with members of the Omaha board yesterday declared that Charles Collins, for twenty-five years local superintendent of the local water station, would be continued in his place, notwithstanding the change of title in the water

He said that as far as local conditions are concerned the board recently stated that the affairs of the station should be conducted as if no change of ownership had ever been made in the property. He added that the recent activities of petty politicians of the local ring had done nothing but create amusement among the members of the board. students of the university. Edward F. Leary, delivered the master's oration, "College Education and the Professions" which was followed by the bachelor's oration, "College Education and Business," by Mark J. Ryan. Both were well composed, contained good logic

and were excellently delivered. Mr. Leary told how college education diminishes intellectual conceit and cited the experience of lawyers "who bring to their daily tasks the widest knowledge" and by physicians who must live and day consisted of an aviation flight over work with "standard higher than the dollar."
