This week's bill at the Gayety theater will be headed for the first half by "Creo," an act of mystery that has purzled not alone audiences all over the world, but scientists as well. Associated with "Creo" on the bill is Charles Sanders, whose comedy singing and talking have earned him the title which he uses. "The Man of the Hour." Mr. Sanders will touch on local events in Omaha as observed by him. On Thursday the bill is headed by Don & Mae Gordon, comedy cyclists. Mae Gordon's parents live in the north end of the city, and back in the early 90's young Don used to hustle messages for the American District Telegraph company here in Omaha. Gwynn & Gossette will present a comedy sketch entitled "A Galden Wedding. Baritone Burton will appear in Mexican costume all week and will sing the songs of our neighbor country. An interesting mov-

and Wednesday only, will be the first showing in Omaha of the "Know Omaha" film which was made under the auspices of the Omaha Commercial club. The Gayety will be the first theater to display this reel, which will be accompanied at each showing by a descriptive lecture. Following the usual policy the pictures will be changed daily, maintaining the usual standard and will send the audience home with a feeling of satisfaction of an afternoon or evening well spent.

The Harmony Duo will be one of the features of the vaudeville bill at the Airdome Sunday night and will remain until Thursday. The cool spot on the hill where the breezes strike the audience from all sides has become the real popular place of the city in the recent hot spell. Audiences coming early found conditions so comfortable and the shows

so good that they remained until the last curtain dropped. Four special feature reels of moving pictures, shown for the first time in Omaha, constitute the nightly bill of pictures. These are changed every night, giving the patrons an opportunity of seeing twenty-eight photo plays every week. Monday night the feature photo play-"The Seventh Son"will be shown in Omaha at the Airdome.

Crops Are Coming On in Fine Shape

Weather conditions for crops in Nebraska, Iowa, Kansas and the Dakotas remain unchanged, very little rainfall being reported along any of the roads. Winner, S. D., reports 1.13 inches of rain Friday, and all small grain in that part of the state is in excellent condition. Along the Union Pacific in eastern portions of Kansas light showers were noticeable.

Small grain and corn prospects in Nebrasks are very favorable at present and harvesting has already started in many parts of the state.

BORUFF IS HELD FOR TRAFFICKING IN PASSES

H. E. Boruff, before United States Commissioner Daniel charged with using the mails to defraud, was bound over to the grand jury.. His bond was fixed at \$560. He could not furnish it and was returned to the Douglas county jail. He has been in the employ of several railroads during the last few years, where day. he in various manners secured numerous passes. These he rode on between several stations, especially on the Great Western. Desiring to go to Ogden from Omaha and hoping to get some spending money before starting, he inserted an advertisement in a daily paper, advertising a railway pass for sale. It was on this that the complaint was made. He had in his possession a great many conductor's hat checks, which he said he had been saving during his travels. In reply to a question he said he could not tell just why he had formed the habit of saving these, nor did he tell how it happened that the
