During the year which ended June 3 last 452 persons were convicted and sentenced and 571 cases are awaiting fina disposition. Postmaster General Hitchcock's orde

to inspectors to collect evidence that would warrant criminal prosecution of the swindlers gradually is building a wal of protection against such frauds around CHICAGO GRAIN AND PROVISIONS the American people. Before that the punishment was only a fraud order forbidding the delivery of mail to such operators, who worried but little. They merely changed their names, addresses and title of their "businesses," continuing their operations until another fraud order caught up to them.

The report says that these fraud manipulators, who usually exploit bogus mines, fake remedies and worthless lands, constitute a distinct class of lawbreakers. Among the wealthy offenders who have been caught by the inspectors are criminals who have posed as respectable citizens, leaders in their communities and personages in the highest social and business fields. Some of them were millionaires, enriched by their plunder. Some of these men are now serving prison sentences.

### Midshipman Killed Following Tradition

ANNAPOLIS, Md., July 22.-William L. Bullock of Corsicana, Tex., a midshipman of six weeks' standing at the naval academy, was killed this afternoon Ly falling from the top of the mainmast of the Hartford to the deck. His neck was broken and he died instantly.

Bullock had just accomplished a which tradition demands of a new mid- and ribs, 71/2c to 10c. shipman, the climbing of the mainmast of the Hartford and the transfixing of his cap on the spike which adorns the top. He tried to slide down, but the rope

Pressure from the Country to Sell Wheat is Not Pronounced.

CORN IS PROGRESSING FINELY

Heavy Rains Fall in Oats Sections and the Indications Point Toward a Large Yield of the Cereal.

OMAHA, July 22, 1912. Liverpool wheat opened hard lower. The crop conditions abroad are generally favorable. Our weather is favorable, with some scattered precipitation in the north-west and Iowa. The cash demand is moderate so far, but while it is expected receipts will increase in the next few weeks the pressure to sell from the coun-try is not pronounced. With the lower freight rates in the southwest prospects for export business via the gulf are much better. On the whole there is a present outlook for an excellent trading market. The wheat receipts from now on should be very heavy throughout the entire coun-try. Experts as well as local traders are very optimistic as to the outcome of the crop. B. W. Snow wires: "Reports of black rust in the northwest may be expected from time to time. It is present every year and can always be found if you look for it. The thing to remember

stage cannot be hurt by any new intec-tions." Cash 2c lower.

Corn cables are firm and unchanged to %c higher. The weather map shows some scattered showers. Generally the corn is making good progress. There is a big shortage in corn and traders advise against too aggressive selling on the dip, against too aggressive selling on the dip, as reactions from oversold spots are extremely likely. The cash position is weakening, both locally and also in the southwestern markets. Consumers are pursuing a hand-to-mouth policy owing to the lowering of prices for all other foodstuffs. Cash, 14,22% c lower.

Heavy rains fell in some sections, but generally speaking the out crop outlook continues favorable, with indications of a big yield. There has been a fair selling.

a big yield. There has been a fair selling temporarily. It is believed the coming prices show no inclination to rally except of new oats for the August shipment. The week will see more or less hedging pres-sure against sales. Cash oats ½c lower. Clearances of wheat and flour were 202,000 bushels; corn, 19,000 bushels; oats,

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, July 22-Reports that har-vesting had spread as far north as Minnesota and that except in a few counties the whole spring crop of the United States was practically beyond danger from rust, made the wheat market heavy today. Closing prices showed 1/20 decline. Latest trading left corn 1/46/30 to Make down, oats varying from the off to 114c up and provisions less expensive by 74c to 25c.

Although frequent rallies took place in the wheat pit, they grew more feeble as the day advanced. Pressure of new wheat from the southwest worked hard against the bulls. Kansas City arrivals amounted to nearly three times as much as a year ago, and neutralized the influence of exports by way of the gulf ports. Big yields, too, were reported from Nebraska. In the course of the day, September delivery ranged from 91%c to 33%c, with the close steady at 92%c, a fall of %c compared

with Saturday. with Saturday.

Ideal weather for growth, led to active selling in the corn crowd. September fluctuated from 63%c, to 64%c, closing %c net lower, but firm at 65%@64c.

Cash grades were in fair demand. No. 2 yellow, 7014@7014c.
Receipts of oats were small. September ranged between 33@3314c, and 3414c, with last sales, 3314c, a gain of 14c. July rose 4c to 4c. Provisions receded owing to the heavy weight of the hogs arriving here and because of a decline in quotations at the yards. The outcome was a setback all around, pork, 10c to 25c, lard 714c to 15c. Closing quotations on futures were:

5,979 CATTLE—Cattle receipts were large again this morning, in fact the largess that they have been on any day thus far they have been on any day thus far this month. A peculiarity of the receipts was that that consisted very largely of cow stuff, it being estimated that there were around 100 cars of she stuff on sale.

Beef steers being in moderate supply convended steedy prices. commanded steady prices. While the market was not particularly active there was a fair demand and the big end of the receipts changed hands in good sea-

supply, buyers naturally took advantage of the situation to pound prices especially so in view of the fact that the market at this point was high on that kind of cattle last was the control of the cattle set was the cattle set. cattle last week. The result was that the market on cows and helfers was slow and weak to as much as logibe lower than last week's close.

The supply of stock cattle and feeders was a fair demand the market was fully steady on all desirble grades.

HOGS-With a fair run of hogs here for a Monday, trade began reasonably early with shippers and speculators buy-ing good lights and butchers at prices anywhere from steady to a nickel lower Packers bought very sparingly early, but were more active after shippers and speculators had filled their more urgent orders and they made the most of their purchase weak to a nickel lower. Trade was active from the start with all buy-ers seeking hogs of good quality first, leaving other kinds to sell more slowly, at or near the close of the market. As recently demand was good for hogs showing quality, but this class of stuft was in comparatively light supply. Rough heavy hogs weighing around 400 pounds were hard to sell and moved at prices around \$6.70. Best light hogs on sale brought \$7.45, a nickel lower than Saturday's high price.

Receipts this morning footed up about sixty-four loads with the general quality a little below the average of last week. There were few choice heavy hogs among at or near the close of the market.

There were few choice heavy hogs amon today's offerings. A complete was made by 11 o'clock.

No.

SHEEP-As to size the recoipts of sheep and lambs this morning were very similar to what arrived here last Monday, similar to what arrived here last Monday, as about thirty loads were reported in. The general quality, however, was not quite so good as a week ago, there being very little real good stuff included in today's receipts. As during the last week the bulk of the supply was made up of fat sheep which consisted chiefly of wethers and a fair number of ewes, the number of yearlings being comparatively small. Among the sheep offerings there small. Among the sheep offerings there were a few loads of pretty good quality. Lambs made up the small end of the re-

Lambs made up the small end of the recelpts and were only of common to
medium quality. Shipments were received this morning from Idahe. Montana, Wyoming and Oregon, with a lead
or two from the corn belt.

The market opened fairly early, but
under a bearish influence due to the liberal supply at Chicago and other markets and also to the continued weak condition of the eastern mutton trade. There dition of the eastern mutton trade. There remained, however, a good demand for all kinds of desirable killers, there being less call for common to medium stock. Early in the morning only a few loads of the best offerings changed hands and

Presure Against Certain Leaders Probably Responsible for Reversal-Steel Issues Heavily

NEW YORK, July 22.—Indications of increasing confidence in general conditions were reflected in early operations on the stock exchange today, but the movement flattened out later, leaving quoted values without material change. Pressure against certain leaders, particularly United States Steel, Union Pacific and Reading, was probably responsible for the reversal. Steel was the foremost feature, being quite heavily sold after its fractional opening advance.

No news accompanied the liquidation or short seiting other than the fact that there wister much difference of controls.

the best offerings changed hands and these were at steady prices. Among the first sales were two cars of Idaho ewes at \$4.00 and the tops out of three consignments of Wyoming ewes at \$3.85. A load of Idaho yearlings brought \$4.75.

A load of medium lambs sold at \$6.50. Trade was slow and dull throughout the day, with packers bidding on all kinds of sheep and lambs at prices that were weak to a little lower than the close of last week.
