### ALDRICH'S FRIENDS AMAZED

Executive Draws Much Criticism for Acts in Convention.

#### CALL HIM THE BOSS OF BOSSES

Proved to Have Carefully Mapped Out Program in Mind and Did Not Precede with Idea of Promoting Harmony.

(From a Staff Correspondent.) LINCOLN, July 31.—(Special.)—Business was at a standstill practically, except with the clerks, at the state house this afternoon. Everybody was talking politics and the split in the republican convention yesterday. It is the general opinion among the state house people and shared by the governor's appointees that he made the mistake of his life yesterday in accepting the chairmanship of the convention.

"Had the governor taken that chairmanship with the idea of trying to get harmony," said one man this morning. "he might have been justified in it, but he seemed to take pleasure in running the steam roller over the Taft people and seemed to enjoy the situation when the Taft delegates, falling to receive recognition at the hands of the convention, left the hall." "We have heard a great deal in the last two days," said a republican this morning, "about the work of the bosses, but when I saw the governor, as chairman of that convention, pull a type written program, prepared by a committee of self constituted leaders from his pocket and run the convention according to the line laid out therein, I rather feel that all of the bosses are not to be found in the ranks of the Taft crowd."

Among those who lingered in Lincoln today after participating in the conventions yesterday were N. P. McDonald and Professor Thomas of Kearney. "I am fully in accord with the work of the Taft convention yesterday and am for President Taft. I expect to do all I can for his election. He is the regular nominee of the republican party and there is no other," said Mr. McDonald.

**Speaker for Moore.**  
John G. Sprecher the Schuyler statesman, was a caller at the office of General Phelps this morning. Senator Sprecher is here to attend the third party of bull moose convention today, but at noon had not been able to locate the man who called the convention or find where it was to be held. "I did not attend the republican convention yesterday," said the senator, but from what I have read in the papers I think that the Taft men are in the right. Mr. Taft is the only candidate of the republican party and men who cannot support him have no right to the term republican. The five Roosevelt electors should get off of the ticket and let their places be filled by men who will vote for President Taft if he should carry the state."  
The men who ran the steam roller yesterday are very quiet today. They do not seem to be nearly as jubilant as yesterday and are beginning to see the position they have placed themselves in. F. P. Corrick refused to talk and referred all questions to some one else. As Corrick was one of the committee who put up the job yesterday, his silence this morning is suggestive of possible future disappointment.  
It seems to be the general opinion that the prayer of the governor's record clerk at the opening of the convention for a "square deal" and a "harmonious gathering" must have been steam rolled before it reached even the ears of the prospective chairman of the convention.

Marion now does not wish to prosecute his brother, but the prosecution rests with County Attorney Hawxby. ### WIRE WALKER LOSES GRIP AND TRIES POISON

ASHLAND, Neb., July 31.—(Special.)—Ignorance of the effect of chloroform on the system in a measure at least prevented the death by his own hand on Monday night of Roy Van Lewning, whose professional name is C. Zuzelle, Downing, who is about 35 years old, has been here for about a month. By profession he is a wire walker. Since his performance at the Ashland Fourth of July celebration Downing has been staying here, but out of employment. "Dear Sister: I have tried to hold out and make good, but I can't; my foot won't let me work at heavy work and I owe for board so I can't get away with my wife to make it, so it is either do this or be a beggar so I think it best to end it all. GORDON, Neb., July 31.—(Special.)—Twenty-four autos lined up on the streets of Gordon and started for Clinton, Rushville and Hay Springs to advertise the chautauqua which is to be held in Gordon August 10 to 18. At Clinton the procession was joined by another machine, and all proceeded to Rushville, where at the outskirts of the town two machines formed in double line and proceeded up to Main street, where all stopped and remained in line until after dinner, which was served to the Gordon bunch by the Rushville Booster club. Just this side of Hay Springs about ten autos from that place met the crowd and escorted them to the opera house, where the Rushville and Gordon bands joined in two selections. After the entertainment by the band the crowd gathered in the opera house, where speeches were made by men from the three towns. ### SEVEN DOCK STRIKERS SHOT

Men Who Try to Return to Work Attacked by Non-Unionists.

#### POLICE TAKEN BY SURPRISE

Men at Victoria Dock Taken on During Strike Defy Unionists to Eject Them—A Pitched Battle Ensues.

LONDON, July 31.—Seven strikers were shot, one of them dying later in a hospital, and twenty others seriously wounded by sticks or stones as the result of rioting at Victoria and other docks in London today.  
The chief encounter occurred at the Victoria docks, where 2,000 of the laborers who had been on strike for over ten weeks, appeared at the docks in compliance of the manifesto of the Dockers' federation ordering them to resume work. They found their former places occupied by non-unionists, taken on during the strike, who defied the union men to eject them. A severe fight ensued. Bullets, bricks and stones flew in all directions. The police, of whom only about a dozen were present, were taken by surprise and were powerless to suppress the disturbance.  
Another hot fight centered around the steamer City of Columbia, which was being loaded at one of the wharves. Unionist workers tried to board it, but were repelled by the non-unionists with revolvers, bottles and belaying pins. Many men were injured here, some of them with bullets. Large reserves of police were called upon and finally succeeded in quelling the disturbance.

### American Woman Murdered in Paris

PARIS, July 31.—A Mrs. Bridgeman, described as an American, was shot and killed today by Mme. Bloch in Mrs. Bridgeman's apartment in the Rue Vignon.  
The killing is said to be the outcome of an alleged attachment between Mme. Bloch's husband and Mrs. Bridgeman.  
Mme. Bloch called her with breaking up her home. She then sent a bullet through Mrs. Bridgeman's brain, after which she unconcernedly walked out of the apartment into the street and gave herself up to the police.  
Mme. Bloch says she had made an appeal to Mrs. Bridgeman but without avail.  
Mme. Bloch is a story writer and a contributor to children's papers.  
It developed later in the day that Mrs. Bridgeman was the wife of James E. Bridgeman, cashier of the New York Life Insurance company, from whom she is said to have been long separated.  
The murdered woman's Christian name was Minnie. She was born at Milwaukee and was the daughter of Henry Bernhard.

### Decisive Battle in Mimic War Expected at Jackson Pass

TOMAH, Wis., July 31.—Observation of the action of both the red and blue armies indicated that the day would see the end of the ten days' maneuver campaign between the red army under Brigadier General Ralph Hoyt of St. Paul and the blue army in command of Colonel Orlando Hoisway of La Crosse, Wis.  
Although no official reports of a battle have been received, it is understood hostilities were opened between the two armies just beyond Jackson Pass this morning and that the reds, instead of retreating, have brought up their entire troops of cavalry and 1,350 infantry and a battery of artillery for the purpose of making a decided stand.  
Colonel Hoisway last night was told that his command was superior to that of the reds and with this information it is understood that he will not only attack the reds with the intention of defeating them, but of following up his victory by a bold pursuit toward Sparta, which is the base of supplies both of the red brigade and of a great division of red troops, theoretically stationed south of Baraboo, who depend on the safety of Sparta for securing their supplies.

### Chinese Head Axe Brought to Omaha

A ten-pound executioner's axe, direct from China, was on exhibition for a few minutes at the Union station when William Jackson, just returning from service in the navy, opened his baggage to show some of his friends a big knife that is still bloodstained.  
Jackson visited several hours with Corporal John D. Greish of the United States marine recruiting station in Omaha. Jackson obtained the knife from a friend, Private Dillon, of a battalion of marine corps that was doing service in China last March.  
According to the story of Jackson, Dillon picked the knife up and made away with it just after it had lopped off the heads of two of the imperialists at Tien Tsin, when the executor was himself shot by imperial troops coming upon the scene.

### LUMBER COMBINE EXISTS

Missouri Master Finds Twenty-Nine Corporations Guilty.

#### PRICE FIXED BY ASSOCIATION

Report Also Shows Output Was Curtailed and Retailers Who Did Not Obey Rules Could Not Buy Lumber.  
JEFFERSON, CITY, Mo., July 31.—The report of Special Commissioner Reynolds in the state's ouster suit against certain lumber companies, alleged to be in a trust, which was filed from the supreme court today was against the lumber companies.  
The suit was filed by the attorney general against thirty-five lumber companies and the commissioner found that twenty-nine of them are in a trust in violation of the anti-trust laws on four allegations.  
The first of these is that the lumber companies had a price list committee and used what was known by members as an "association price list"; second, that members of the association curtailed the output of lumber consumers; third, that by a joint trade relations agreement in 1904 between members of the Yellow Pine Manufacturers' association and members of the various retail dealers' associations, whereby manufacturers and wholesalers agreed to sell only to certain retail dealers and fourth by blacklisting certain retailers known as "poachers" who did not obey the trade regulations established by the Yellow Pine Manufacturers' association.  
The twenty-nine companies which were found guilty by the commissioner, have an aggregate capital of \$15,000,000. The report will be set for hearing before the supreme court at the October term in exceptions which attorneys for the companies announced they will file.  
Among the foreign companies, with their capital stock, in Missouri are: Chicago Lumber and Coal company, Iowa, \$500,000; Dietks Lumber and Coal company, Nebraska, \$30,000; Freeman-Smith Lumber company, Iowa, \$10,000.

### HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good health. Dragging-down feelings, hysteria, hot-fleshes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.  
"I suffered greatly for a number of years and for the past three years was so bad that life was a misery to me," writes Mrs. E. F. Dickerson of Utica, Ohio, Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year ago this winter and spring I was worse than ever before. At each period I suffered like one in torment. I saw the mother of six children. I was so bad for five months that I knew something must be done, so I wrote to Dr. E. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Smart-Weed,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no such wondrous time and money-doctoring with anything else or any one else."  
The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y., answers hosts of delicate questions about which every woman, single or married ought to know. Sent free on receipt of 31 stamps to pay for wrapping and mailing only.
