Humors get into the blood usually because of an inactive condition of the system. Those members whose duty it is to expel all refuse matter do not properly perform their work, and an unhealthy accumulation is absorbed into the blood. Then instead of performing its natural function of

nourishing the skin the circulation irritates and inflames it because of its impure condition. A thorough cleansing of the blood is the only certain cure for any skin disease; external applications can only give temporary relief. S. S. S. goes into the circulation and drives all humors from the blood, and in this way makes a permanent and complete cure in every form of skin trouble. S. S. S. supplies the blood with the nutritive qualities necessary to sustain the skin and

preserve its natural texture and perfect appearance.

S. S. S. cures Eczema, Acne, Tetter, Salt Rheum, and all other skin eruptions or diseases. Book on Skin Diseases and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
