The Most Popular Hats in the Fashion Centers of America are the new

Coronet Hats at **\$10**

We present for the first time the showing of fall designs in "Coronet Hats"—the hats that combine Parisian style with the smartness of Broadway millinery. No other hats than "Coronets" combine so many charming ideas and sell at a price within the means of practically every woman. We are the sole selling agents for "Coronet" Hats in Omaha. They are in a class by themselves. All correct style types for fall are shown in "Coronet" models. We particularly mention the wonderful variety of the stunning erect pile, plush hats now in such demand among more expensive models. All the shades that are in favor—night blues, elephant grays, mordoe browns, seal browns, whites and blacks. Many stunning ostrich plume effects on black silk velvet frames.

The creator of "Coronet Hats" was a successful designer in Paris. He conceived a practical idea of creating hats with the essential style features of more expensive models which he could adapt to sell at a moderate price.

He is now established in New York, keeping in close touch with other fashion centers. He designs "Coronet Hats" to sell at one price—\$10.00.

"Coronet" Hats are not limited to one type. There are dress models, evening hats, street hats and hats for every occasion. The variety is almost unlimited.
