

MARSHALL LASHES COLONEL

Would Judge Roosevelt by His Actions Rather Than Talk.

MAKES ATTACK ON BEVERIDGE

Compares Retirement of Campaign to Auto-Intoxication in Its Effect on Certain Candidates.

HARRISBURG, Pa., Oct. 5.—Governor Thomas R. Marshall of Indiana, democratic vice presidential nominee, declared here tonight that although Theodore Roosevelt had been in the White House for seven and a half years he had never done anything for the relief of the American people and in the coming election he should be judged by the past, not by what he promised.

Roosevelt was scored time and again by the governor, who spoke at length upon the economic system in this country and said that if people complained of business it was their own fault, because they did not rise and depose them.

The candidate was greeted by a parade of democratic clubs upon his arrival and escorted to the Auditorium where Mayor John K. Royal presided. Governor Marshall was accompanied by Mrs. Marshall and one Johnson of Texas. Mr. Johnson also addressed the meeting.

Concerning Auto-Intoxication.

Governor Marshall said in part: "There is a species of intoxication known as 'auto-intoxication,' whereby the victim for the moment brings to the surface his hidden nature. Man to be judged correctly with reference to his usefulness in society is to be judged by his normal and not his abnormal thought and conduct. We do not doubt the statements and conduct of men when in office, because their statements and conduct are governed by the usual and normal spirit which governs thought and action. But during a political campaign we have a right to compare the stump with his statements and actions while in office in order to determine not whether the man is honest, but whether he has not intoxicated himself with the excitement of a political campaign.

Sudden Changes Noted.

"In my judgment certain men now seen upon the suffrages of the people as president of the United States and governor of the state of Indiana are the victims of self-intoxication. Both President Roosevelt and ex-Senator Beveridge during the long period of their holding of office in the United States were so closely allied with the vicious tendencies in the economic life of the people and were so active in defending the trusts, despising the law and serving Perkins, Morgan and Harriman, that our people may well inquire what has come over the spirit of their dreams.

"When the campaign is over and self-intoxication has passed away, will this better self disappear and will the old theories of thought and conduct, which in the past years guided and controlled them again take possession of their official lives provided they are in office? May we not think and reasonably expect that the Perkins, Morgans and the Harrimans will sit close to the throne if these men be again given power?"

Tampa Terrorized By Lone Criminal

TAMPA, Fla., Oct. 5.—Eight assassinations within the last two weeks, and twenty-one fires within three days, interrupted with threatening letters, has thrown the population of this city into a high state of excitement. The series of crimes was marked tonight by the killing of Estadio Cando, who was shot as he sat in front of his store. The police are not only baffled in their attempts to capture the criminal, but are taunted with letters, all apparently in the same writing, in which the writer boasts of having committed the crimes.

Viola Danford, a white woman, who was shot last night while seated in her home, died early today. The other victims were Mrs. Juan Rodriguez and five negro women. The police believe the crimes have been committed by a demoralized negro, but are without a clue.

A TONIC LAXATIVE

Pe-ru-na, an Up-to-Date Family Medicine That Should Be in Every Home

two of a good tonic laxative the great majority of cases of sickness would be prevented. Peruna is a remedy that should be kept in the home. Its virtue as a preventive to disease is the thing I wish chiefly to emphasize. A slight condition of constipation may lead to serious sluggishness of the bowels, biliousness, re-absorption of poisonous material and finally sickness. Or apathy of the stomach in which the food is not relished, may gradually lead to atonic dyspepsia or to the acquisition of some acute disease. For either one of these conditions a few doses of the tonic laxative Peruna would set matters right. This is why the remedy should always be kept handy by.

When once the value of Peruna as a household remedy is understood no home would be without it. Cathartics, pills and powders would be discarded. Irritating tonics would be no longer taken. Alcoholic drinks would have no place. With a few doses of Peruna a vigorous appetite is produced and if there be any sluggishness of the bowels their function is gradually restored.

Most laxatives are weakening in their effect. A tonic laxative guards against this weakening effect. Until right living has become so thoroughly established that all medicines are superfluous, Peruna will be needed. It is exactly the remedy that meets numerous necessities of the household. Sold at all drug stores.

Mr. John B. Perkins, 22 Whiting St., Plymouth, Mass., writes: "I think Peruna is a number one medicine. I was troubled with catarrh and bowel complaint. I tried several doctors, but could only find temporary relief. I took Peruna and am glad to say that it cured my catarrh and corrected my bowels."

Peruna, Mann-Elm and La-cu-pia manufactured by the Peruna Company, Columbus, Ohio. Sold at all drug stores.

SPECIAL NOTICE.—Many persons inquire for the Old-Time Peruna. They want the Peruna that their Fathers and Mothers used to take. The old Peruna is now called Kataron. If your dealer does not keep it for sale write the Kataron Company, Columbus, Ohio, and they will tell you all about it.—Advertisement.

Liability for \$96,000; Justice Sets Limit

NEW YORK, Oct. 5.—The limit of liability of the owners of the steamship Titanic, which sank April 15, was set today at \$96,000 as compared with claims for damages which aggregate more than \$1,000,000.

The limit was set by Justice Hough of the district court upon petition of the Oceanic Steam Navigation company (limited) which owned the vessel.

The vessel furnished bond for the amount as security for paying the claims pro rata.

The commissioners explained to the court that the company's interest in the vessel was limited to the fourteen life boats recovered, prepaid passage money amounting to \$83,212, and freight amounting to \$2,073. Everything connected with the steamer except the fourteen life boats became a total loss in the disaster. The petitioners claimed exemption from liabilities under the statutes of the United States and the general rule in admiralty.

Pretended Heiress Gives Love for Cash

CHICAGO, Oct. 5.—Edith Van Auken, who recently posed as a wealthy heiress in Kansas City, in advertising for a husband, was arrested here today charged with conducting a mail fraud. She is wanted in Kansas City on a federal indictment charging that she represented herself as an heiress with thousands of dollars and that she desired a "good, loving husband to help her live on her dowry."

Dell Russell of Cadot, Wis., answered the advertisement, and the government charges, and advanced money to her to be used in a legal process in getting her property converted into cash.

A letter said to have been sent by the woman to Russell read in part: "Oh, it doesn't seem possible that I will see you soon. I love you so dearly that I cannot express it in words. Soon we will be together in happiness."

It was signed: "With love and kisses, your own Edith."

She will be taken back to Kansas City for a disposition of her case.

ENGINEER IGNORES SIGNALS; WRECK OF EXPRESS RESULTS

WESTPORT, Conn., Oct. 5.—Testimony tending to show that Engineer George L. Clark of the Springfield express, which was wrecked here last night, ignored signals set against him, and took the cross over switch at a high rate of speed, was given before Coroner Phelan at the inquest into the death of seven victims of the wreck this afternoon.

This testimony was given by Bartley Gordon, foreman of the section gang, and Michael A. Corle, the towerman. Gordon testified that he was supervising construction work in front of the station when he heard the express coming. He realized that the train was running at "an excessive rate of speed," so he ran forward, waving his arms to attract the engineer. As the train did not slow down, he was obliged to jump down an embankment to save his life.

SIXTEEN ARE ARRESTED AT THE IDLEWILD CLUB

Police Officers Dudley Herald and Detective Murphy entered the place from the front while Detectives Van Dusen and Rich approached from the rear. Their appearance caused the inmates to scatter in every direction, but the escape was cut off and fourteen persons, white and black, were taken in addition to the proprietors. Oley Jackson and Robert Johnson were taken and charged with keeping a disorderly house. All were put in the city jail.

Holdups Rob Train; Make Their Escape

WESTVILLE, Okl., Oct. 5.—Four masked men held up Kansas City Southern passenger train No. 4, northbound, three and a half miles north of Poteau tonight, ransacked the mail, blew open the safe in the express car and escaped into the wood-covered hills that skirt the railroad at that point.

The robbery loss is said to be only \$45 and ten or twelve rail letters. The passengers were not molested.

The men boarded the train as it stopped at a crossing a short distance from Poteau. Crawling over the tender, two of them covered the engineer and fireman with revolvers, while the others robbed the mail and express cars, nitroglycerin being used.

Mrs. Taylor and her husband were on their way to Philadelphia, with her brother, N. S. Spencer.

Rockefeller Buys Texas Oil Securities Through His Broker

NEW YORK, Oct. 5.—Efforts of counsel for the Waters-Pierce Oil company to trace the ownership of the bonds of the indicted Magnolia Petroleum company of Texas, were successful today when it was testified that \$2,400,000 worth of the bonds were purchased by John D. Rockefeller.

This revelation and the fact that John D. Archibold failed to obey a subpoena summoning him as a witness were the principal features in the hearing in the litigation over the attempt of the Standard Oil interests to gain control of the Waters-Pierce Oil company.

The taking of depositions in this city was closed as the trial of the case in the Missouri court is scheduled for October 8, but application will be made to the court to postpone the trial until further testimony can be taken.

Archibold's failure to appear was certified to the court by Commissioner Jacob and the question of taking proceedings against the Standard Oil executive for contempt of court is being held in abeyance for a possible explanation from Mr. Archibold.

Why Women Are Not RICH

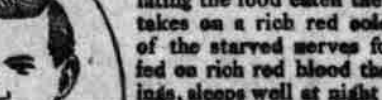

Men is a millionaire many times over in the possession of blood cells. Women is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimetre of blood.

A decrease in number of red blood corpuscles and a person "looks pale"—in fact, is anemic, the blood does not get the right food and probably the stomach is disordered.

Dr. R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodroot with black cherrybark, would help the assimilation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and is refreshed in the morning.

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mrs. J. A. D. Lively, of Washburn, Tenn., Route 5, Box 8. "All my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and desired much relief from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure, but Dr. Pierce's medicine has done much for me and I highly recommend it. I heartily advise its use as a spring tonic, and further advise alling people to take Dr. Pierce's medicine before their disease has run so long that there is no chance to be cured."
