#### GRAIN AND PRODUCE MARKET

Grain Trade Not Uneasy Over Wheat Now that War is On in Balkans,

### LIBERAL MOVEMENT OF CORN

Increased Offerings from the Country Will Prove the Controlling Factor in the Oats

Market.

OMAHA, Oct. 19, 1912. Now that hostilities between Turkey and the Balkan states have actually commenced, the grain trade does not feel as uneasy as it did when there were rumors of possibility of fighting. A trader who is a close student of market conditions from every standpoint says that the treaty of peace between Italy and Turkey means that the Dardanelles Will be kept open to commerce.

There who claim to know say that the

northwest sold a big line of wheat in Chicago on Monday's bulge, which has not been digested; also that there was a little covering of shorts on northwestern orders on Thursday's break. There has been an immense business in hedging be-tween Chicago and the northwest and those who put out short lines in Minneapolis when it was at a premium over Chicago were closing them yesterday at 4c discount Cash wheat, 4c lower. The market is under the shadow of a The market is under the shadow of a big crop of new corn, which tends to induce the selling of the May option on all bulges. With good weather it is expected that there will be a liberal movement in December. 966 Totalsa 1.945 CATTLE-Cattle receipts were Very light this morning, but for the week there has been a liberal run, the total showing up not far from what it was last week and quite a little larger than a

year ago.

The supply of beef steers of desirable quality has been very moderate all the week, while there has been a good buy-ing demand. In consequence of this the market on the better grades of cattle at the close of the week is fully steady and if anything strong as compared with the medium to common kinds have been in iberal supply and they are steady to possibly a little lower. Cows and heifers have been in large

supply all the week, but at the same time there has been a good demand for the best killers and for canners. As a rebest killers and for widely different grades of

been in such active demand and by reason of the large supply have gradually eased off, being slow to a little lower.

HOGS—There was apparently a good outlet for the bulk of today's very fair run of hogs. Trade began early and was active most of the morning, with prices ruling anywhere from steady to a nickel higher. Business transacted during the salt be higher basis, with practically only the packers and speculators as competitors, the shipping demand amounting to little 13,000 or nothing. Unlike yesterday the trend of 

a year ago.

The supply of hogs for the week amounts to 29,466 head, as against 25,230 head last week, 28,639 head two weeks ago and 27,043 head for the same time last year. Prices today average about 15,230 lower than the end of last week, bulk then selling around \$8,85,68,56, compared with \$5,6568.75 this morning. Top price last Saturday was \$8,35, as against a top of \$8,80 today. Last week prices gradually worked up, while this week prices have fallen. a year ago. shave fallen.
SHEEP-There were not enough sheep

or lambs on the market to afford a test of values, and in consequence values re-main nominally the same as yesterday. Ver yactive trade and much higher prices were the outstanding features of the market on fat sheep and lambs dur-ing the current week. While the supply has been the lightest in a month the demand for anything that would do for kill-ers was apparently greater, mostly all the offerings meeting with a ready sale. The advance in prices was most sudden since the erratic market in fed stuff early last apring. Killing lambs made a leap of 35c in one day, and now are fully 75c higher than a week ago, and in some cases as much as a dollar higher. Fat ewes soared equally as high as lambs ewes soared equally as high as lambs, present values showing about the same advance. While the best wethers sold around \$3.9064.10 a week ago, a bunch on Tuesday brought \$450, and another one fat yearling were here showed an improvement around 25@35c. Few, if any wethers or yearlings, were in evidence during the latter part of the week. Tak-ing the sorts into consideration prices on killers are even higher than they appear on paper, as the packer buyers made very

small sorts, compared with last week.
While feeders in general show an advance, it is not nearly so marked as on killers. Feeding lambs show little if any mprovement over a week ago, while feed ing ewes and yearlings are about 25655c higher. Wethers are strong compared with a week ago. The best lambs weighing around 55 pounds or more sell around \$6.15@6.30. Light and medium weight shearers are in best demand and are sell-ing relatively higher than the heavier

#### Old-Time Operator Called to His Reward

With the death last Tuesday night of H. M. Harris, there passed out this life one of the most unique characters in the telegraph fraternity. He died at St Joseph's hospital, where he had recently been confined with acute Bright's disease

"Major" Harris, or "Chilly" Harris, as he was known the country over, had, until two years ago, been an active telegrapher for more than fifty years. He was 72 years old when he died. He had worked in every branch of the telegraph service and was a veteran of the old "register" system, when the tape was used as a means of reading the telegraph long before the sound system came into vogue. In his younger days he was considered one of the most expert the active participation of Columbia telegraphers in the country. As late as twenty years ago he was a press operator, democratic conventions, saying: being employed by the old United Press He copied from one of the fastest press telegraphic signals.

It is Policewoman Katherine Drummy who comes to the rescue of the berated crook. Last week's papers chronicled that while with the policewoman, Mrs. Sarah Drummy, a cousin from Dubuque, had a watch stolen from her. Harsh terms were directed at the thieves by the indignant press representatives who composed the story, and husky and ill-tempered blue-

coats scoured the town for the villains. Mrs. Drummy would not believe that Omaha could harbor such mean thieves, so she started out on a still hunt herself. ### Germans Care Little For Wilson Doctrine

Much effort was made by the local democrats to secure a great turnout of Germans at a Wilson meeting to be held at the German home last night, but evidently the local Germans can't see such a much in the free trade movement. At any rate, when Statesman Stoecker called the meeting to order, after getting himself chosen chairman, the count showed but a handful of the expected multitude. George A. Schmidt had been imported from Warsaw, Wis., to make the principal address of the evening, but his time was cut short by the speech of the chairman, who had a speech of his own and wanted to make it. He did it, and finally gave way to the visitor, who told the Germans how much it would help them if Wilson were elected and every-At one time twenty-two were present to
