CHICAGO, Aug. 12.-Notwithstanding efforts by the English. Belgian. French and Dutch governments to cause a re-newal of exports from the United States, the trade here remained skeptical today. Prives for wheat recovered only in part from a break of 2%. Despite compara-live firmness at the close, the market showed a net decline of %c to %c. Corn linked 1c to 1% above last night, oats up %c to %c. Conditions were well Hiustrated by Bel-alan offers to guarantee shippers against loss on consignments of wheat from Chi-cago to Antwerp. Belgian drafts were admitted to be of no value in this coun-try at present, and Baron von Reswitz, German consul here, was quoted as de-claring that is a short time Antwerp would be a German port, where any grain busts intended for the Belgian govero-ment would suit right into German hands. If was a choppy, unsettled trade in

the southwest were said to have been too internate ware also builts in the German hands. It was a choppy, unsettled trade in wheat throughout the session, with the most pronounced weakness at the outset. Longs in general sold on every swell, and shorts tried to buy back on every break. Wheat stocks in the United States and Canada increased 5,15,000 bushels, while wheat affoat and in Europe decreased 5,800,000 bushels for the week. There were indivations that the demand for flour at Minneapolis had failen off. Corn ruled strong and touched new high prices for the present scason. Rains in the southwest were said to have been too iate, and it was shown that available stocks were only about half the total at the corresponding time a year ago. The market was also builishly affected by the Argentine government fixing a limit on exports. Advices that the British au-shile in Canada gave the oats market here a mulerate lift \$4,7587.25. ble in Canada gave the oats market here moderate lift.

a moderate lift. Provisions rallied sharply from a de-clided setback due to lower prices for hogs. The recovery came about through active buying on the part of packers and shorts, who were said to have been influenced by the rise in the corn market and by a belief that the big drop today ip the value of hogs would sheek receipts.
