Bank of England to Make Payments in Gold to Americans

WASHINGTON, Aug. 22.—Arrangements were virtually completed today by the national board of relief to transfer to Americans in England the total of all funds deposited to their credit at the State and Treasury departments.

Negotiations by cable led to an announcement tonight that the Bank of England will make payments in gold to Americans with proper credentials and that these payments will be drawn against deposits made with its branch in Canada.

The board will deposit gold to cover the payments to be made in the Ottawa branch.

To date about \$1,500,000 has been deposited in the government departments here for Americans abroad. How much of this amount is yet unpaid was not disclosed tonight, but the balance will be wiped out quickly through the new arrangement.

One pleasing feature of the situation the board members said tonight, was the fact that the French government has notified the State department that it will arrange to move all Americans now in Switzerland and about 10,000 Americans in Switzerland, and it was said that their transfer to seaports and the probability that they can get across the

(From a Staff Correspondent.) WASHINGTON, Aug. 22.—(Special Telegram.)—The Federal Reserve board today announced its rules of procedure for the hearing of protests over the selection of reserve banks by the organization committee and also the procedure that must be followed by cities, such as Omaha, who intend to back up the claim that they are not normally placed in regional reserve districts.

Omaha already has been notified through Senator Hitchcock and Congressman Lobeck, that it will be given a hearing on its plan to be identified with the Chicago district, although the date of the hearing has not been set.

No Additional Evidence. Under the procedure, as announced today by the reserve board, however, Omaha will not be permitted to submit additional evidence, but will be allowed to file briefs and submit oral arguments sustaining the contention that its rightful business designation is in the Chicago line.

The board holds that to reopen the question is a dispute between existing contractors with a number of legal issues.
