from Their Economy Slogan.

Unable to Make Good on Charge

Against State Officers and Cannot Explain Extravagance at Washington.

DES MOINES, In. Oct. 1 -(Special.) One of the anomalies of the present state SONG SERVICE TONIGHT AT campaign in lows is just appearing. The democrats started out with intention of making a general issue of economy in all public matters, and are now on the run because that is an issue that they cannot get away from. They have finally been forced to recognize that all their talk about extravagance and wastefulness in state affairs simmer down to a difference of opinion as to whether the state capitol grounds should have been enlarged quite as much as the democrats of the legislature decided upon or should have been a smaller area such as contended for by the republicans. But in a national way the situation is coming back to the democrats in a remarkable way and the republican newspapers are showing up the enormous cost of government at shed, 16x40, hog house, ice house, etc.; complete set farm machinery, two horses, harness, two wagons, hogs, chickens; this tration. This situation is causing a most interesting phase among the democrats. In fact, it is almost to the point of caus ing a break between the Connelly growd and the Hamilton crowd. The former want to let up on "economy" and talk tariff, currency and banking bill. Real Estate Prices High.

Throughout Iowa at the present time onsiderable good advertising for the state is being done by reason of the real estate market and land prices. It is declared that in no state of the union. more particularly no state east of the Mississippi river, have land prices been so well maintained and that as compared with Canadian provinces the situation for investors here is rosy. Some effort has been made to tabulate land sales and prices recently. It is found that instead of there being a slump in prices, as predicted, the prices are on the up grade. A recent compilation shows that the lowest price reported on a first class, well improved lowa farm in recent months was \$125 an acre. The prices have ran up San to as high as \$250 an acre for strictly Benito, close to railroad, market, farm land to be used for farm purposes. dic Colonization society; first-class, low price, easy terms. At lowa City it is reported that students are being turned away from the more rapidly than the population of the university for lack of room, and especially is this true in the dental department. The registration has been heavy in all of the colleges. In the college of medicine there are sixty-one freshmen, as against thirty-four last year, a gain of almost 100 per cent. This is considered remarkable in the face of additional re-

quirements. In the college of engineering there are more students than in any previous year, and the college of education has doubled its numbers this fall. Data on the total registration for the

university has not been compiled, as several students in the summer session are ontinuing their work this semester and the duplications have not been removed Looking for a Farm with Good Clay.

The state board of control is planning to secure a farm for the first of the state custodial farms that will permit of development of a clay industry. Several farms have been investigated and samples of clay secured from nearby. These samples are being tested to find out if they make god brick. The state desires to establish institutions where various useful industries can be started.

## Against Workmen's Compensation Law

At the meeting of the Central Labor union Friday evening, action was again taken putting that organization on record More entiresiasm and unity marked war against the workmen's compensation law preparations in Germany than in Austria, submitted by referendum to the voters at the coming election. The resolution, after a quite lengthy preamble, reciting the various arguments against the law, reads; Twenty-five boys who attend the commercial High carry papers and have been attitude upon this question, and that it imagerates an active campaign in opposition that they do satisfactory work in all classes and are not guilty of disorder. They have all agreed to this

This is an age of regulation. The growth of National and State regulation has been tremendous, and if the present rate continues, what is to be the result? Whether this change from individualism to paternalism is desirable to the American people is a great question. From the very beginning of our country, America has been the world's home for individualism and freedom from unnocessary restriction, and these principles were incorporated into our state and federal constitutions as a perpetual guarantee for our welfare. Under this influence we have gone forward and founded our wonderful industrial institutions, believing in those principles and working under them with great progress and prosperity.

It is with a certain alarm, there-

great progress and prosperity.

It is with a certain alarm, therefore, that investors view the present tendency toward over-regulation by government. Regulation seems to have become a mania—a profession—and while much of it is good, it has more than a fair percentage of quacks and shysters, who are deforming the statute books with unnecessary or illogical laws, and drawing large salaries under the mask of reform. A regime of this sort is fatal to all prosperity, and prevents industrial advancement.

Perhaps it is time to stop and

Perhaps it is time to stop and take an inventory of what is going on. Before we're regulated out of business let's see if we can't eliminate the cranks who are making a graft out of regulation and reform, and then direct future regulation along sensible well informed lines and then enforce them to the great benefit of the entire population.
