OMAHA MAN HEAD OF FIELD HOSPITAL

Dr. Karl Connell to Organize Advance Division of American Hospital Ambulance.

GIVES EARLY SURGICAL AID

Has Large Corps of Assistants to Operate on Wounded Men at the Front Who Usually Die in Transportation.

Dr. Karl Connell, son of Mr. and Mrs. W. J. Connell of this city, now surgeon of the Roosevelt hospital of New York City, Wednesday of this week sailed on the Lusitania for Paris, where he will organize and take charge of an advanced division of the American hospital ambulance. He takes with him four surgeons, ten assistants and fifteen nurses. The hospital is to be provided with several hundred beds for desperate operative cases, requiring immediate attention and those of the class that now die in transportation.

This required early surgical aid will be given by the American surgeons and their assistants to all the injured, regardless of whether they are German, English, French or Belgian. An appropriation of \$200,000 has been made for carrying on this work.

Has Had Great Experience. Dr. Connell was selected for this work by reason of his recognized ability and extensive hospital experience. He has served as both house surgeon and house physician in the New York hospital and for the last two years has been the chief operating surgeon at the Roosevelt hospital.

Although but 29 years of age, Dr. Connell has come to be looked upon as one of the leading surgeons of the United States and has performed hundreds of operations that other surgeons have considered too difficult to attempt. He is an Omaha boy, born and reared here, graduated from the Omaha high school and the Creighton medical college, as well as from the New York hospital of surgeons, having served the full term in the last named institution.

In the Omaha high school Dr. Connell was one of the most active of the students. He was the second captain of the cadets, his brother Ralph, his senior, having been the first. He is unmarried.

PORTE BACKS UP, REGRETS ACTION IN THE BLACK SEA

(Continued from Page One.)

and Austria have at last acquired their first ally and the area of the fighting in the great war has spread over the borders of Asia into Egypt.

Along the battle line in the western arena there has been no decisive important change in territory for the last fortnight, although there has been slow advance of the extreme allied left in West Flanders.

All reports seem to agree that the tide of battle in this section is flowing against the Germans, but it is felt in London that it will take some time yet to decide whether they must abandon their attempt to reach Calais, to accomplish which they already have paid so dearly.

The allies were reported as within a short walk of Ostend, the taking of which by the Germans was hailed in Berlin a few days ago as a stroke of strategic importance.

Fighting Near Ostend. The fighting in the vicinity of Ostend on the north side apparently waged throughout Sunday. From the battle front German wounded moved back in the direction of Bruges. The fact that the allies apparently have been gaining consistently so near the coast line indicates to British observers how valuable have been the services of the warships, which hold their position in spite of the presence of German submarines. The water in other ways has been a great advantage to the allies, for the Germans have admitted that they have been hampered by the inundation of their trenches through the cutting of dikes and the opening of sluices in the lower country.

Assuming that Turkey's casting in of its lot with Germany is an accomplished fact, the British press admits that the crueller Goeben and Breslau are a serious menace, as Russia has nothing to compare with them in speed and equipment. As to the Turkish army, however, formidable as it is in size, the opinion is expressed here that it will not be an efficient fighting machine under modern conditions, which require the latest types of arms.

Will Try to Blockade Suez Canal. Concerning the campaign in Egypt, England feels that in Lord Kitchener it has just the man to meet the situation, for no European has a better knowledge of the country than he. If the reports that the Turkish invasion of Egypt is well under way are true, picturesque ferocity mounted on camels and horses probably already have crossed the frontier.

Turkey, it is argued in London, will endeavor to accomplish the invasion of Egypt, the blockading of the Suez canal and the stirring up of a holy war among the 70,000,000 Mohammedans in India, as well as among these religionists in Egypt. It is this last contingency which Great Britain regards as with the most concern.

The week is likely to see the crystallization of the sentiment in Italy and the Balkan states in one way or another as regards Turkey's entrance into the conflict. Today came a dispatch from Amsterdam quoting the Berlin Lokal Anzeiger to the effect that Rumania will modify its attitude of neutrality provided the other Balkan states remain out of the conflict. German papers announce officially that all the coast of Anatolia Turkey has been blockaded by mines, thus spreading to the east the danger which is confronting shipping in the west.

Check Money Trouble at Once. There is such an action in Foley Kidney Pills you feel their heading from the very first dose. Backache, weak, sore kidneys, painful bladder and irregular action disappear with their use. O. FRENCH MARINES IN THE TRENCHES—This photograph shows a detachment of French marine soldiers participating in the fighting in northern Belgium.

OFFICIALS OF NEW HAVEN INDICTED

Twenty-One Directors and Former Directors Are Charged with Conspiracy.

PENALTY ONE YEAR IN PRISON

Among Men Named Are William Rockefeller, Theodore N. Vail, J. L. Billard, R. W. Taft, G. T. Baker, L. C. LeMay.

NEW YORK, Nov. 2.—Criminal indictments were returned today by the United States grand jury against twenty-one directors and former directors of the New York, New Haven & Hartford Railroad company, including William Rockefeller, Theodore N. Vail, George F. Baker, William Skinner and Charles F. Brooker and John L. Billard.

The indictments charge conspiracy in violation of the Sherman anti-trust law to monopolize commerce. Under section two of the law, under which they were returned, the maximum penalty upon conviction is one year's imprisonment and \$5,000 fine.

The complete list of those indicted is as follows: William Rockefeller, George MacCulloch Miller, Charles F. Brooker, William Skinner, D. Newton Barney, Robert W. Taft, James S. Elton, James S. Hemingway, Lewis Case LeMay, Charles M. Pratt, A. Heaton Robertson, Frederick F. Brewster, Henry K. McLaughlin, Edward D. Robbins, former general counsel of the road, Alexander Cochrane, John L. Billard, George F. Baker, Thomas DeWitt Cuyler, Theodore N. Vail, Edward Milligan and Francis T. Maxwell.

Bench warrants were issued for the twenty-one men named in the indictments, upon request of the district attorney. Several, it was understood, were to be brought into court to answer the indictments this afternoon.

Ball Fixed at Five Thousand.

The amount of ball was fixed at \$5,000 each by Federal Judge Foster. Of the twenty-one men indicted only five are now on the New Haven directorate. They are Messrs. Cuyler, McLaughlin, Milligan, Brewster and Maxwell. These twenty-one men are charged, in the language of the indictment, as follows:

"With having combined and conspired together with numerous other persons, to monopolize commerce, consisting of the transportation business."

The indictment enumerated a large number of corporations, (approximately 100), whose business, it is charged, was to be monopolized.

The late J. P. Morgan is named in the bill as one of the conspirators. Among the officers and former directors of the New Haven also mentioned as conspirators, but not indicted, were: Edward N. Reed, Charles P. Clark, Chauncey M. Depew, Lucius Tuttle, Charles S. Miller, Royal C. Taft, Richard A. McCurdy, H. McK. Twombly, Alexander J. Cassett, Timothy E. Byrne, Edward G. Buckland, Oakleigh Thorne and Marden J. Perry, and "divers officers, agents, attorneys and employees of the New Haven company, whose names are to grand jurors unknown."

How Scheme Was Worked. After naming 100 corporations, the indictment charges that the conspirators used certain of them, including the New England Navigation company, the Boston Railroad Holding company, the Billard company and the New England Steamship company, through their influence, credit and funds to impose upon the other concerns contracts and working arrangements which would insure

monopolization of commerce "in harmony with the decline of such conspirators." "Said conspirators," reads the indictment, "were to induce and compel such sales of capital stock, such leasing of properties and facilities, and such making of contracts and working arrangements, by using and threatening to use the advantage possessed by said New Haven company and the accumulation of power arising from the control of some of the said other."

"On the center, in the region of the Aisne, we made slight progress in the direction of the Meuse, and on the heights of the Meuse, there was noticed yesterday a recrudescence of activity on the part of the enemy's heavy artillery. The bombardment of these pieces, however, did not show any appreciable result. "On our right wing an offensive movement of reconnaissance by the enemy on Nomeny was repulsed."

"In the Vosges, in addition to the fact that we have recaptured the heights which dominate Mount Sainte Marie, we have made progress in the region of Bando Bapt, where we occupy the positions from which the artillery of the enemy has been bombarding the town of St. Die."

Oil Ship Platania Released. WASHINGTON, Nov. 2.—The Standard Oil steamer Platania, detained in Stornaway, Scotland, by British authorities, has been released and has proceeded to Copenhagen. The British embassy today notified the State department that this had been done after the Danish government had given assurances that its cargo

Berlin Expects Early Renewal of the Main Battle in Russian Poland

BERLIN, Nov. 2.—(Via London.)—Official reports from the western front show little change in the situation in northern France and in Belgium, but events in Poland would appear to be shaping themselves for a renewal of the fighting between the main forces of Russia and the Austro-German allies.

The Austrians and the Germans have completed their retirement to new positions previously selected by them. When the vanguards of the Russians, who were following them, came into touch with this new line, there were several encounters, in which the Russians were driven off.

The Austrians in southern Galicia have succeeded in crushing back the Russian left flank, which for several days has been making a desperate stand in carefully prepared positions between Turka and Stry-Sambor. The Russians employed the pause in the fighting after

the Austrian retirement from this region to entrench themselves. They built strong field fortifications, which were made more difficult of access by the broken nature of the country. Consequently it was a hard task to eject them. The Austrians claim a complete victory and report that the enemy was driven from all its positions.

The Austrians also report further successes in Bukovina. They have retained their hold on Cernowitz against a Russian attack and they have defeated a Russian force to the north of Kuty.

A British report of the loss of the British cruiser Hermes, last Saturday, was made public here this afternoon. No particulars, however, were given. A dispatch received here from Constantinople says it is understood the Turkish government will neither expect the subjects of the powers composing the triple entente, nor interfere with those desiring to leave.

ALLIES ADVANCE INTO BELGIUM

(Continued from Page One.)

of the Germans, we made slight progress on almost the entire front, excepting at the village of Mesines, a part of which again was lost by the allied troops. "The enemy undertook an important movement against the suburbs of Arras. This resulted in failure, as did other movements against Libons and Lequesne-en-Santerre.

"On the center, in the region of the Aisne, we made slight progress in the direction of the Meuse, and on the heights of the Meuse, there was noticed yesterday a recrudescence of activity on the part of the enemy's heavy artillery. The bombardment of these pieces, however, did not show any appreciable result. "On our right wing an offensive movement of reconnaissance by the enemy on Nomeny was repulsed."

"In the Vosges, in addition to the fact that we have recaptured the heights which dominate Mount Sainte Marie, we have made progress in the region of Bando Bapt, where we occupy the positions from which the artillery of the enemy has been bombarding the town of St. Die."

Oil Ship Platania Released. WASHINGTON, Nov. 2.—The Standard Oil steamer Platania, detained in Stornaway, Scotland, by British authorities, has been released and has proceeded to Copenhagen. The British embassy today notified the State department that this had been done after the Danish government had given assurances that its cargo

of illuminating oil would not be re-exported into Germany.

Scotchmen Pelt Statue of Carnegie

LONDON, Nov. 2.—A dispatch to a news agency from Dunfermline, Scotland, says that local sentiment against Andrew Carnegie because of his alleged pro-German attitude is so strong that the statue of Mr. Carnegie, which was erected by the citizens of his native town last June, was pelted by a crowd. Carnegie films, which have been exhibited at moving picture houses have been withdrawn, the correspondent says.

Hernandez Ordered Deported. WASHINGTON, Nov. 2.—Deportation of Luis Hernandez, arrested at San Antonio, Tex., for threats against John R. Silliman, consul at Saltillo, Mex., was ordered today by Secretary Wilson of the Department of Labor.

6% MORTGAGES FOR SALE ON NEW HOMES—AMOUNTS \$300 TO \$2500—WRITE OR CALL AMERICAN SECURITY CO. 17 DOUGLAS ST. OMAHA

HOTELS AND RESORTS.

Headache, Cold or Sour Stomach, Regulate Your Bowels—10 Cents

Sick headaches! Always trace them to lazy liver; delayed fermenting food in the bowels or a sick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When the poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Carets will remove the cause by stimulating the liver, making the bile and constipation poison move on and out of the bowels. One taken tonight straightens you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular, and make you feel bright and cheerful for months. Children need Cascarets, too.

If Kidneys Act Bad Take Salts

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach aches, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Advertisement.

Cut Your Fuel Bill

You can save Fuel Bill, also save your Boiler from ruin if you will only phone us.

Accumulation of scale in your Boiler means deterioration of Boiler and increase of cost to operate.

IT'S UP TO YOU Don't use Mineral Compounds. They pit the Boiler, necessitating new tubes and endless expense.

We Send Trial Order Why? Because if you try our compound we have made a life-long customer. We are supplying hundreds each year—why not you? We refund cash if you find our compound does not do all we claim. For years we have proven it the Best on the Market.

Nebraska Compound and Oil Company, 306 South 12th Street, Phone Douglas 2964.

Cold in Head

Relieved in one minute. Money back if it fails. Get a 25c or 50c tube of

KONDON'S Catarrhal Jelly

Use it quick. For chronic nasal catarrh, dry catarrh, sore nose, coughs, sneezing, nose bleed, etc. Write for free sample. The first drop used will do good. Ask druggists.
