Ararapcho Men Charged with Setting Fire to Home Commits Suicide Before Sheriff is Able to Arrest Him.

(From a Staff Correspondent.)

LINCOLN, Nov. 23.—(Special.)—Members of the Nebraska State Railway commission, with the exception of Commissioner T. L. Hall, who will not be back for a couple of days, have returned home, well pleased with the results of the trip.

Western commissioners, according to Commissioner Taylor, entered into an agreement in which each will subscribe not less than \$1,000 and such help as can be spared from their offices for the purpose of making a thorough investigation and a complete accounting of the business of the carriers for the purpose of gaining a correct insight into the earning capacity of the roads as compared to the expense. In connection with this Clifford Thorne, chairman of the Iowa commission, paid a high compliment to U. G. Powell, rate expert of the Nebraska commission, suggesting that Mr. Powell take charge of the investigation of the affairs of the roads, saying that he was one of the best accountants in the United States. It was this he was joined by members of other commissions, and it is probable that Mr. Powell will have an important part in the work of checking up the carriers.

To Consolidate Hearings.

Western commissioners, representing thirteen commissions, joined in a request to the Interstate Commerce commission that all applications for rate changes be consolidated and it was intimated that this would be done.

Should an advance be granted of 1 cent per 100 pounds, basing this year's business on last year's. It will mean that the roads will receive an additional \$46,000 for carrying grain alone in this state. Last year approximately 5,000 carloads were shipped out of the state and this would mean the above increase.

Nebraska methods and Nebraska plans in vogue by the Nebraska commission, stand high with the members of other commissions and their recent report No. 12 was complimented very highly.

Friday chairman Clarke and Rate Clerk Powell will go to Sioux City to be present at the hearing before an examiner of the Interstate Commerce commission relative to the order put into effect known as No. 15.

Ararapcho Man Ends Life.

W. P. Bequette, deputy in the fire commissioner's office, has sent a letter to Commissioner Ridgell in which he states that Martin L. Warren, charged with setting fire to his own house in Ararapcho, had committed suicide before the sheriff was able to arrest him. The property was insured for \$1,250 and was estimated to be worth about \$1,250. The property burned to the ground October 21. On November 12 the sheriff, armed with papers for the arrest of Warren, went to arrest him at a house where he was stopping alone and found him lying dead on the floor, having shot himself.

Youth Killed at Play.

Milford Turner, 15 years old, is dead from the effects of being hit on the head by a brick thrown by Joe Sinner while the two, with other boys, were playing football. The ball had been kicked in the air and the Sinner boy threw a brick at the ball which struck the Turner lad on the head, fracturing the skull. He was taken to a hospital, but lived but a short time.

Tax Commission Plans.

While the people knocked out the tax amendment at the late election, the State Tax commission will go ahead and prepare its report just the same as if the proposition had carried. In fact, the one proposition will be alone that line entirely, while another will make recommendations which it is hoped will help the legislature, if it desires to listen to the expert advice of the commission. The commission was given \$5,000 for expense money for preparing the report, and a whole lot of hard work has been put in by the members of the commission trying to get at something which would be beneficial to the state. After the report is printed and paid for there will be a small surplus left to turn back to the state.

Mrs. Jones was not satisfied with this part of the will and she claimed her part of the estate as provided by law, which gives her a life estate in the household effects of the deceased and one-fourth of the estate, which is valued at \$5,000.
