Prices on Board of Trade.

CHICAGO, Nov. 7.—Wheat smashed down in price today, semi-demoralized by surprisingly bearish estimates of a big yield from the harvest now going on in the Argentine Republic. The market closed extremely weak 2%,43% to lower than Wednesday night. Corn suffered a net decline of %,7% and oats of 1% to an advance of 2%.

Violent breaks characterized the wheat market right from the start. British reports indicate a possible crop of as much as 200,000,000 bu, in Argentina, with an exportable surplus of 141,000,000 bu. Not withstanding that authorities were inclined to discredit such figures and to put the maximum surplus at 95,000,000 bu, there was general commission house self-there was general Prices on Board of Trade.

there was general commission house sell-ing that uncovered many stop-loss orders and prevented any lasting rally. Ex-porters were busy taking advantage of the fall in quotations, but the amount of transatlantic business done was not con-sidered large in view of the sharp decline.

sidered large in view of the sharp decline. Hedging sales against heavy purchasing of cash wheat in the southwest formed an additional burden on the market. In the northwest farmers still maintained their disposition to hold.

Shorts' covering held the corn market relatively firm. There also was much buying of corn by speculators who at the same time were sellers of oats. The latter grain was further weakened by the depression in wheat. Seaboard demand proved good, but falled to discourage the bears.

MOVEMENT IS AN EXPERIMENT of history of the same of the same as ease and the fact that a regular money market would accompany trading on the exchange from Monday next might be accepted as further proof of a gradual return to normal. Banks of the clearing house will report a large cash loss tomorrow, according to most forecasts, but the surplus of these institutions as disclosed in last week's statement will not be affected to an appreciable extent.

the surplus of these institutions as disclosed in last week's atatement will not be affected to an appreciable extent.

Exchange on London was steady, sight drafts showing some firmness on a moderate inquiry. In continental exchanges francs and marks moved contrarily, the former being strong and the latter increasingly heavy. The Bank of England statement showed another relatively small loss of gold and a reduction in liability reserves. The Imperial Bank of Germany added more than \$5,000,000 to its vast hoard of gold and recorded a large decrease in current notes. The first critical settlement since the outbreak of the war was impending in London, without untoward incidents, so far as could be judged from the course of prices.

Returns for October made by several of the larger railroads were in keeping with other exhibits for the same period. Union Pacific showed a net loss of \$783,000, which would have been much larger but for a marked decrease in cost of operation, and Chicago & Northwestern lost \$477,000, which also would have been greater but for a saving in charges.

Coffee Market.

NEW YORK, Nov. 27.—COFFEE—The market was quiet today and business in all departments appeared to be walting for the reopening of the exchange next Monday. After Wednesday's notices, estimated at about 50,000 bags, according to the latest figures, there was loss liquidation through the voluntary committee, and December rallied several points from the recent low figures on covering, while the spot market also ruled steady, around 614c for Rio 7s and 10c for Santos is. Cost and freight offers from Brazil were unchanged to a shade lower. Sales of 5,250 bags were reported through the committee, with December closing at 5,200 day, and May, 5,5505.90c.

PARISIAN PALATES ARE TUNED TO COARSE BREAD

(Correspondence of the Associated Press.) PARIS. Nov. 15 .- Attention has aiready been called to the fact that Paris was never so well nor so cheaply fed as since the war began. This situation continues and applies to the country, excepting the unfortunate regions that have been ravaged by the occupation of the nostile

Paris suffers in this respect from only one thing; its delicate taste is rebellious to the coarser quality of bread to which bakers were confined by government order, and are praying that the bakers be permitted to furnish the "pain de fantaisie," as they call the finer qualities of French bread.
