Both "jobs," according to the chief of detectives, bear strong earmarks of having been accomplished from the inside.

Sutton Would Have an Industrial Farm for Each District

An industrial farm in every congress sional district in Nebraska, to be provided at intervals by the state, is District Judge Sutton's solution of the problem of how to reform offenders against the law as well as punish them. NEW HIGH MARK FOR DURUM Omaha Trunk Co. is Car of This Kind of Wheat Sells Lo-

cally for Dollar Thirty-Three.

FORMER RECORD YEARS AGO

Previous High Mark of the Cereal Was Reached in Mineteen Hundred and Nine at Dollar Thirty-Two.

Wheat on the Omaha Grain exchange set another new high mark when a car of Durum sold at \$1.33 per bushel. This was the highest price at which any kind of grain ever sold. The previous high dent of the company, H. J. Adams of mark was on May 22, 1909, when a car of No. 2 hard sold at \$1.32 per busheb the Hartman Trunk company of Chicago is to be vice president. A. J. All around wheat was up 1 to 11/2 cents. No. 2 selling at from \$1.15 to \$1.17. Corn followed wheat in its upward course, selling at 60 to 62 cents, an advance of threefourths of a cent. Oats were strong and ap one-fourth to one-half of a cent, selling at 45 to 46% cents:

While receipts were not a record, they vere about the heaviest of the year, there being 330 cars of wheat, as against 308 at Chicago and 168 at St. Louis. There were 228 cars of corn, as against twenty-six at Kansas City and 127 at St. Louis.

From now on dealers anticipate heavy receipts of corn and moderately heavy receipts of wheat, anticipating that owing to the enormous increasing demand, prices cannot go lower. Then, too, they contend, the home demand will soon make tself more kenly felt, which will have a dency to stimuate prices.

Advices to the Omaha Grain exchange are to the effect that the exports last week reached 12,465,000 bushels, Omaha furnishing about one-twelfth of this quan-
