Prices on Board of Trade.

CHICAGO, Jan. 12.—Huge sales of wheat to Europe and to miliers in the United States helped wonderfully today to quell fears as to the results of a possible opening for Russian shipments through the Dardanelles. Accordingly, the market finished strons, at 2c to 3-25%c above last night. Other leading staples, too, scored net gains—corn %48%c to %25%c, oats %25%c and provisions %4c to %25%c, oats %25%c,

board cetimated as totalling 2,225,000 bushels.

Announcement that Turkey had agreed to the demands of Italy exercised an important influence toward starting the wheat market on the uptura, which was virtually unchecked throughout the day.

Corn responded to the advance of wheat, but was visbly retarded by the immense stocks on hand here and in other principal centers. Exporters seemed for the most part to have temporarily retired from the corn market. Scaboard demand for oats, however, expanded. Commission house call, too, in regard to future deliveries of oats proved to have decided vigor.

NEW YORK STOCK MARKET

Perceptible Halt in Upward Movement of Shares and Rising Tide.

SPECIALTIES PUT FORWARD

NEW YORK, Jan. 12.—There was a perceptible halt today in the upward movement of stocks and the rising tide of activity. Leading shares were disposed to react moderately and the undertone of the market suggested profit-taking in those issues at every ravorable opportunity. Specialties were again put forward, however, some of them adding appreciably to recent gains, but activity in this group was viewed with some skepticism and failed to clicit any outside inquiry.

One of the low-priced specialties—Rumely—fell to its lowest price. Inter-

cam and rained to elicit any outside inquiry.

One of the low-priced specialties—Rumely—fell to its lowest price. International Harvester issues failed to reflect in any way the announcement that ample provision had been made to meet its note obligations maturing next menth.

Uni ed States steel was the buly faverit to manifest consistent strength and rose above yesterday's beat figure. Hethlehem Steel showed the effects of continued realizing sales, but a statement attributed to one of the leading independents in the steel industry, who expressed the opinion that the "corner of depression had been turned," imparted some (trumess to industrials as a whole. Metal stocks were comparatively fractive, but held most of their recently acquired advantage.

Foreign exchange rose temporarily on buying of remittances for the Arsentine, but declined after demand from that quarter had been satisfied. The local money market was even duller than usual, offerings of mercantile paper showing corresponding diminution, but interior banks are buying these contracts on terms more favorable to the cendors. Sixty-day loans were made at 3 per cent.

Private cables to international bankers reported increasing firmness in London and Paris, the outcome, it was intimated, of Turkey's accaptance of Italy's demands. There were further pegotiations between this center and London respecting the proposed purchase by our bankers of a part of the recent French treasury note lasue, but definite details were lacking.

Bonds were strong, especially the better

note issue, but definite details were lacking.

Bonds were strong, especially the better known investment issues. Total sales, par value, were \$2,012,000. United States government bonds unchanged on call. Number of sales and leading quotations on stocks were as follows:
