**DOVE STILL IS IN STATE HOUSE DOME**

Looked for a while as if it would be driven out by Row Over Firing Stenographers.

**MAY PUT WOMEN BACK TO WORK**

(From a Staff Correspondent.) LINCOLN, Neb., Jan. 14.—(Special Telegram.)—The firing of three young women stenographers by the senate, yesterday, one of them placed on the roll on the recommendation of Secretary Sprague of the democratic state committee, brought that gentlemen to Lincoln in a hurry last night, and this morning it is hinted that the three will go back on the payroll.

Sprague was pretty warm when he reached town and said, "It seems mighty strange that the secretary of the state committee, who put in his whole time for nothing during the state campaign, can't get across even one appointment in the legislature."

Shallenberger, while in Lincoln during the day visited with many of their friends and took luncheon with Representative and Mrs. M. A. Peterson of Alma. Mr. Shallenberger addressed the legislature in the afternoon by special invitation.

Concerning the Fifth district patronage situation, the congressman did not care to be quoted extensively. He admitted that some differences exist between himself and C. W. Bryan over appointments, especially his recommendation favoring A. S. Campbell for postmaster at Imperial. However, he said that while in Washington recently he had a very satisfactory interview with W. J. Bryan over patronage matters, and he thought it might be possible to arrive at some amicable understanding.

The weapon shows hard usage and the tag placed bears the additional information that after the war it was used on the farm at butchering time until it "went wild" and bit the wrong hog so often that the general was forced to retire it.

(From a Staff Correspondent.) LINCOLN, Jan. 14.—(Special.)—The 50-pound dunnage exemption hitherto allowed shippers by Nebraska railroads is done away with in order that it have been issued by the state Railway commission. "Dunnage" covers crates and staves used in bulk shipments to secure the freight. In the past the railroads have carried 50 pounds actual weight of this dunnage free. The commission has cancelled the rule on the grounds that it puts a premium on careless packing in bulk and puts at a disadvantage those shippers who crate or box their goods carefully.

**HASTINGS LINE AFFAIRS ARE AGAIN IN COURT**

What will probably be the last appearance in court of the affairs of the Omaha & Nebraska Central railway, was before District Judge Sears, when creditors made a final effort to hold stockholders for the amounts due them. Claims of more than \$5,000 are involved. **DETAILS OF PRINTING BILL**

Bates Would Provide Hundred Thousand Dollars for Erection of Plant Near Capitol.

**TO GET UNDER WAY IN A YEAR**

(From a Staff Correspondent.) LINCOLN, Jan. 14.—(Special.)—One hundred thousand dollars is the amount of appropriation for the establishment of a state printing plant, proposed in a bill introduced by Representative Bates today. This measure creates a state printing commission consisting of the governor, secretary of state and the state printing commissioner appointed by the governor. It empowers the commission to act with the Board of Control in purchasing a site and erecting buildings thereon, as near as possible to the capitol building in Lincoln.

**How Money is Divided.**

The appropriation is divided as follows: Grounds and building, \$30,000; equipment, \$25,000; printing and binding material, \$30,000; labor, \$20,000; salary of state printer for one year, \$2,000; incidentals, \$5,000.

It is figured by the introducer that the state plant, if established, will not be ready for operation during the first year of the biennium, and for that reason only one year's salary is provided for the state printer.
