

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would tingle. My stomach bothered me. I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Try this easy way to heal your skin with Resinol

If you are suffering from eczema, ringworm or similar itching, red, unsightly skin affection, bathe the sore places with Resinol Soap and hot water, then gently apply a little Resinol Ointment. You will be astonished how instantly the itching stops and healing begins. In most cases the tick skin quickly becomes clear and healthy again, at very little cost.

Resinol Ointment is so nearly flesh-colored that it can be kept on the face, hands or other exposed surface without attracting undue attention.

Resinol Ointment and Resinol Soap also clear away pimples, blackheads, and dandruff. Sold by all druggists; for trial free, write to Resinol, Dept. 7-5, Baltimore, Md.

RUSSIAN FORCES RESUME ADVANCE

Czar's Forces in North Which Are Pushing Into East Prussia Capture Several Villages.

GERMANS GAINING IN CENTER

PETROGRAD (via London), Jan. 14.—Furious fighting has resumed in Russian Poland. The Russian forces in the north, which are pushing toward East Prussia in the region near Mlava, have captured a number of villages. In the center the Germans have made four violent attacks within the last forty-eight hours. They forced back the Russian and occupied considerable ground. Important bodies of Russian troops have pushed northward from Warsaw in the movement toward the western end of the east Prussian frontier. They have recaptured a number of villages between Mlava and Prazmynsk, hitherto held by the Germans.

In the center, at the junction of the Bzura and Rawka rivers, where fighting has been in progress for more than a month, the Germans have begun a new movement of great vigor. Their activity centers along the line to the east of Szychow and Skiermiewice. It is here that they have made four distinct efforts to advance during the last two days. Following a furious artillery action, the Germans occupied the district to the northeast of Boliney, including the towns of Binski and Sacka. These positions are three and four miles southwest of Sochaczew and five miles east of the Bzura, from which positions they were reported officially to have been driven out at the point of the bayonet. Russian papers are printing statements, based on what they say is information from German sources, to the effect that the German staff is preparing public opinion for the withdrawal of German troops from the Warsaw district.

QUAKE ECLIPSES MESSINA HORROR; 50,000 VICTIMS

(Continued from Page One.)

will be furnished at the expense of the city.

HORROR INCREASES HOURLY

List of Dead, Dying and Injured Over Fifty Thousand.

ROME, Jan. 14.—With every hour, as additional and more accurate details are received, the horror of yesterday's earthquake increases, threatening to place it in the list of similar catastrophes in Europe's second only to the Messina disaster of 1908.

The list of dead, dying and injured has increased from a relatively small figure last night to more than 50,000, according to an official announcement today, and it is expected that this number may grow before the day is over.

The full extent of the property loss has not yet been determined. Here in Rome priceless statues, century-old buildings and structures that for years have been the mecca of visitors, have been destroyed or injured.

Though the loss of life, and possibly the damage, may be less than it was in 1908, the area of the disturbance greatly exceeds that of the Messina earthquake. It covers the whole eastern portion of Italy, from Naples, on the south, to Ferrara, on the north.

Wide Area Affected.

The most disastrous disturbance, from all reports, seems to have centered in the vicinity of the town of Avezzano, where 3,500 persons have been killed or injured, according to the latest official reports. Reports of damage in varying degrees of severity have come from Latium, Abruzzi, Umbria, the Marches, Tuscany, Aelia, Campania and Apulia.

The earthquake belt is estimated to be about 20 miles long, extending practically from one side of Italy to the other, in Abruzzi, Latium and Campania the quake reached its highest degree, described by scientists as "catastrophic," and in other places it varied between the seventh and the tenth degree.

Relief measures for the thousands who have succeeded in escaping from their ruined homes in safety, but are in want and without shelter, are going ahead with all possible speed. Special trains have been dispatched, carrying persons and purses, and government officials have been ordered to provide all necessities for the stricken people.

King Goes to the Scene.

King Victor Emmanuel, despite the protests of government officials, who urged the international situation in Europe as a reason for his staying in Rome, left today for the vicinity of Avezzano to do whatever he could, and by his presence give stimulus to the relief work.

Queen Helena, still in bed since the birth of a daughter, has expressed the deepest regret that she could not go to the scene of devastation, as she did at Messina.

Relief committees are being organized in each locality that has been stricken to work under the direction of the central committee in Rome, which is under the supervision of Premier Salandra.

Soldiers have been rushed to the scene and by night will have established tent colonies in which the homeless thousands may find temporary shelter.

Wires and Railroads Interrupted.

Lines of communication, especially railroad tracks and telephone and telegraph wires, have been interrupted seriously throughout the entire earthquake belt, and the transportation of supplies furnished by the government and private sources is going forward by automobile and horse-drawn wagons.

The forces at work relieving distress face scenes of the greatest tragedy. Families have been separated. Children are fatherless. Wives have become widows.

In every stricken section temporary hospitals have been established and to these have gone nurses and doctors to care for the injured. The list includes the duchess of Aosta, who has gone to Monteroduni as a nurse.

LARGE AREA IS DEVASTATED

Fear that List of Casualties Will Exceed Fifty Thousand.

LONDON, Jan. 14.—Late reports from the zone which suffered from yesterday's earthquake, while still fragmentary, indicate there has been an appalling loss of life and property. Latest estimates of the killed and injured are 50,000 or 55,000, but fear is felt here that the death

list may be larger than this when the figures are officially compiled.

The earthquake zone, so far as can be gathered here, extends for nearly 200 miles, from below Naples, in the south, to Ferrara, in the north, and practically across the entire width of the country in the district indicated. The country to the east and southeast of Rome suffered the most apparently, for reports of loss of life and damage to property come from all over this district.

Greatest Loss at Avezzano.

Avezzano, with 12,000 inhabitants, sixty-three miles east of Rome, seems to have been the center of the disturbance and this place, with a number of nearby towns and villages is reported destroyed.

Great loss of life occurred at Avezzano and its vicinity, the number of dead and injured there being placed at more than 10,000.

Among the towns in the earthquake district reported destroyed, are Bussil, Capelle, Rocorcolo, Maritano, Cappadocia, Celano and Pesciro. Sora and Arpino are said to have been partially wrecked.

Naples felt the shock severely, but suffered only slight damage. Sulmona and Aquila, in the province of Abruzzi, and other towns in that region report much damage and some loss of life.

No one was killed in Rome, but there is considerable material damage. Several of Rome's historical structures were damaged, but, it is hoped, not irretrievably so. About 100 persons were killed in towns near Rome, according to reports. Relief work is already under way, and it is stated that King Victor Emmanuel will himself visit the most severely stricken districts at the earliest possible moment.

Premier Takes Charge.

Premier Salandra has personally taken charge of the relief work. He has established quarters in the home office, from which he will direct the rescue work in the earthquake district. Special trains, with doctors, medicines, ambulances and nurses already have been dispatched, and government officials have been given carte blanche to provide all necessities to the stricken people.

The duchess of Aosta has gone to Monteroduni, where she has installed herself as a hospital nurse for the wounded.

Pope Benedict is awaiting a report from Monsignor Sagni, archbishop of Aquila, on the gravity of the situation and the probable loss of life. He has expressed a desire to go to the spot if his presence is necessary to encourage and comfort the distressed.

The anxiety concerning the province of Potenza seems unnecessary, as the latest reports say that while the earthquake damaged buildings there, it caused no loss of life. The greatest injury occurred in the villages around the extinct volcano Vulture.

Geological in Origin.

Director Friesland of the International Volcanological Institution at Naples says the origin of the earthquake is geological and not volcanic, with its epicenter in the valley of the Garigliano river. The registration of the earthquake at the observatory lasted for forty seconds and was so violent that the needles broke.

Mount Vesuvius, according to the observers in that district, has shown no signs of unusual activity.

It Really Does Relieve Rheumatism.

Czar Feels Absence of German Goods and Markets of Germany

BERLIN, Jan. 14.—(By Wireless to Sayville, N. Y.)—The Russian newspapers, Rech, Nisny Slovo and Nisny Wiedomosti describe the difficulties the Russians are placed in because of a lack of necessary goods formerly imported from Germany, says a statement issued from the official press bureau here.

"On the other hand," the statement continues, "the newspapers speak of the impossibility on the part of the Russians to export carriages, wood, grain, furs and spirits. The leather industry is declared to be at a standstill because of the lack of tanning material."

The London Standard states that considerable amounts of English coinage have been sold unofficially below the fixed minimum price.

"The Italian deputy Belmonte, pointed out at a meeting in Milan that victory for France and England would cause Italy's vassalage in the Mediterranean and that the present neutrality was the cause of Italy's favorable diplomatic situation."

A report from Petrograd says that the Russians have withdrawn many Cossack regiments from the front in view of the possibility of riots in the larger towns.

"Christiania reports that the English shot at the Norwegian steamer Hauken while it was calling at the English port of Blyth, despite the fact that it showed the Norwegian flag."

Ouch! Pain, Pain Rub Rheumatic, Aching Joints

Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappears and can not burn the skin.

"Lamb up." Quit complaining! Get a small trial bottle of old honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.—Advertisement.

Houston Favors Law That Will Create Rural Credit System

TOPEKA, Kan., Jan. 14.—Secretary Houston of the Department of Agriculture took an optimistic view of the future of American agriculture in an address here today before the State Board of Agriculture, in which he strongly urged early enactment of rural credits legislation.

"More helpful agencies are operating on rural life today," declared Secretary Houston, "than ever before in the history of the nation. The American farmer need not fear the competition of the world. He will inevitably control the home market except for things which cannot be produced here, and will be called upon increasingly to supply the demands of foreign nations."

Declaring that he strongly favored both federal and rural credits legislation, Secretary Houston said: "I favor a federal land mortgage banking system for long time loans on the amortization principle, operating through private funds, and I favor legislation, especially by the states and if possible by the federal government, stimulating and encouraging personal co-operative credit unions."

"I do not favor intervention by the federal government or the state to the extent of voting money out of the treasury or of using the credit of state or federal government to support either system, which would mean in effect to take money contributed by all the people to lend to a particular class of the people."

The department had ascertained after investigation, he said, that \$300,000,000 is lent on farm mortgages in the United States by banking institutions and state and private funds, and that insurance companies had invested \$600,000,000 in farm mortgage loans.

"More would be invested and at more favorable rates," he continued, "if reliable machinery were devised for inspecting and offering rural securities."

WOMAN'S HEALTH Requires Care

Women are so constituted as to be peculiarly susceptible to constipation, and their general health depends in large measure on careful regulation and correction of this tendency. Their delicate organisms rebel at the violence of cathartic and purgative remedies, which, while they may afford temporary relief, shock the system and seriously disturb the functional organs. A mild laxative is far preferable and, if properly compounded, much more effective.

The combination of simple laxative herbs with peppin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is ideal for women's use. A free trial bottle can be obtained by writing to Dr. W. R. Caldwell, 432 Washington St., Monticello, Ill.

COUNTIES ENJOINED FROM TAXING S. D. STOCK CATTLE

ABERDEEN, S. D., Jan. 14.—(Special.)—Judge James D. Elliott of the United States district court has issued a restraining order prohibiting the county of Dewey from taxing "I. D." live stock and its increase for nonpayment of taxes. "I. D." is the government brand on live stock owned by Indians, and the government claims this property is exempt from taxation. South Dakota counties in the Indian country, including Dewey, Mellette, Bennett, Corson, Zieback, Perkins

VON KLUCK TAKES CHARGE OF FIGHT FOR SPUR NO. 132

(Continued from Page One.)

garrison maintained in Tabris in times of peace had been withdrawn, it is believed that the sufferers by the occupation, if any, are the Armenians whom the Kurds, constituting the Turkish advance guard, are always ready to attack.

Today's dispatches from Petrograd say that the Turkish invasion of Persia continues and that the Turks are penetrating farther into the country. The Russians still claim to hold the upper hand in the fighting in the Caucasus in the vicinity of Kara-Urgan, but the lack of details suggests that the battle, which has now been in progress for seven days, has not yet resulted decisively for either side.

The principal feature of today's news in London is the resignation of Count von Berchtold, the Austrian foreign minister. Some maintain that this action indicates that a crisis in the affairs of the dual monarchy is at hand. Others suggest that the appointment of Baron Stephen Burián von Rajek to von Berchtold's place is a move to placate the dissatisfied Hungarians.

and Roberts, contend that the increase from the "I. D." cattle is taxable, unless it is branded, and in some instances such property has been seized for taxes. The action taken promises to settle the question definitely.

THIN FOR YEARS—

"Gains 22 Pounds in 23 Days"

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"Sargol has put just 10 pounds on me in 14 days," states W. D. Roberts. It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure."

"I weighed 132 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen," declares D. Martin, and J. Meier adds: "For the past twenty years I have taken medicine every day for indigestion and got thinner every year. I took Sargol for forty days and feel better than I have felt in twenty years. My weight has increased from 150 to 170 pounds."

When hundreds of men and women—and there are hundreds, with more coming every day—living in every nook and corner of this broad land voluntarily testify to given increases ranging all the way from 10 to 35 pounds weight them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it just as thousands of others have done? Many thin folks say: "I'd give most anything to put on a little extra weight," but when someone suggests a way they exclaim, "Not a chance. Nothing will make me plump. I'm built to stay thin." Until you have tried Sargol, you do not and cannot know that this is true.

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just take it and watch weight pile up, hollows vanish and your figure round out to pleasing normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell the story.

Sargol is absolutely harmless. It is a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of separating all of its flesh producing ingredients. It prepares these fat making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of their food now goes to waste through their bodies like unburned coal through an open grate. A few days' test of Sargol in your case will surely prove whether or not this is true of you. Isn't it worth trying?

If you want a beautiful and well-rounded figure of symmetrical proportions, if you want to gain some solid pounds of healthy "stay-there" flesh, if you want to increase your weight to normal, weigh what you should weigh, go straight to your druggist today and get a package of Sargol and use it as directed. Sargol will either increase your weight or it won't and the only way to know is to try it. A single package of Sargol easily enables you to make this test. Sixty days' use of Sargol, according to directions, is absolutely guaranteed to increase your weight to a satisfactory degree or your druggist will refund all the money you have paid him for it. Sargol is sold by leading druggists everywhere and in Omaha and vicinity by Sherman & McConnell Drug Co. Stores.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on dragging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physiological culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result, when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficacious, and it is the only way to get it and will refund your money, if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous depression of general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.—Advertisement.

How Thin People Can Put On Flesh

A New Discovery.

Thin men and women—both big, hearty, filling dinner you eat last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight, have you? That food passed from your body like unburned coal through an open grate. The material was there, but your food didn't work at all, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are simply out of gear and need reconstruction.

Cut out the foolish foods and fatten your diet. On the flesh cream, Sargol. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet in two weeks note the difference. Five to eight good solid pounds of healthy, "stay-there" fat comes in. First, weigh yourself, too, mixes with your food and passes it for the blood in easily assimilated form. This food passes through your body to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol is a scientific combination of six of the best flesh-producing elements known to chemistry. They come in a package, are pleasant, harmless and healthy, and take measure will refund your money, if you are not satisfied, as per the guarantee of weight increase or money back.—Advertisement.

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay-there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First, weigh yourself and measure yourself. Then take Sargol weekly. That with every meal, for two or three weeks. Then weigh yourself again. It isn't a question of how you look or feel or what your friends say and think. The scales and tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not cut your muscle fat, but mixing with your food, it turns the fat, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can easily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. All leading druggists sell it in large boxes—forty tablets to a package—and guarantee weight increase or money back.—Advertisement.
