FAMOUS INFIELD SHATTERED WEST POINT SPEED

Loss of Collins and Baker Will Break Up Most Famous Base Ball Machine.

SMALL HOPE TO REPLACE STARS

NEW YORK, Feb. 28.-If J. Franklin tional sport. Following closely upon the sale of Eddie Collins to the Chicago White JACK CURLEY STRANDED Sox it appears as if this remarkable combination of players was broken beyond reassembling or rebuilding. McInnis and Barry remain, but the probability of findand Collins and bringing the infield maextremely remote.

same positions upon the same team is a generation. Manager Mack was some years in assembling this hard hitting. accurate fielding and throwing machine and it was not until the season of 1911 that the Athletica' inner line of defense began to work in its most effective man-Collins joined the team in 1907 and was followed by Barry a year later. In 1909 McInnis and Baker also donned Athletic uniforms and the \$100,000 infield was

still shifting in 1909. McInnis was still shifting about the inner defense and Harry Davis was playing the initial base. In 1919 McInnis succeeded the combination. It was between 1919 and 1914 that the Athletics traveled their fastest, as their record of winning four out of five pennants shows. The caliber of the quartet is proved by the average of the players in both batting and fielding

ures: Batting, .271; fielding, .968. years of 318 and .977; Collins for six years Becker and Vakoc starred for Wayne, averaged .345 at bat and .963 in the field; with Ohman and Allen doing the heavy Barry in a similar period hit 358 and for Bellevue. Bellevue led, 14 to 12, un-1909 to 1914 was 321 and .934. With Collins throws from foul line put Wayne ahead. and Baker missing, McInnis and Barry are left as a nucleus about which Mack must rebuild his infield. As batters Collins and Baker outshine McInnis and Barry, for their combination average is 33 to 38. In fielding, however, Barry and McInnis average .9565 to .9486 for Baker and Collins.

Only a Few Offices But Some Very Choice Ones

While we can only offer you a choice of four offices at the present time, recent changes make it possible to offer you several particularly desirable offices and suites in

The Bee Building

We would advise you to make your choice now and not wait until spring, as it is very probable at that time we will have nothing to offer. The selection is:

This is a very choice office on the second floor, Suite 222: facing the corridor around the court. It is partitioned for a very comfortable waiting room and two private offices. It has north light. Price, per month \$45.00

Room 420: This is one of the corner offices which is considered so very desirable. It is 20x20 feet, and has two windows facing north and two west. The large vault is particularly desirable for some classes of business. The door of this office is directly at the end of the hall, so that the sign may be seen by everyone walking down the corridor.

Suite 426: This suite offers exceptional space and desirability for the price. It is divided into a waiting room and two private rooms. It has north light and its occupants receive all the service and comforts of a well kept office building.

Suite 432: This consists of waiting room and two private rooms. It faces 17th street. It is now occupied, but will be available about March 10.

Ground Floor Room:

Especially adapted for printing office. This has been occupied by a printer for many years and on account of its location in an office bailding and in the heart of the office building district, the location itself is an asset in this business or any similar business. It has an entrance from the court on the ground floor and also from the alley. There is very satisfactory light and ventilation. It likewise has the advantage, from the standpoint of insurance and safety, of being in a fireproof building. The floor space Price, per month \$100.00
