WHILE the days of golf for the Omaha devotees are two months off, many of the stay-at-homes have received enthusiastic missives from southern and western travelers, telling of the delightful hours they are putting in on the links at Palm Beach, Belle-Air, Coronado, or wherever fancy has taken them for a winter's stay.

Mr. and Mrs. E. H. Sprague write from Florida that the sun shines as bright as ever on their old time golf haunts at Belle-Air. With them are Mr. and Mrs. John S. Brady, who are also familiar with the run at this popular resort. This foursome of Omahans are seen for hours daily at the game.

Mrs. William A. Redick is among the well known golfers who are devoting many an hour to the practice on the Palm Beach course.

Mr. D. C. Bradford is noticed among the golfing contingent at Coronado Beach, where he has also an opportunity of enjoying a fling at his favorite—the polo game.

Fraternity Banquet.

The twenty-first annual banquet of Delta Tau chapter of Delta Tau Delta, in conjunction with the Omaha Alumni association will be held at the Hotel Fontainebleau this evening. Covers will be placed for ninety guests, including the entire active chapter and alumni from Omaha, Lincoln and various towns throughout Iowa and Nebraska. In point of attendance it will be the largest annual alumni fraternity banquet ever held here.

Mr. F. H. Woodard of Omaha will be the toastmaster for the evening and those responding will include:

Mr. Charles W. Mosker, Imperial, Neb.; Mr. Norris A. Huse, Norfolk; Roy N. Tost, Omaha; Mrs. Charles E. Cobbley; John W. McCurtick, for the active chapter; Mr. Richard L. Haas, for the freshmen.

With the Visitors.

Messrs and Mesdames—John L. Kennedy, Charles E. Hayward, Lee W. Kennard, Frank B. Kennard, George H. Payne, Charles E. Bates, Thomas J. Nolan, Lyman O. Hooley, William Newton, Raymond Hayward, Mrs. Eva Wallace.

Misses—Dorothy Wright, Mr. W. S. Wright.

of the organization to join the Nebraska Federation of Women's Clubs. In talking over this matter, it was discovered that the book company had saddled them with the membership of close to 40 women who purchased books, although the average active membership in each of the circles ranges between fifteen and twenty members.

Pay Dues for All.

"Since the book concern says these women are members of our circle, we will have to pay their dues in the state federation even though they are dormant members and we will never be able to collect the money from them," said Mrs. King.

Mrs. Spoerri said that some of the women were decidedly peeved at the plan in which they had been "done," while others expressed themselves as being perfectly satisfied with the quality of the books they had purchased and thought them worth the money.

The Omaha circles are the Hanscom Park, Urdice, Bemis Park, South Side, North Side, Benson and South Omaha clubs.

VICTIM UNABLE TO SEE POINT OF COSTLY JOKE

F. W. Peterson of the Globe hotel, 1107 Douglas street, was changing his clothes when W. Hall and Ed Duffy, two acquaintances, walked into the room and made away with his purse containing \$25, according to his story told the police.

Duffy held Peterson until Hall could secure the purse from a dresser, he asserted.

After the occurrence Peterson filed a complaint against both men and Duffy was arrested. The latter said it was only a joke, but as no signs of Hall or \$25 have been forthcoming, Peterson can't see the point.

SNOW TWO FEET DEEP ON TENTH STREET VIADUCT

Snow on the Tenth street viaduct is more than two feet deep on the level and some fears are expressed that its heavy weight may weaken the structure. There has always been a diversity of opinion as to the responsibility of removing the snow. The city contends that the railroad companies should gather it up and cart it away, while the railroad people hold the opinion that the city should care for it. In the meantime the snow remains and except along the car tracks the viaduct is next to impassable.

"If we are to act as agents for the book concern we are entitled to the regular agent's commission," said Mrs. King. Mrs. Spoerri was appointed to write to the secretary with regard to this phase of the question.

Question Existence.

Suspicion as to the existence of the National Child Conservation league has been aroused among the members owing to the fact that letters by officers of the local circles to the national secretary, as announced in the club literature, Mrs. Mey E. Huse, 2431-37 South Desbora, Chicago, have invariably been answered by the Howard-Severance Book company," said Mrs. Spoerri. Mrs. King, president of the federation, had the same experience. Dr. Winfield Scott Hall is named as the national president, and the advisory committee contains the names of David Hazy Jordan, Judge Ben Landers, Edwin Mackham, Luther Burbank and Mrs. Percy Pranzacker, president of the General Federation of Women's Clubs.

The inquiry into the exact status of the organization came about as a result of the desire of Mrs. King and other women

Mrs. Michael Gross Dies Following Fall

Mrs. Michael Gross, a resident of Omaha for many years, died at her home, 2323 Seward street, of complications following a fall and injury to her hip on February 3. She was 70 years old. The funeral will be held from the residence Sunday morning at 10 o'clock.

Besides her husband, Mrs. Gross is survived by three sons, Bernard, Sam and J. A. Gross, and four daughters, Mrs. E. Meyer, Mrs. R. Kulakofsky, Mrs. A. Katske of Albright and Mrs. L. Zlev. There are also twenty-four grandchildren and two great-grandchildren. Three brothers, Albert, J. J. and B. A. Simon of Council Bluffs and a sister, Mrs. E. Meyerow, are also left to mourn her death.

WOMAN PLEADS GUILTY TO WHITE SLAVERY CHARGE

Pleading guilty to violation of the Mann act, Mrs. Mary Denton received a sentence of six months' imprisonment from Judge Page Morris in federal district court. She was charged with having brought Eva Hill to Omaha from Columbus, O., for immoral purposes. Mrs. Denton was the woman who fled from Omaha last year while under bond and grand jury indictment. She was recently located at Columbus by her bondsmen.

SCHOOL GIRLS ARE RUN DOWN BY TAXI

Cora Delays, Gladys Skinner and Minnie Kneeter Severely Hurt on Way to Class.

MACHINE DRIVEN BY ED RUSH

Three school girls, students in the Mason school, were severely injured while on their way to school Friday morning when a taxicab driven westward on the north side of Leavenworth street skidded at the intersection of Twenty-second street and plunged across the thoroughfare, running down the girls, who were proceeding to school on the south side.

The girls are Gladys Skinner, 711 South Nineteenth street; Cora Delays, 713 South Nineteenth street, and Minnie Kneeter, 601 South Eighteenth street. The Skinner girl is reported as the most seriously injured.

According to witnesses, the machine, which was driven by Ed Rush, was traveling westward at a rather rapid rate and suddenly swung across the street for some unaccountable reason. The girls, walking in the same direction, had no chance to dodge when the car plunged into them. A fourth girl was in the party, but escaped uninjured.

All three of the injured girls were placed under the car after they were struck and, it is said, several minutes elapsed before the Skinner girl was released. She was very badly bruised about the head and body, and was taken to St. Joseph hospital. The Delays lass was injured about the head and Minnie Kneeter suffered a bruised foot.

Both the Delays and the Skinner girls are about 10 years of age and Minnie Kneeter is about 15 years.

Drifts Accumulate in Railway Stations

Terminal officials are experiencing great difficulty in keeping the yards at the Burlington and Union stations cleared of snow so that trains can get in and out and so that passengers can get on and off them. Both stations are far below the street level and catch immense quantities of snow that drifts in, Thursday, Thursday night and Friday gangs of men were at work sweeping the snow into piles and shoveling it onto flat cars to be hauled away to the dumps.

Since the present storm set in more than 30 carloads of snow has been hauled out of the passenger yards of the two stations and apparently there is as much snow there now as at any time since the work of removal has been going on.

IMPORTANT Worth Knowing

It is time the housewife should be advised on the baking powder subject and about the misleading advertisements.

The average consumer of baking powder does not know that a reaction occurs in the process of baking and the nature of the original materials is entirely changed, so that the substances which remain in the food to be eaten are very different from those which compose the baking powder before baking.

THE HOUSEWIFE SHOULD KNOW

that for this reason the statement that a baking powder contains alum or cream of tartar is worthless so far as informing the consumer as to what remains in the food.

WHAT IS EATEN

is what interests the consumer. What you eat as food is important.

Food prepared with cream of tartar baking powder does not contain any cream of tartar. Food prepared with so-called alum powder is free from alum.

When Cream of Tartar Powders Are Used

quantities of Rochelle Salts are left in the food. Rochelle Salts is a dangerous drug and is produced by the reaction which occurs in baking.

Why do the Cream of Tartar Baking Powder Manufacturers continually talk about what is in the can instead of what is in the food to be eaten?

Why Pay Forty-Five or Fifty Cents Per Pound

for cream of tartar baking powder and dose your food with Rochelle Salts when the best baking powder in the world can be and is made to retail at twenty-five cents per pound and gives you pure wholesome food?

THE DIFFERENCE

represents the twenty-million dollar trusts profits.

CALUMET BAKING POWDER

Made from the finest materials possible to select, so carefully treated and correctly proportioned and combined that FOOD prepared with it is free from Rochelle Salts, alum, lime or ammonia. It also complies with the Pure Food Laws—State and National.

In buying Calumet Baking Powder you get a baking powder that is

Unseen Dirt in Milk

"It is true that the most dangerous dirt is unseen; that is, it cannot be seen with the naked eye. Especially is this true of milk. In order to have clean milk there must be care and watchfulness all the way along the line, from the dairy farm clear into the city homes. Milk is easily spoiled. It absorbs filth and impurities when exposed to the open air."—From Chicago Department of Health Bulletin.

When cities like Chicago and every other progressive city in the country are spending thousands of dollars a year in maintaining health departments under the direction of the most capable physicians to be found, and these physicians constantly warn against the danger of disease germs found in raw milk, isn't it best for you to be guided by their expert opinion?

You can protect yourself against disease-laden milk.

Cottage Evaporated Milk answers the question. For evaporated milk is not merely a question of convenience and economy—it is a question of health.

Cottage EVAPORATED MILK

Unsweetened Sterilized

Is the milk that overcomes all danger of the transmission of disease in milk. It is perfectly sterilized and never exposed to the air until you open it.

It is made from fresh cows' milk, carefully inspected, with no preservatives and nothing added—only part of the water taken out by evaporation. Made fresh every day in sanitary, spotless condensaries in the best dairying districts of the country. Delivered direct to your grocer.

Cottage Evaporated Milk is good for any purpose where you are now using raw milk or cream. It has more than twice the food value of bottle milk. Buy a can. Try a can.
