Soap should be used very sparingly, if at all, if you want to keep your hair, looking its best. Most scaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use just ordinary mulsified coccenut oil (which is pure and greaseless), its cheaper and better than soap or any thing clse you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rab it in.
