

Retired Georgia Planter's Advice to Kidney Sufferers

Regarding the wonderful curative merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys, I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one-dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter, 70 years of age, and owing to Dr. Kilmer's Swamp-Root, I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it. Sincerely yours, C. E. USSERY, Bowerville, Ga.

Personally appeared before me, this 14th of September, 1909, C. E. USSERY, who subscribed the above statement and made oath that the same is true in substance and in fact. T. H. McLANE, Notary Public.

ASSUME EASTER GARB SUNDAY NEXT

Dresher Brothers, Cleaning Hustlers, Enter Business Week of the Year. Promise Deliveries of All Orders in Time for Wear in the Annual Easter Parade.

If Dresher Brothers, the Cleaners and Dyers with the \$57,000 Plant at 2211-2213 Farnam street, were the ordinary, hum-drum, every-day-sort-of-cleaners, they would throw up their hands and frankly confess their inability to get out the work that will surely be required of them within the next few days. But "Dreshers" never yet were "stuck," and they will promise faithfully to do any sized cleaning job for you in time for Easter wear. They will promise to complete your job for you, even if you delay the work until a day or so before Easter Sunday. But, for the sake of all things concerned, send in your wearables or have them sent in to your very earliest opportunity.

Stave off that proposed trip to the clothes or ladies' suit shop until you see what Dreshers can do with your last year's garments. Dreshers guarantee to put your old clothes into plenty good enough condition to wear right in the Easter parade. And, if by chance the style of your last year's garments happens to be a little "off," have Dreshers change the style. Dreshers maintain a force of exceptionally able tailors, ladies' tailors and dressmakers, who can rip your garments apart in a hurry and put them together again, after re-cutting them to conform with the styles that show up most prominently on this season's style charts. They will do this for so reasonable a price that you will admit you save a lot of money. A new suit or dress is entirely unnecessary for Dreshers will put the "Easter Sparkle" and present fashion into the clothes you already possess. Call Tyler 345 first thing. Have a Dresher man call. Tell him what you want done to the clothes. If you want to give the directions more explicitly, call up the department wanted at Dreshers and speak to the foreman or forelady. Either way your work will be done rightly and quickly, and you'll have your garments back in plenty of time to jump in with the rest of them on Easter Sunday, which occurs April 4 this year.

If you happen to be downtown with your clothes, you might bring them in to Dresher the Tailors' establishment at 1515 Farnam street, or to the Dresher branch receiving station in the Postpaid Room of The Brandeis Stores. Dreshers pay express or parcel post charges one way on all out-of-town shipments to any point in America. Mind you—Easter Sunday is almost here—it will be here April 4—next Sunday.—Advertisement.

VERDICT OF \$68,750 GIVEN JOHN MOORE

Jury in Federal Court Assesses Union Pacific This Sum for Injury to Dundee Lawyer.

ACCIDENT IN THE LOCAL YARDS

John A. Moore, an attorney residing in Dundee, was given a verdict for \$68,750 damages against the Union Pacific railroad last night in federal court on account of injuries sustained while upon one of its trains, December 15, 1913. Moore sued for \$150,000. An appeal will be taken as soon as the transcript can be prepared and certified.

The judgment recovered by Moore breaks a record. It was asserted last night at the offices of the United States district court officials that never before in the history of Nebraska has a jury returned a verdict for so large a sum in any damage or personal injury suit.

Attorneys for Moore were Halleck F. Ross and Herbert Daniels of Omaha, the latter brother-in-law of the plaintiff, and Matthew Gerwig of Plattsmouth. T. Z. Mahoney and G. Hilck represented the Union Pacific.

Attorney in Other Big Case. Moore, who is 37 years of age, was counsel in a damage suit against the Burlington railroad brought by M. Z. Thompson of St. Joseph, in which a verdict of \$50,000 was recovered, the suit which held the record for size in Douglas county in personal injury cases until the verdict in his own case. That suit was settled for \$27,000.

How Injuries Sustained. At the time of sustaining the alleged injuries Moore was returning from Davi City, Neb. In the passenger train yards at the Union station, the Union Pacific train on which he was riding collided with a Rock Island train. Moore was riding in a day coach. As the engines came together, though both were moving at a slow speed, the car was considerably broken up. In other passengers were thrown about in the seats, though he was the only one who was seriously injured.

According to the testimony at the trial, Moore sustained a number of broken ribs, his spine was injured, one kidney broken loose and ruptured and his legs were cut and bruised, resulting in epilepsy and partial paralysis. It was alleged in testimony that his injuries were permanent, though the road sought to prove that some of Moore's ailments were constitutional. The case was submitted Thursday afternoon after a trial lasting two weeks.

TEUTONS EXPEL LAST RUSS

Final Raiders of Czar's Army Leave East Prussian Territory, Says Berlin.

HURLED ACROSS THE BORDER

BERLIN, March 27.—(By Wireless to Sayville).—The Russian offensive movement against the east Prussian territory, to the north of Thiel, came to its end last Friday night, with the expulsion of the last Russian from the province. The invaders were thrown back across the border after a brief, but hard fight and the Germans advanced to a point in front of Polangen. The Russians were at Krottingen and Jakow. Steps have been taken to guard the inhabitants of this district against further invasions of this kind.

Usually played a great part in driving the Russians out of east Prussia. The reason was that a heavy fog made the use of artillery and infantry difficult. The infantrymen were hindered also by the swampy nature of the land and the high water, which prevented rapid pursuit.

Although the damage done by the invaders in this district is considerable, it is not as great as had been feared and reported. A large number of fugitives already have returned to their homes, while others are returning, and the damages soon will be completely repaired.

The conclusion appears to be justified today that the Russian advance on Memel, on the Baltic, in east Prussia, had a certain connection with the general renewal of Russian offensive activity, the purpose of which, according to military opinion in Berlin, appears to have been another thrust against east Prussia. The offensive against Memel was closely followed by advances in the direction of Thiel through Taurongen, through Mariampol and finally through Augustowo.

This offensive activity is taken in Berlin to indicate that the Russians have finished filling out the gaps in their line caused by the last victory over them of Field Marshal von Hindenburg and that they are now ready for new operations.

comes to the ground at a point northwest of Arras. "Russian troops who started from Taurongen to loot Thiel in the same way they looted Memel, have been repulsed near Lausargen. They suffered heavy losses and were driven back over the Jedroja river.

"Several Russian advances between Augustowo forts and the Vistula have been repulsed and in some places this fighting continues." "PARIS, March 27.—(Via London).—The French war office this afternoon gave out a report on the progress of the campaign, which reads as follows: "During the night of March 26-27 the Germans bombarded Arras with shells of all caliber. Fire broke out in Arras, but was quickly extinguished. The fighting has been going on at La Boisselle under conditions favorable to the French. In the Argonne district, in the vicinity of Jazalelle, there has been bomb throw-

HEAD OF TRAFFIC ON PENNSYLVANIA LINES HERE MONDAY.

George D. Dixon, vice president of the Pennsylvania lines, in charge of traffic, will be in Omaha Monday, coming in over the Burlington, his car attached to No. 2, that arrives during the afternoon. At least this is the present line-up of his movements. He will remain in the city during the balance of the day, meeting business men and railroad officials. Mr. Dixon is one of the veterans of the Pennsylvania and has been on an extended western trip, feeling the business pulse of the country west of Chicago. His present trip has taken him to the Pacific coast. Starting as a young man with the Pennsylvania, Mr. Dixon secured promotions rapidly and in 1912 he was elected vice president in traffic, succeeding John B. Thayer, who went down with the Titanic.

ing from one line to the other, although no infantry attack has taken place. "After an energetic engagement, which lasted for several days, the French troops were successful in reaching the top of Hartmanns-Weilerkopf, which they captured from the Germans. The French also made progress on the northeastern and southwestern flanks of the main army, taking more prisoners, including several officers. "The Germans have abandoned important war material and left numerous dead on these battlefields. The French losses were inconsiderable. "A German aviator dropped several bombs on the town of Willer, to the northwest of Thann. Three little children were killed."

WOMAN CHARGED WITH MURDER OF RANCHMAN

OGDEN, Utah, March 27.—Maggie Conway, formerly of MacKay, Idaho, was arrested last night at Hart, Idaho, on the charge of murdering Daniel Winters, a wealthy sheepman, in September, 1913. The arrested followed the detention in the county jail here of Mr. and Mrs. Robert Souterland, who are being held as material witnesses. Winters' body was found about 100 feet from the house where the Conway woman lived, and an examination of his stomach showed he had died from poisoning.

EITEL MUST GO OR INTERN

Raider Obligated to Put to Sea Soon or Stay Till the War is Over.

DESTROYERS WATCH HARBOR

WASHINGTON, March 27.—Although no word had come from the commander of the Prinz Eitel Friedrich as to whether he intended to take his vessel to sea, naval officers here were confident that the next two or three days would see the ship interned. The time allowed the Eitel to make repairs has been kept a strict official secret, but the general understanding today was that it expires within the next two or three days. "It was pointed out by naval officers that commanders of belligerent warships rarely interned voluntarily because of their national pride and the possible effect of such an act on their own record. "No explanation was given at the Navy department for the appearance of destroyers off Hampton Roads.

It was reiterated that Commander Tschirchens never had replied to repeated requests of the United States port authorities as to the time he required for repairs, and the conclusion is that naval experts after examining the Prinz Eitel set a time for him to make his cruiser seaworthy. The confidence of officials that the ship will be interned is said to be based on the knowledge that this time is about to expire. Secretary Daniels emphasized that the Prinz Eitel would not be permitted to leave Hampton Roads within twenty-four hours of the departure of any allied ships.

Cruiser Still Tied Up. NEWPORT NEWS, Va., March 27.—With armed guards on its pier and aboard it ready to challenge anyone appearing without a pass, the German auxiliary cruiser Prinz Eitel Friedrich still was tied up at the local wharf early today, despite last night's persistent reports that Commander Tschirchens had been ordered to leave by midnight or be interned for the war. There was another stir in marine circles this afternoon when some artillerymen, who had been granted several hours' leave of absence, were rounded up and ordered to return immediately to quarters at Fortress Monroe. Officers at the fort would not discuss the order.

Steamship Odenwald Labeled. WASHINGTON, March 27.—United States Attorney Brown, at San Juan, Porto Rico, reported today that he had labeled the German steamer Odenwald, and that the ship is now in custody of the United States marshal. That is the first step in proceedings to have the Odenwald confiscated for an alleged violation of American neutrality.

Palm Crop Short Because of Blight

NEW YORK, March 27.—Many world-shippers may find it difficult to obtain palms for Palm Sunday, local dealers say, owing to a partial failure of the Palm crop, due to blight. New York dealers own their own palm plantations in central Florida. This season the usual number of palms were brought to New York to be distributed to other cities, but it was discovered that the stock changed color and then rotted. One New York firm was unable to fill fifty orders from as many cities and towns.

An Omaha lady, the owner of a beautiful and luxuriant head of hair, has a habit of occasionally saturating her hair with several ounces of olive oil, letting it soak over night tied up in a bathing cap and washing it out next day. Heretofore this has meant practically an all day job. This time she used Lee's Shampoo and had the hair finished, clean and clear of oil, soft, dry and silky, in forty minutes. Lee's Shampoo removes all surface oil or grease as well as dirt and dandruff from the hair but does not extract and replace the natural oil in the hair fibers with soapy suds as do most soaps. Hair that has been saturated with soapy suds is slow of drying; is robbed of its natural oil, and is always more or less stiff, sticky or gummy, brittle or breaky. A trial shampoo is very convincing. Large 32 dram bottle (18 shampoos for men), 25 cts. Quart bottle (36 25c size 8 times \$1.00). For sale at most drug stores or postpaid. Sample shampoo mailed postpaid 10 cts. Made only at the laboratories of GEO. H. LEE CO. Omaha, Nebraska.
