STREHLOW HEADS THE SAENGERFEST

Made Fest President of National Event Which Will Be Held in Omaha July 21 to 24.

HE WAS PRESIDENT IN 1910

R. C. Strehlow was elected fest president of the National Saengerfest to be held in Omaha July 21 to 24 at a meeting of the Omaha Saengerfest association Monday night. Mr. Strehlow acted as festpresident during the Saengerfest held here in 1910.

Mr. Strehlow is a well known Omahan. He holds quite a reputation as builder of expositions and has just returned from San Francisco, where he erected several of the big palaces included in the Panama-Pacific display. The buildings erected at the fair by Mr. Strehlow are valued at over \$2,000,000.

Mr. Strehlow accepted the position bestowed upon him and declared he would put forth every effort to make the 1915 Saengerfest a bigger success than the one held in 1910. That the 1915 event will attract many more singers than the previous one is certain, as many reports have been received from the various singing societies announcing their intention of coming. The royal treatment received here in 1910 made friends for Omaha among the singers, and they will all be back and will bring their friends.

The first issue of the Saengerfest Zeitung, the official organ for the Saengerbund of the Northwest, containing notice of the 1915 Saengerfest, has been published. It contains a long article on the big event, both from the technical, musical viewpoint and with regard to Omaha as a city in which to hold the program. Omaha, as the metropolis of the west, and a great convention city, is the topic for many paragraphs.

New Owners of the Board of Trade Lot Are Still in Doubt

Scarcely more than a story and a half of the old Board of Trade building remains to be wrecked. The wrecking company expects to be through with the job before the close of April. Although it is definitely stated that building operations are to begin soon after this on an eight or ten-story building, Harry Tulley, acting for the syndicate that bought the ground, still refuses to say definitely who he represents. The rumor is still current that whoever the syndicate is, it represents the First National bank. Some are saying that it is a holding company in which the bank is heavily interested, and that it will eventually mean that the bank is after this location for the institution.

A half dozen different people told me that the bank bought it, said one real estate man, but after all, some could show the documents on the transaction.

Recipe to Clear a Pimply Skin

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels, it also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well.—Advertisement.
