Elimination of Russia as Wheat Session, in Its Essential Features, Shipper Severely Felt in Advancing Prices.

ITALY SENDS NOTHING OUT PRICES

OMAHA, April 7, 1915.

Statistics show that no one country has purchased thus far this season anywhere near their requirements. Consumption has been on a very large scale and the elimination of Russia as a shipper has been asverely felt in the sharp advance in prices. The entire population of Europe is dependent on foreign supplies until next harvest.

Reports fail to show that Germany has received any wheat or flour from Italy except a small amount which was received during the first few days in August.

reived during the first few days in August.

The first crop reports of the season are now being received and because of the greatly increased acreage and generally good wintering of the plant the situation may be regarded as bearish.

In the cash trade there appears to be a feeling that eastorn demands will continue to reduce stocks materially in the near future. The oats market is weak and shows no ability to act independent of the wheat and corn markets.

Omuha Spot Market—Wheat was unchanged; corn, its lower to its higher; oats were unchanged to its lower.

Clearances were: Wheat and flour, equal to 1,080,000 bu; corn, 859,000 bu; oats, 833,000 bu.

Liverpool close: Not quoted.

Primary wheat receipts were 867,000 bu, and shipments 658,000 bu, against receipts of \$15,000 bu, and shipments of 700,000 bu.
