GRAIN AND PRODUCE MARKET

Bearish Report and Rain Responsible for Loss in Wheat on the Local Exchange.

OATS "BEARS" SELLING STRONG

Losses were shown in the wheat market yesterday, the rain in many sections of the winter wheat beit and a promise for more, coupled with a bearish government report, brought general liquidation by longs, as well as short selling by the more pronounced bears. The government report gave the condition of wheat April 1 as \$3.8 per cent.

Bulis admitted that the crop report was bearish on its face, but said it is two months to harvest and many things can happen to a crop in that time.

A majority of local traders are bearish on corn, and say it is only a question of a short time before longs will liquidate May holdings and make lower prices. They say the improvement in the cash demand is not sufficient to more than hold the market around present prices for a time.

Predictions of rain and general liquidation started outs easy, and there was aggressive selling by local professionals. Outs bears look for a break should there be good general rains within the next few days.

Omaha spot market: Wheat was 2½c to 3c lower; corn was 3c to 3c lower; coats were unchanged.

Clearances were: Wheat and flour, equal to \$74,000 bu; corn, 603,000 bu; oats, 355,000 bu.

Liverpool close: Not quoted. OMAHA, April 8, 1915. Losses were shown in the wheat mar-

equal to \$4,000 bu.

Features of the Trading and Closing

Michigan. Indiana, Illinois and Missouri were the wheat states mentioned as still having a handicap from the extreme dry weather of the entire month of March. Early gossip that rains had been of great benefit was declared later to have not been confirmed, except as to Kansas and Nebraska. Notices came of some apring wheat seeding northwest, but activity of this character was not looked on as likely to be general for more than a week yet.

on as likely to be general for more than a week yet.

Corn showed a good deal of weakness at times, largely as a result of the setbacks suffered by wheat. On the other hand, shorts evinced a disposition to cover promptly on all soft spots in the market. Signs of a liberal export business in the east made oats relatively strong. Cash demand here, nevertheless, appeared slow.

Provisions rose in response to an advance in the hog market. There was said also to be an improved transatiantic call far lard, hams and bacon.

United State Department of Agriculture, weather bureau, corn and wheat region bulletin for Omaha, Nebraska, for the twenty-four hours ending at 8 a.m., 75th meridian time. Thursday, April 8, 1915;

Features of the Trading and Closing
Prices on Board of Trade.

CHICAGO, April 8.—Wheat ranged lower today, chiefly in consequence of enlarged attention given to the outlook for peace.

Closing quotations were unsettled at a shade to 1½c under last night. Corn lost 1-15c to 1½½c net, and oats wound up unchanged to 1½c inder last night. Corn lost with a gain of 5c to 12½c.

Most of the active traders in wheat leaned to the bear side from the start, but covered quickly on railies, and showed considerable anxiety as to a renewal of crop complaints from the soft winter whoat states. The reports of many circumstances thought indicating a possible speedy end of hostifities formed the dominating influence throughout the session, and prevented upturns becoming of a nature likely to encourage the buils. Absence of important export inquiry was one of the elements that gave weight to peace talk.

Michigan, Indiana, Illinois and Missouri were the wheat states mentioned as still having a handicap from the extreme dry OMAHA DISTRIST.

Beef steers were in very fair demand and while the market was not especially active it was sufficiently so to effect a reasonably early clearance. Good heavy beeves sold up to 8.25.

Cows and heiters, while not quite so active as yesterday, sold at steady prices, the more desirable of the offerings changing hands in good season.

Stockers and feeders were in good demand and commanded firm prices. Right good Colorado feeders sold up to \$7.55.

Quotations on cattle: Good to choice cornfed beeves. \$7.5607.50; common to fair cornfed beeves. \$7.5607.50; common to fair cornfed beeves. \$8.5607.50; good to choice heifers. \$6.407.10; good to choice cows. \$6.5565.75; fair to good cows. \$5.50096.55; common to fair cows. \$3.7596.50; good to choice stockers and feeders. \$7.2037.60; fair to good stockers and feeders. \$7.2037.60; fair to good stockers and feeders. \$5.7507.50; common to fair stockers. \$6.9507.50; common to fair st

SHEEP-Lambs jumped to new high levels this morning when about a dozen cars of Nebraska and Colorado fed Mexicans commanded 160 0, the record for the season and the highest since 1912. The record price for lambs in the history of this market was in April, 1210, the top during that month being \$10.60. It still takes the light and handy weight lambs to bring the highest prices as a rule, the bulk of such kinds today selling around 110.30610.00. The heavy offerings moved largely at \$10.00610.30. according to quality. Among the sales were about 700 Wyoming lambs that sold to an Illinois feeder buyer at \$10.55. The packer buyers were strong competitors for the moderate run of some 6.500 head on sale, but the shipper buyers were practically out of the market altogether. The top on fed western lambs was \$10.30 and the bulk of them sold chiefly at \$10.30610.30. Trade was snappy all the way through and another early clearance was made.

Old sheep were scarce, there being, as a matter of fact, not enough on hand to

really make a market. Prices were hominally steady.

The receipts have been light thus far for the week as they foot up no more than 28,815 head, as compared with 46,436 for the same time last week and 20,830 a year ago. The bulk of the lambs at the close of last week found an outlet to the packers at \$10.10, as against \$10.50010.80 this morning. There have not been enough old sheep of any kind here this week to indicate any material difference in prices.

week to indicate any material difference in prices.
Quotations on sheep and lambs: Lambs: light, \$10,00710.40; lambs, heavy, \$9.009.
10.10; lambs, shearing, \$3,7599.20 Mexicans, \$9.4099.75; lambs, fed western, \$8.909.
185; lambs, shearing, \$8.1098.60; yearlings, light, \$8.7599.00; yearlings, heavy, \$8.000.

Manipulation of Bethlehem Common Sharea Reaches Its Climax in Series of Movements.

EARLY RISE ORDERLY, SURE

NEW YORK, April 8.—Manipulation in the common shares of the Bethlehem Steel company, long a resture or the stock market, reached its climax today in a succession of violent movements which carried the shares up to 117 from its opening price of 85%. The early rise was orderly, but sure, the new high price of 85% being recorded before midday and pur soon after.

In the early afternoon it rose to 10%, where profit taking sent the price back For soon after.

In the early afternoon it rose to 103, where profit taking sent the price back to par and from which figure it slowly renewed its progress up to 105. In the final half hour the stock became furiously active, rising is lots of 100, to 200 shares and with jump of 1 to 3 points to 117. As suddenly it declined to 105, recovered to 110 and closed at 105. Its maximum rise was 25 half points and its net gain. It haif. Transactions in Bethlehem Steel asgregated 80,000 shares, or about 12 percent of the whole. Reasons for the phenomenal movement were lacking in official quarters, but traders were of the opinion that it was made possible by the exposition of the short interest which has persistently fought the advance and gathered further courage on the fallure of the directors to put the stock on a divided basis. Bethlehem Steel preferred was also active and strong for a time, but lost more of its gain.

Standard shares, which had shown irregularity for the great part of the sees in Bethlehem Steel was under way and closed with general net losses, these, however, being mostly nominal. General Motors was strongest of the automobile stocks, rising 9 points, and General Chemical led the fertilizer group, with an advance of 5 points.

Rock Island and Missouri Pacific Issues were active in connection with the resorgance of the proposed organization was a second of the proposed organization was a second of the comment of the directors to put the stocks, rising 9 points, and General Chemical led the fertilizer group, with an advance of 5 points.

Illinois Central President Put on Grill at Harriman Shopmen's Strike Hearing.

ROUSES COMMISSIONER

CHICAGO, April 8,-A colloquy about the honesty of a man who, starting at the bottom, advances to compared with one who becomes the head of a great labor organization enlivened today's session of the United States Commission on Indus-

H. Markham, president of the Illinois Central railroad, who was on the witness stand practically all day, and Austin B. Garretson, president of the Order of Railway Conductors

The great strike of shopmen of 1911 on the Illinois Central and other so-called Harriman lines, Mr. Markham stated, really grew out of the attempt of the American Federation of Labor to organize the crafts of each railroad system "The proposed organization was a seri-

cenclusion, it would have left the railroads and industries along their lines helpless in the hands of a few men," said Mr. Markham.

"But the railroads are in the hands of a few men as it is," suggested Mr. Gerret-

"But they are checked by their responsibility to the stockholders, to laws and to the public," replied the witness.

Question for Markham.
"Are you, Mr. Markham, any more honest now than when you were shovelling coal at Tucson?" asked Mr. Garret-

"But when it comes to the honesty of the few men who control most things, is a man less honest because he chooses to rise through the labor arm of the rallroad business to the presidency in a union instead of a railroad company?"

Knights of Labor, the American Railway union and similar organizations have been Investigation of wages and working conditions of Pullman conductors and porters was suspended until next Saturday upon receipt of information that John S. Runnells, president of the Pull-
