

RUSSIANS SHELL TURKISH CAMP

Barracks and Provision Stores on Black Sea Near Archwa and Several Ships Burned.

CZAR'S AIRSHIPS MAKE RAIDS

PETROGRAD, April 23.—The Russian Black sea torpedo boat squadron bombarded the Turkish coast between Archwa and Artaschli on April 19. This fifteen-mile strip of coast, in which was located the quarters of the Turkish army operating in this region, was swept with shell and the barracks and provision stores were ignited and destroyed. A large number of Turkish coastwise vessels laden with ammunition and supplies were sunk.

Turkish land forces were initiating a sortie under cover of their artillery at the same time. They were thrown into a panic by the unexpected bombardment from the sea and their supporting guns were immediately silenced. On April 20 the Turkish efforts to start an offensive in this region ceased.

Only minor engagements are reported to exist on the Prussian front. Near Nemel, the seaport at the northern extremity of the East Prussian province, a Russian mounted force clashed with a German patrol and the Germans were driven back.

The greatest activity appears among the aircraft service. A Russian aeroplane of the "Ilya Mouronets" type, driven by four motors and capable of carrying the weight of sixteen men, has raided the Polish towns of Mlawa, near the East Prussian frontier, and Plock, on the Vistula. German aeroplanes likewise daily circle about the Osowetz fortress, though they are kept at a distance by the Russian guns.

One Russian aviator dropped a bomb on a German army transport near Kopetsa, to the northeast of Osowetz, and an observation point at Lopatuvate, in the same vicinity, on which the Germans had mounted a powerful electric reflector, also was destroyed by a bomb.

A number of skirmishes are reported to have taken place at various points on the right bank of the Vistula river. The result of the fighting was not decisive.

BURLINGTON IS BOOSTING THE "GO WEST" MOVEMENT

The Burlington is in receipt of a consignment of something like 10,000 stickers of the "Go West" series. They are for distribution and are in great demand on account of their artistic effects. There are ten in the series, all in high colors, depicting scenes in the mountains, at the California expositions, in Yellowstone park, besides portraits of Generals Cody and Custer.

STEALS MOST OF GOODS WHICH HE HAD CLEARED

Bert Gibson in assisting Mrs. A. Campbell, 80 North Sixteenth street, to clean house, made a clean getaway with a large stove, two rugs, a chair and a quantity of wearing apparel. He was afterward arrested and sentenced to thirty days in the county jail.

HYMENEAL

Acker-Beherens.
LINDSAY, Neb., April 23.—(Special)—On Tuesday at the Holy Family church occurred the wedding of Miss Gertrude Behrens and Philip Acker of Nazareth, Tex. Straw Uniform Caps, complete for conductors and motormen \$1.25

Berg Clothing Co.

Motor Car Upkeep Under the Microscope

By "Utility Test" 1915 Maxwell

CHAPTER II. If any of you are reading this ever have an intention of buying a motor car and want to know just how one of those real conveyors of human freight feel and look after some use just go up to Frances-Cullis Auto Co.'s Store—the Maxwell agency, here in Omaha—but don't stop in the store and look at my nice, clean brothers—walk right out in the garage and talk to me. I'll give you more real dope on use—hard use—than any other car I know of or have met in a long time—but listen to this and decide yourself.

A BUSINESS HUSTLER.
Mr. Charles L. Sykes, special agent for the Mutual Benefit Life Insurance Co., whose office is in the City National Bank Building, was your representative today, and believe me he is just as much a hustler as I am, for he and I were both out on the job at 6:30 this morning. He praised me so highly that I've got to come right back at him and say that if the insurance he sells is half as good as he is sincere, why I don't think it would hurt any of us to call him up and have a little chat.

MY TRIP YESTERDAY.
I have exactly 148 miles to my credit for yesterday's run and every mile of it was through as heavy roads as an automobile ever traveled. We made Papillion, Lewisville, Springfield, Murray, Nebraska City, Dunbar and Plattsmouth and returned to Omaha by 8 o'clock last night. Included in this would be eight fairly long stops with plenty of intermediate gear work that would make any ordinary motor car get back in low gear. Mr. Sykes can be quoted as follows: "I have made many long trips in various kinds and sizes of motor cars, but I want to tell you that I never was in a car that took the hills and pulled the mud so easily as a MAXWELL and farther than this, we have had this car in use practically fourteen hours today, and I'm not at all tired. You may surely refer anyone to me that wants to know anything regarding the stand-up-ability of your MAXWELL cars." I'm trying to show everyone in Omaha that I'm the "real little white hope" and can go 365 rounds, twenty-four hours long, each year.

THIS IS FOR YOU.
Just remember this is not a stunt all carefully thought out. No. It's simply to show you what I can do if treated only half decent and kept in proper adjustment. I've had no punctures and my electric starter worked perfectly all day long. In fact, I don't care how hard and how long you work me. I rather expect that—for I come of good stock and am healthy. In fact they give my makers credit for being the men who know more about motor car production than anybody else on earth, and I guess they're right, because the older I get the prouder I am that I'm the biggest value at \$750 that ever came to Omaha.

MY RECORD.
I made those 148 miles today on 7 1/2 gallons of gasoline, which is at the rate of 20.4 miles per gallon, even if the roads were bad. In my first two days of this run I totaled 274.2 miles on 13 1/2 gallons of gasoline.

Remember this is up to the public; I will be glad to carry a representative from any good, reliable Omaha firm on any of these trips. Tomorrow I will be in the real estate and investment business. Watch for my story.

Something you want for that which you have

It is a very human desire—and one which frequently proves very profitable—to want to exchange that which we have for that which we want.

This brings us to the **SWAPPERS' COLUMN** which is the medium used by Omaha people to make such exchanges.

To watch the "Swappers' Column" carefully is to find just what you are looking for. Or you can hasten results by an ad of your own.

State your requirements clearly, and leave it at The Bee office, or
