proved and unimproved farms in Min-nesota. We are selling the farms on liberal terms, so the renter and city man with a small capital can own a farm and watch it increase in value under his touch. We handle corn and clover lands only, and invite inspection, as we have the soil and get the rain. Government satistics show that the state of Minnesota is coming to the front in farm products. Minnesota land will show a greater in-crease in value in the next three years than any state in the union. The land where corn is king and clover is queen.
