Men Who Chew Are Men Who DO

No men more fully enjoy the jolly companionship of good chewing tobacco than the foresters who conserve America's standing timber. These big, brave, brawny men, as ready to fight a forest fire to a stand-still as they are to

take a twenty mile "hike" in the dead of night, are STAR pluggers as well as STAR chewers. They find STAR mighty pleasant company when they're alone—and when they meet a traveler they're glad to pass their plug to him. They know that STAR is good for one and better for two.

Each STAR plug is thick with a thickness of long lasting, mellow chewing leaf that just suits to a "T" the taste of Americans. Each STAR plug weighs a full 16 ounce pound, every time. Each plug is made clean and kept so; a STAR plug won't dry out like a thin plug-and the taste lasts. It will just take you but a few seconds to cut off a chew of STAR and get it into your mouth-to understand why STAR is the leading
