BILLION BUSHELS OF WHEAT Jess Cooper Jailed

Total Yield Will Be Largest Ever Known-Big Increase in Acreage.

CONDITION SLIGHTLY LOWER

WASHINGTON, June 8.-The greatest wheat crop the country has ever known is in prospect for the coming harvest. In its forecast today, based on the ground of winter and spring wheat on June 1, the federal crop reporting board placed the prospective wheat crop at 950,000,000 bushels, which would exceed last year's record crop by 59,000,000 bushels. With continued good growing conditions, the crop might reach a billion bushels.

Of the great wheat crop the bulk is from winter wheat planted last fall on the greatest acreage ever sown. The vield of that class of wheat is placed at 676,000,000 bushels, which would be 9,000,-000 bushels under last year's record crop, Of spring wheat 274,000,00 bushels are forecast. That amount would be \$6,000,-000 bushels under the record crop of 1912, but greater, however, than last year and the year before.

Oats planted this spring was on the greatest area ever sown to that crop, exceeding last year's area by almost 2,000,000 acres. The forecast of the oats crop places it at 1,288,000,000 bushels, which is more than harvested last year or in 1913. but 139,000,000 bushels less than the record crop of 1912.

The barley crop, from present indications, will be second in point of size, with 197,000,000 bushels, which would be 25,000,000 bushels less than the 1912 record crop, but more than grown last year or in 1913,

Cologne Gazette Says Roumania and Bulgaria Stay Out

COLOGNE, Germany. June 8.-The chances that Bulgaria and Roumania will enter the war with the allies are diminishing, says a Berlin dispatch to the Cologne Gazette

"The political heavens of the Bulkans have cleared somewhat," the dispatch BRYS. "Roumania has rejected the first offer of the triple entente as unsatisfactory.

"Bulgaria has also received offers from the entente. It is not known that Bulgaria has formally rejected them, but it is in agreement with Roumania, and since the latter has rejected the offers Bulgaria probably will do likewise.

"This assumption is the more rasonable because Bulgaria's first demand is im mediate occupation by it of the Macedonlan territory taken from it by Serbia. The entente has not yet offered that. Bulgaria naturally is not disinterested in the Turkish frontier, but Bulgarian statesmen are keenly conscious that the opportunity regarding Macedonia is or which may come new or never.
