Wheat was unchanged to % lower. Wheat prices have reached a level where belligerent European countries no doubt will soon take an interest and begin to contract for future supplies. If weather conditions permit, the first movement of winter wheat will be large, but it is reasonable to look for a demand that will take care of the first run. Weather conditions have been extremely adverse to the growing corn crop, the plant is late and the conditions have not permitted the extent of cultivation which is usual at this time of year. Clearances were: Wheat and flour. equal to 401,000 bu; corn, 121,000 bu; oats, 672,000 bu.

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade.

CHICAGO, June 14.—Prospects of better weather for Kansas hawest and therefore a quicker movement of the new crop, brought about a fall in the price of wheat today notwithstanding an upturn at the start. Quotations closed heavy, 3 63%c under Saturday night's level. Corn finished unchanged to %c up, cats varying from %c off to %5%c gain, and provisions at 169%c decline.

Professional speculators were conspicuous in free selling that began as son as wheat was found to have only a scattered kind of support. Advices that rain delays to cutting in the southwest would probably not turn out so serious as at the opening of the session appeared most likely, gave the bears a decided advantage. Corn advanced sharply owing to bullish crop conditions over the greater part of the belt. Later the weakness of wheat induced a good many holders to realise, but the undertone of the market continued firm. Outs were only partly sustained by word of good foreign demand at the seaboard. Spreaders buying July and selling September made the market very unaven.

were slow sale at very uneven figures. Veal calves, bulls, stags, etc., were just about steady with last week.

Eusiness in stockers and feeders was quiet. There was a very good demand from the country for desirable offerings of all weights, but there was not much good stock on sale, and while the tone to the trade was strong the volume of business was decidedly limited.

HOGS—There was a good Monday supply on hand, receipts amounting to something like 115 cars, or 8.00 head. This is 200 head larger than a week ago, and 2.000 head larger than as week ago, and 2.000 head larger than two weeks ago.

Shipping hogs, which sold at a big premium the last half of last week, suffered a sharp decline this morning. Shipper buyers got a few loads early on a fully 10c lower basis, making most of their purchases around \$7.200 with a top of \$7.20.

Packers also started cut in a very bearish mood, and their early bids were anyway 10005c lower. In view of the fact that early messages from Chicago reported a slow trade, sellers thought the concessions asked were entirely too large, and no one was willing to give in, and nothing had been soid up to a late hour, except a few shipping hogs. It was nearly neon before anything of consequence was sold, but in the end sellers were forced to chance across, and when the buik of the hogs finally sold it was on a 1605c lower basis. Close was dragsy and there were still a few bogs in first hands at noon. Bulk of the offerings sold at \$7.1007.15, with heavies as low as \$6.50, and tops at \$7.55, a spread of \$5c.

The proportion of weighty hogs in the receipts was not so large as at last week's close, but packers continued to discriminate against them just as much as at any time.

SHEEP—As compared with most recommend were supply was fairly liberal, there being about cleven loads, or 2,800 head, here. This is 500 head larger than last weak, three times as large as the run two weeks ago, and slightly heavier than for the same day last year.

Packers, who have been paying the high prices under protest for the last two weeks, took advantage of sharp declines at other points to lower values this morning, and early bids on lambs were quoted as much as 30 tower. Up to a late hour no lambs had been cashed.

Nearly half of the run consisted of yearlings, and the fat and of them was very slow to move. While there have been in o yearlings here for nearly two months, and consequently no basis with which to compare this morning a sales, most sellers agreed that they sold lower this morning sels are supposed to have been damaged.

so the activity, sold at the new high record of 47%.

Sharp recessions occurred in the last hour, the more prominent stocks looking from 1 to 2 points on selling in fairly large volume. The one exception was the so called Virginia debt certificates, which rose from 55, its price earlier in the month, to 71, on announcement that the United States supreme court had decided the long litigation between Virginia and West Virginia in favor of the former. The market was seavy at the close. Total sales amounted to \$1,000 shares.

That the foreign exchange cituation is again acute was seen in the decline of demand on sterling to \$771%, which establishes a new low record for these remittances to London. The previous low price was \$18 last month. Today's fall was ascribed to the sudden withdrawal from the market of an international banking house, whose recent heavy purchases of London bills had been the main supports of that situation. Caunda sent another small amount of gold here and it was estimated that Paris might one of the supports of gold to this country. Bonds were firm, but without especial feature. Total sales, par value, aggregated \$2,22,000.

United States bonds were unchanged on call.

A PROTEST TO AMERICA

WASHINGTON, June 14.-A. Havenith, the Belgian minister, has protested to the State department in the name of his government and the international Red Cross against the seizure by Germany of Belgian Red Cross money and equipment within the German lines.

The protest says this was done when the Belgian Red Cross refused to give up its proper work and devote its attention to "aid and protection of women by employment," under orders from the Serman governor general of Belgium.
