against yeterday's close of 51%. From this level the stock declined to 44%, making moderate recovery later.

Meantime other stocks, particularly war specialities, anda few railway investments shares, had manifested a tendency to break away from rubber. Improvement was well maintained until sudden weakness developed in Canadian Pacific which lots its gain of the opening and soon fell to 142 a fraction above its low record. In the last hour the entire list forfeited its gains on a precipitate decline in St. Paul, which fell 75% to 97% on rumors affecting the maintainance of its dividends. As the St. Paul earnings are known to be unsatisfactory credence attached to these rumors. Thereafter the market moved more heavily.

Steel's strongth was ascribed to the optimistic statements of trade authorities which found partial confirmation in further advances of certain manufactured materials.

YORK STOCK MARKET

NEW YORK, July 2.-Stocks pursued an erratic course today, price changes being more than ordinarily confusing. Some standard issues were up, while others were lower; the same condition applying to numerous specialties. Trading was dull except during the tirst and final hours, when the weakness of United States rubber and St. Paul created general unsettlement.

Because of the passing of the rubber dividends, interest centered mainly about that stock at the opening. Initial sales consisted of 5,000 shares at 45 to 46, against yeterday's close of 51%. From this level the stock declined to 44%, making moderate recovery later.

Sudden withdrawals of pressure against exchange on Paris was one of the interesting developments of the day. Demand bills on Paris made marked recovery and remittances to all other European centers including London, also strengthened. Further heavy selling of international bonds presumably for foreign interests was a feature. Total bond sales parvaiue £2.510.600.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 2—Scarcity of wheat available for delivery on July contracts resulted today in a decided flurry among shorts. After a nearly vertical advance throughout most of the session, the market closed strong at 15c to 45 above last night. Corn finished 405c to 524c. In provisions, the outcome was a decline of 5675c to 74c.

Delay in the movement of new wheat from first hands was the chief cause of anxiety among traders who had heretofore been active on the bear side of the market. Continued stormy weather in the harvest regions added materially today to the danger that the filling of perhaps the bulk of the July options would have to be accomplished with old wheat, the stocks of which are at the lowest ebb known in years. A further consequence of the incessant rains was the spread of belief that an unusual proportion of the new crop would be of a quality too inferior to meet the requirements of speculative contracts.

Rushes to cover on the part of July shorts made September and December wheat rise in sympathy, but there was no such urgency regarding the deferred months as that which kept July sharply on the upgrade. Old No. 2 hard wheat in the Chicago sample market sold at 25 c over July, the highest premium so far this year. Incidentally export advices were less pessimistic than of late, and it was said the French government had been buying to some extent.

Corn sympathised with the strength of wheat. Besides, rural offerings were limited and there was a fairly good demand from the seaboard. Traders in oats were confronted with signs of a possible squeeze in the July option, paralleling the situation as to wheat. Active shipping call gave cash oats a decided lift in value.

Provisions sagged owing to lower prices for hogs. The bearish showing made by warehouse stocks here tended also to induce a decline.

NEW YORK GENERAL MARKET wheat was especially strong, making an advance of MMc. There was a total of eighty-one cars received on the floor today and the strong demand would have taken care of larger receipts.

Corn sold from 'ac to l'ac higher, the yellow and white calling for better prices than the mixed. The continued foreign demand for oats, together with the local demand had a builleh effect on that market and oats made strong advances of 265%c.

ket and oats made strong advances of 265%.

Cash sales of oats amounted to 315,000 bu. of which 100,000 bu. were for export. Those who have sold this grain to foreigners are having some trouble, it is said, in filling contracts.

Chicago reported its first car of new wheat yesterday. It graded No. 3 red, tested 56 and sold for \$1.15 per bu.

Clearances were: Wheat and flour equal to 484,000 bushels: corn, 178,000 bushels, outs, \$21,000 bushels.

Liverpool spot: wheat unchanged: corn, 1d higher.

Primary wheat receipts were 293,000 bushels and shipments of 1,016,000 bushels last year.

There were hardly enough cows or helders in sight to make a merket, but the few here commanded good steady prices. Good kinds of butcher stock are fully 25c higher than a week ago, while common to medium grades, showing more or less grass, have been easing off, making the spread still wider between the common to medium and best grades. There were no stockers and feeders in sight of any consequence, but the feeling was about steady. The trade on that kind of cattle has oeen light all week. Desirable kinds of feeders have shown some little strength, but the common to medium grades have been more or less uneven all the week.

Packers wanted their hogs lower and their hids were generally around 10c or more under yesterday's market. It goes without saying that sellers did not make the concesion without a fight, so that the morning wore away with buyers and sellers unable to get together on a trading basis.

the morning wore away with buyers and sellers unable to get together on a trading basis.

A few of the better packing hogs finally sold 5c lower than yesterday, but the demand for that kind at such prices was very limited and before many loads changed hands the price was fully 10c lower, at which a few more strings changed hands, but the market did not remain ever there, and before it was possible to dispose of the receipts it had slipped on down to 1000 lower. On the close there were sales that looked to be 30c lower. Today's market might be described as closely resembling a pair of stairs, beginning with the second floor and ending with the basement, every step carrying the price downward.

Without question it was the most difficult market experienced at this point in a long time to operate upon as well as describe. One thing it would be well to understand, and that is that while the demand for light hogs on the part of shippers was quite good this morning, it was limited to numbers and confined entirely to choice grades. Other loads of hogs that did not that happen to suit a shipper or find favor in his eyes for some reason or other had to sell to packers at a good deal less money. For that reason hogs of very similar weights and quality sold at a wide range of prices.

Representative sales: resentative sales:

of range spring lambs, although there was a little sprinkling of range yearlings in sight. The receipts have been large all this week, footing up 47,5% head for the five days. This is the largest run for any similar period since the Figinising of April. As compared with a year are there has been a gain in receipts of over 15,000 head for the five days.

In splic of the large receipts of spring lambs the market has been in very satisfactory condition, with prices high as compared with points farther each. While buyers have been bearish and inclined to squeeze the market whonever the opportunity was afforded, still they have wanted the lambs and their requirements were large sgain this morning. The result was that the lambs sold in about yesterday's natches, that is, largely at 19,300 him. While the trade was not overly active, still the bulk of the offerings changed hands in good season.

Old sheep were in good demand as well

the offerings changed hands in good season.
Old sheep were in good demand as well as lambs and also commanded steady prices. A string of range yearlings sold at \$7.50. It might be added that most of the stuff was wet today, which cut quite a figure in prices.

BRADSTREET'S TRADE REVIEW Further Improvement Outstanding Feature of Report.

NEW YORK, July 2.-Bradstreet's will, RBW YORK, July 2—Bradstreet's will, say;

Further improvement, notwithstanding vagaries of the weather and slow movements at some points, is the outstanding feature of this week's reports. Where the weather has been favorable seasonable goods have moved from the counters of retail dealers in larger volume. Crops collectively considered are promising. War orders are of enormous proportions, brass mills in New England soid far ahead, are intensely active; machine tool plants are overflowing with orders, subjectings of contracts being a feature; steel mills are doing more; specifications for finished steel are larger; the melt of pig iron is increasing's idleness continues to decrease; effects of war orders are spreading out to other lines, percolating, as it were, through the trade; money is easy and country banks are drawing funds for crop moving purposes.

Frank Rose Joins Ranks of Benedicts

Although Frank Rose, dar cierk Hotel Rome, has been wearing a broader smile than usual since last Saturday, the reason for it was a mystery until Colone! William Anderson, chief clerk, acci-dentally gave away the secret, which had been confided to him.

As a result Rose is being deluged with

a mixture of congratulations upon having been married and of reproaches for not telling his friends. Mrs Rose was Miss Anna Annuschat of Omaha, daughter of Mrs. Minnie Annuschat. The wedding was performed last Satur day by Rev. E. T. Otto at St. Paul's Ger-man-English Lutheran church, and was

witnessed only by the organist and his wife. Mr. and Mrs. Rose are living at the Rome until arrangements are mad-
