To Overcome Sunburn, Tan, Freckles, Wrinkles

If your skin is unduly reddened, freckled or tanned, dab a liberal amount of ordinary mercolised wax on the face and
allow it to remain over night. When you
wash off the wax in the morning, fine
flaky, almost invisible particles of cuticle come with it. Repeating inis daily,
the entire outer skin is absorbed, but so
gradually, there's not the slightest hurt
or inconvenience. Even the stubbornest
freckles are affected. The underlying skin
which forms the new complexion, is so
fresh and youthful-looking, you'll marvel
at the transformation. It's the only thing
known to actually discard an aged, faded,
muddy or blotchy complexion. One ounce
of mercolised wax, procurable at any
drug store, is sufficient in most cases.

If aim and wind make you squint and
frown, you're bound to cultivate wrinkles
and crow's feet. To overcome these
quickly, bathe the face in a solution
made by dissolving an ounce of powdered
saxelite in a half pint witch hazel.—

tain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanus oil (which is pure and entirely grease ess), is much better than soap or any thing else you can use for shampooing as this cannot possibly injure the hair.

Simply moisten your hair with water and rub it in, about a tesspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.-Advertisement.
