

# ALLIES LAND 50,000; BEAT MOSLEMS BACK

### British Soldiers Treble Area Formerly Held by Them in "Anzac" Region on Gallipoli.

## ENGLISH LOSSES VERY HEAVY

BULLETIN. (Copyright, 1915, Press Publishing Co.) ATHENS, Aug. 12.—(Special Cablegram to New York World and Omaha Bee.)—British submarines have succeeded in entering the Black Sea, and have torpedoed the German-Turkish cruiser Breslau. They also torpedoed one transport gunboat.

LONDON, Aug. 12.—While the Russians are fighting desperately to extricate themselves from the cordon of Austro-German troops, which is steadily pressing them more closely in Poland, their allies are working feverishly and with considerable success to open the Dardanelles, through which they hope to pour into Russia much-needed munitions of war.

Since Saturday night, when fresh British forces were landed on the Gallipoli peninsula, there has been almost continuous fighting on the Krithia road. In these operations the Australians and New Zealanders in the "Anzac" region, a name taken from the initial letters of the words "Australian-New Zealand army corps," have co-operated with new forces to the north.

Following the successes of the troops on the Krithia road and those to the north of the "Anzac" zone, the Australians and New Zealanders took the offensive yesterday and succeeded in trebling the area formerly held by them. Their comrades to the north, who assisted them, made no further progress, however.

Five Guns Silenced. Simultaneously the French battleship St. Louis attacked the Turkish batteries on the Asiatic side of the straits, which had been bombarding the allied position on the peninsula, and put five out of six guns out of commission. These actions are believed here to be preliminary to a more ambitious attempt which has been planned by the Anglo-French commanders to sweep the Turks before them. Very heavy losses which already have been inflicted on the Turks have had a discouraging effect upon the Ottoman troops, according to reports from Greece.

The following announcements were made in an official statement given out: "The latest reports from the Allied High Command state that severe fighting continued yesterday in the Gallipoli peninsula, mainly in the Anzac zone and in that to the north. The positions occupied were slightly varied in places, but the general result is the area held by Anzac has been nearly trebled, owing chiefly to the gallantry and dash of the Australian and New Zealand army corps.

"With to the north no further progress has yet been made, the troops have inflicted heavy losses on the enemy and the French battleship St. Louis is reported to have put out of action five out of six guns in the Asiatic batteries."

Fifty Thousand Landed. CONSTANTINOPLE, Aug. 11.—(Via Berlin, Aug. 12, by Wireless to Sayville.)—Ever Faaha, the Turkish minister of war, declared today that, according to his information, the entente allies in their latest operations at the Dardanelles had landed three divisions of troops, composed of about 50,000 men. The losses among them, however, he asserted, already had been very heavy.

Ever Faaha's statement was made in an interview with a correspondent of the Associated Press. The Turkish war minister said:

"I am fully confident that we will be able to keep the allies in check on the Gallipoli peninsula even if other large reinforcements are coming. We know that the allies' action of two days ago was due and we prepared for it, with the result that we were not caught napping.

Losses Very Heavy. "According to my information the allies landed three divisions, about 50,000 men. No doubt part of them no longer count, considering the heavy losses they sustained in attacks incident to the new offensive. The allied losses have been very heavy so far in this new attempt to force the Dardanelles."

Ever Faaha, reviewing the events at Seddul Bahr during the last two days, says:

"The allies experienced hard resistance in their attempts to force the Turkish positions at Seddul Bahr. Two regiments attacking our center there were annihilated with the exception of about sixty men, who were captured.

"The allies made three attacks between our center and left wing with heavy losses. These were followed by counter attacks by the Turks, who are still in possession of one allied trench.

"Attacks on our right were equally futile. About 5,000 dead English lie outside our trenches there."

## U. S. Asks Gun Works What They Could Do

WASHINGTON, Aug. 12.—American manufacturers of war supplies have been urged by the War department for information concerning their facilities, with particular reference to what service the United States government can expect from them in case of emergency.

With virtually every private plant in the country taxed to its utmost capacity filling enormous orders from the European belligerents, army officials want to know whether expansion of facilities has kept pace with demand and whether the government would be certain of a source of supply to supplement the output of its armaments and munitions.

From an ordinary time the government factories produce only a part of the arms and ammunition for the army.

WOULD KEEP WORLD'S FAIR OPEN NEXT YEAR

SALT LAKE CITY, Utah, Aug. 12.—A movement to keep the California exposition open next year was initiated by the Salt Lake City Commercial club today, based on the conclusion that the European war and generally unsettled financial conditions had made it impossible for many of the people of the country to visit the exposition.

## London Shelled by Zeppelin Airships

BERLIN, Aug. 12.—(By Wireless to Sayville, N. Y.)—The German airships which raided the east coast of England Monday night and early Tuesday morning, bombarded, with good results, warships on the Thames, the London docks, torpedo boats near Harwich and buildings on the Humber, according to an official communication issued by the admiralty.

## PRINTERS STAND BY THE I. T. U. OFFICERS

### Vote Down Proposition that Seems to Question Honesty of Their Administration.

## LIVELY SESSION AT LOS ANGELES

LOS ANGELES, Cal., Aug. 12.—An address on labor conditions, past and present, by William B. Wilson, secretary of the United States Department of Labor, virtual selection of Baltimore as the place for holding the 1916 convention, and a sensational attack by former President James M. Lynch on the delegates arrayed against the present administration, were the features of the session of the International Typographical Union convention today.

Lynch's attack was precipitated by the discussion on a proposition introduced by Joseph P. Hannegan, of St. Louis, leader of the opposition. This proposition would have amended the by-laws relating to the auditing of accounts, by providing that each year three local unions should choose one man each to convene at the international headquarters at Indianapolis, and there with the assistance of an expert accountant to be selected by them, audit all accounts. It also gave the executive committee power to suspend any officer of the Union Printers' Home corporation, should any defalcation or misappropriation of funds be reported.

Convention Defeats Plan. The plan was opposed by administration supporters as something put forward merely to embarrass the present officials. It was reported unfavorably by the committee on laws, and by viva voce vote the report apparently was adopted. Former President Lynch then called for a division, declaring that he wanted the convention to see "the delegates who are insisting that their officials are dishonest."

This statement brought a storm of protest from the opposition. President Scott recognized Lynch who declared he personally was responsible for the declaration and stood behind it, and that moreover he accepted the entire responsibility in saying that "several of the leaders of the progressives had been in jail."

When Lynch concluded, Hannegan and others of his supporters took the floor and denied any intention of questioning the honesty of the international officials. On a roll call the report of the law committee was adopted 181 to 28.

## Teutons Seeking Free Hand Against Enemies in West

PETROGRAD (via London), Aug. 12.—The Novo Vremya confirming reports that peace overtures were made to Russia by Germany, says Germany offers Russia Galicia and the Dardanelles with a guarantee of the integrity of the all Russian frontiers, stipulating that Egypt should not oppose the cession of Syria to Turkey, nor interfere with Germany's free-hand in making peace with Russia's allies.

## Auto Figuring in Accident Recovered

While police officers were attempting to clear up the mystery surrounding an auto accident near Halston, Wednesday night, where an auto was smashed and several persons were injured, the Ford automobile stolen from W. G. Sharver, Saturday, was recovered, totally demolished.

## CHRISTIAN ENDEAVORERS TO APPEAR IN THEATRICALS

"The House of the Heart," a morality play for children, will be given by the Christian Endeavor society of the Hillside Congregational church, Thursday evening, in connection with a church social. The play is under the direction of Miss Kate Fields. The cast is as follows:

The "Calm," Elsie Schwartz; "Wisdom," Mary Anderson; "Love," Ruth Honza; "Cheerfulness," Hazel Underwood; "Industry," Mary Anderson; "Lady Goodness," Jennie Howell; "Vanity," Ruth Whitely; "Omnibus," Ruby Crispen; "Envy," Gertrude Helling; "Dance Quarrelsomeness," Margaret Osborne; "Laziness," Editha Brown; and "Experience," Jennie Howell.

## Young Woman Will Not Be Wedded When Clock's Hand Are Going Down

The hands of the clock hanging on the wall in county court moved rapidly to the eleventh hour.

Justice C. H. Kubat was hastening to the court house.

Will he come in time? Will he arrive before the hour hand ceases to rise and begins to descend?

Dr. Ernest F. McCartney of Sioux City and Miss Florence M. Fanning of Niagara Falls, N. Y., pondered these questions anxiously.

Time moved on relentlessly. At 11:01 Justice Kubat arrived.

It was too late.

"No, I will not be married while the hour hand is going down," declared the pretty blond young woman, who had come from Niagara Falls to wed Dr. McCartney.

"Oh, why not? Tell me why. I would marry you if the clock stopped altogether," implored the man who desired to become a bridegroom.

"Because," said Miss Fanning. "Because—well, because."

"It is a pretty superstition," quoth Justice Kubat, diplomatically. "If you two will come to my office and wait till 11:30

o'clock, when the hour hand will begin to rise, I will then perform the ceremony."

It was well said. The trio repaired to the justice's offices in the Barker block. Witnesses were called in. Aggie, they waited the movement of the clock.

The hands crawled slowly along. As the wedding party watched the tinspring, they thought came to Justice Kubat that he would not sure whether it should not be wound last night. Suppose it should not, where then would be his reputation for gallantry?

The hour hand reached 11:30. It found Justice Kubat standing. Haste might be advisable.

"Join hands," he said.

"Do you, etc.," he recited, nervously watching the clock.

"I pronounce you man and wife," he finished, triumphantly.

The hour hand was still rising as Dr. McCartney kissed his bride and the couple hastened from the office to catch a train for Sioux City, their future home.

Justice Kubat an instant later learned that the timepiece had been wound and last reports said that it is still ticking merrily in his office.

eighteen knots above and ten knots below water.

## Austrian Subsea is Sunk with All Hands

ROME (Via Paris), Aug. 12.—It is officially announced that the Austrian submarine U-12 has been torpedoed and sunk with all hands in the upper Adriatic sea by an Italian submarine.

The U-12 was of the latest type of submarines in the Austrian navy. It was built in 1914 and had a displacement of 3,000 tons. It was 106 feet in length, twenty-two feet beam and carried five torpedo tubes. Its maximum speed was

Life insurance was declared to be the most systematic form of thrift and one of the greatest of civilizing influences by speakers at the San Francisco convention of the National Association of Life Underwriters.

Water was let over the spillway of the gigantic dam at the big falls of the Missouri river, fourteen miles from Great Falls, Mont. The dam cost \$2,000,000 to construct and has been building nearly three years. It will furnish power for the electrification of the Chicago, Milwaukee & St. Paul railway.

## Culls From the Wire

Water was let over the spillway of the gigantic dam at the big falls of the Missouri river, fourteen miles from Great Falls, Mont. The dam cost \$2,000,000 to construct and has been building nearly three years. It will furnish power for the electrification of the Chicago, Milwaukee & St. Paul railway.

## Important to Health During Hot Weather

### Summer Conditions Contribute in Various Ways to Constipation

At no time should people be more careful of the condition of their bowels than during the hot weather. Constipation should be guarded against especially, as many serious, and often fatal, diseases are traceable to neglect.

Some people find that certain fruits have a laxative effect, but this cannot always be depended upon; a mild laxative-remedy will act gently, yet positively, without griping or shock to the system, is far preferable. A combination of simple laxative herbs with psyllium, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin is highly recommended as being easy and natural in its action, pleasant to the taste and certain in its effect. A dose of this excellent remedy at bedtime will restore normal activity in the morning, carrying off the heaviness and flat. Salts, purgatives

and cathartics should be avoided as they upset the entire system, and at best afford but temporary relief.

Dr. Caldwell's Syrup Pepsin is not expensive and can be obtained in any drug store for fifty cents a bottle. For a free trial bottle, write to Dr. W. B. Caldwell, 433 Washington St., Monticello, Ill.

## KUGEL STATES POSITION HE TAKES

### Commissioner Will Oppose Plan for Installing Fire Alarm System Proposed by Chicago Man.

## NO NEED OF THE EXPENDITURE

Commissioner Kugel asserts that he will not vote to spend \$100,000 for a so-called standard fire alarm system, as urged by E. R. Townsend of Chicago, representing the National Board of Fire Underwriters, and also by various Omaha men. Mr. Kugel asserts that he can take Mr. Townsend's own arguments and show wherein it would be unwise for the city to spend such a large sum.

"For one thing," stated Mr. Kugel, "only nineteen of the 73 fire calls last year were sent in through the fire alarm system. It may be true that with more alarm boxes a few more calls would be sent in through them, but the telephone generally is used for these calls. Mr. Townsend admitted that the telephone is a necessary adjunct to any fire alarm system.

"According to Mr. Townsend's figures, the installation of a standard fire alarm system would advance Omaha from 2 1/2 to second grade by the underwriters, and would mean a reduction in the annual premiums of about \$20,000, with an estimated annual maintenance charge of \$18,000, leaving an imaginary balance of \$2,000. That balance, I maintain, would in all probability be spent in maintaining the system. But, supposing we had such a balance of \$5,000, the whole proposition does not work out.

"We could, according to the Chicago man's figures, be advanced to second class by installing a lot of motor apparatus, aggregating about \$100,000. I

would favor buying the motor equipment rather than installing the fire alarm system. We could, at a small expense, add to the alarm boxes we now have and get the desired result.

"Another feature of the situation is the admitted fact by Mr. Townsend that the reduced fire insurance rates resulting from the proposed new alarm system would not reach the great mass of home owners, but would in a large measure benefit the business section, and yet the entire city would have to bear the expense of paying the \$100,000 for installing the new system and \$18,000 or more a year for maintenance.

Apartments, flats, houses and cottages can be rented quickly and cheaply by a Bee "For Rent."
