MURPHY BACK TO STATE'S PRISON

Governor Morehead Revokes Parele Given Young Man from Cherry County.

HAD BEEN IN STOLEN AUTO

(From a Staff Correspondent.) LINCOLN, Aug. 19 .- (Special.) - Kenneth Murphy, the young man who was convicted of the murder of Charles Sellers in Cherry county and given a life sentence, will remain in the penitentiary the rest of his natural life. Governor Morehead, who about two years ago took pity on the lad and gave him a furlough. revoked the furlough and returned him to that institution this morning.

Murphy and three other young men resolved to give Sellers a lesson because the latter had been too persistent in his attentions to a sister of Murphy, and took him out one marning and strung him up to a tree in Cherry county. He never bothered the girl again for the "lesson" resulted in his death. Murphy was tried and given a life sentence.

Urged to Take Step. Soon after his arrival at the state peni-tentiary Governor Morehead was besieged by a number of prison reformers who persisted that the young man should be given a chance. They told the executive that Murphy would educate himself and be good the rest of his life. The governor gave Murphy a furlough pending good behavior.

The young man, with the help of the friends who had besieged the governor, got a job and applied to the state university for admission. Chancellor Avery did not believe it for the best interests of the institution that a convict be allowed to mingle with the other students and refused him admission. However, the authorities at the Weslevan Methedist university at University Place took pity on the lad and allowed him to attend that institution

Was in Stolen Auto. For more than a year Lincoln has been infested with a gang of boys who have been stealing automobiles. Several arrests have been made and the lads let go on promise of good behavior, but the thieving has been going on with renewed vigor. Last Tuesday two young paroled convicts were captured after they had stolen an automobile. Investigation disclosed they had been in the habit of taking the machines for some time and taking girls for joy rides. The theft of the last one disclosed that Murphy was with them in the machine which was last stolen, although he says he left them after discovering that the machine had been stolen. However, this is disputed.

Morehead Disgusted. Governor Morehead is very much dis-guated with the whole deal. It is understood that he is very much put out that the yong man whom he had given a chance, and had been roundly criticized for doing so, should be so unappreciative of the effort. Some of the parties who had been insistent for Murphy's parole called on the governor this morning and insisted that the boy should not be sent back to the pen. The governor was abdurate and intimated that as he had given the man a chance and Murphy had not appreciated it, he could go back and take the rest of his life to think it

Democrats Who Are Pushing Him

for Governor Hope He Will Fill Great Gap.

DOES NOT GIVE OUT HIS PLANS

LINCOLN, Aug. 19 .- (Special.) -- Democrats around Lincoln have taken courage now that an effort is being made to draft Dr. P. L. Hall as the democratic candldate for governor. Those who have been much disturbed over the split-up condition of the unterrified forces appear to think that Dr. Hall can bring all the kicking ones together and make them forget the cussing they have been giving William J., Charles W. Bryan, Gilbert Hitchcock, Governor Morehead, State Treasurer Hall and the rest of the fellows who have not seen fit to walk in the straight and narrow democratic path which leads to democratic glory.

But Dr. Hall is mighty close-mouthed on the subject. He is to give a talk at a democratic "get-to-together" meeting at the Lindell hotel next Saturday night, and the faltering ones are holding their breath in hopes that the national committeeman will say, "I accept."

However, Dr. Hall is no spring chicken in politics. He does not need a telescope to observe the dog eat dog condition which exists among his democratic brethren. With the party split from fall to noodle over leading candidates for the senatorship, he knows that if he gets the mination he will be compelled to take one side or the other of the controversy and that will simply mean goodbye to the governorship. He also knows that Charile Bryan has his eye on that nominadion. The doctor has been pretty lucky so far in keeping the Bryan and the Hitchcock factions all friendly with him, simply because he has stayed out of the fights. but he knows that to oppose the wishes of Brother Charlie or his brother means committing the unpardonable political sin, and without their support one cannot hope to pull through for the governorship job or any other place on the democratic ticket.

Dr. Hall has been wise enough in his political career not to accept democratic nominations for anything that anybody else wanted and so he has been able to keep a strangle hold on the affections of Nebraska democrats. The question now is whether he will allow the political seers to inveigle him into taking a nomination in an effort to stem a defeat that is apparent to even the most sanguing is inevitable.

BENSON BOND DEAL SLIGHTLY EXPENSIVE

(From a Staff Correspondent.) LINCOLN, Aug. 19 .- (Special.) -- Secretary of State Pool has refused to sign an affidavit that the \$25,000 bonds voted by the village of Benson have been registered in his office.

He has discovered that the Jackson la. known at the time of its passage in 1913 as house roll 340, was never in cor porated in the statutes. This in the mind of the secretary of state makes it s question whether the law which required him to make such certificate is valid or

The Benson bonds bear 6 per cent interest and were sold to outside parties without the state being given a chance to bid on them. The state would have been glad to have taken the bonds so that the people of Benson would have had to pay but 6 per cent. As the deal went through the \$25,000 bonds bear 6 per cent and a premium of \$1,500 was paid for them. As the bonds run twenty years it will mean that the people of Benson are giving someone a neat little profit of \$3,500 on the deal, which could have been saved if the state had been given a chance to bid.

Safety Zones Are Planned for Busy Car Intersections

City Commissioner Kugel and Chief of Police Dunn are working on a plan for the establishment of "safety sones" for street car patrons at intersections in the

congested district, These sones will be similar to those in Cleveland, Kansas City and St. Louis. It is proposed to place two iron standards connected by a twelve-foot chain five feet from the car tracks, the space betwene the chain and track being the zone where persons may stand in safety while waiting for a car.

Standards and chains are to be moved to the curb after the busy hours of the Traffic officers will place the standards each morning at the designated

necessary precautionary measure," said Chief Dunn, discussing the matter.
