

KAISER PROMISES FULL SATISFACTION

This Phrase is Used by Count Von Bernstorff During Interview with Lansing.

NOTABLE VICTORY, SAYS LONDON

WASHINGTON, Aug. 27.—Count Von Bernstorff, the German ambassador, acting on instructions from Berlin, notified Secretary Lansing today that "full satisfaction" would be given to the United States for the sinking of the White Star liner Arabic.

Count Von Bernstorff called at the State department early and conferred with Secretary Lansing nearly half an hour. It had been suggested that perhaps Germany was ready also to make reparation for the Americans lost on the Lusitania, but that subject did not come up at today's conference.

Sense of Instructions. The ambassador did not make public the extent of instructions from Berlin on which he acted, but it was understood they coincided entirely with the statement of the German chancellor in Associated Press dispatches from Berlin yesterday, expressing the willingness of the German government to make fullest reparation if it is shown finally that the Arabic was torpedoed without warning.

Means More Than Disavowal. The German ambassador frankly stated after his interview with Mr. Lansing that his instructions embodied the declaration by the Berlin government that it would give full satisfaction to the American government. That, he declared, meant much more than a disavowal. Of course, he said, the giving of satisfaction would depend upon the circumstances of the attack on the Arabic.

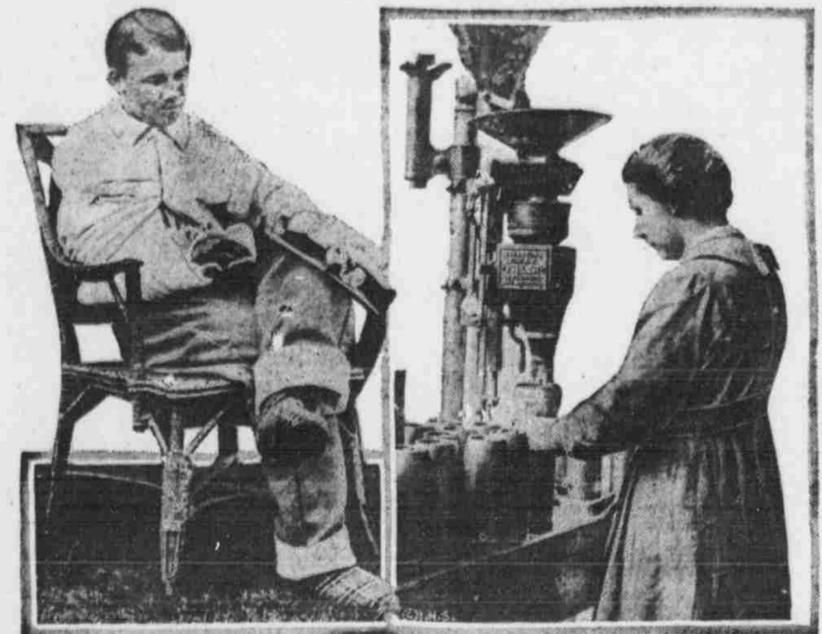

The American government, nevertheless, will press for a clearing up of the entire submarine controversy before it will consider the Arabic and Lusitania incidents closed.

President Wilson plans to remain in Washington, however, until the controversy is finally cleared up.

Notable Victory, Says London. LONDON, Aug. 27.—Cable dispatches reporting the statement yesterday of Count von Bernstorff, German ambassador at Washington to Secretary Lansing that German submarine commanders had been ordered to attack no more merchantmen today in the London newspapers. The Westminster Gazette says:

"If Count von Bernstorff is speaking with full authority the American government can claim to have won a notable victory." It is suggested that the American government will be satisfied if commanders of German submarines always warn passenger vessels and place their passengers in boats before sinking the vessels.

malned devoid of ordinary comforts, and utterly inadequate to accommodate the troops stationed here. Only those on the main post had electric lights. Efforts to have them replaced by modern built fire-proof buildings have met with small success, although the new artillery post, Fort Winfield Scott, at the western edge of the Presidio, and some other buildings, and the cavalry stables are so constructed.

General and Mrs. Pershing were married at Cheyenne, Wyo., January 20, 1905. The general's career was among the most remarkable in the army records. Graduated from West Point in 1889 he fought in the Indian wars of those days, but the outbreak of the Spanish war found him still a captain. He was promoted from a captaincy to be brigadier general, with the support of President Roosevelt, in 1906, and has since conducted several campaigns, including one against the Moros in 1913, which won him considerable recognition.

Mrs. Pershing was devoted to her home and children and also took an active interest in suffrage and other woman's movements.

Pershing Has Relatives in Lincoln. LINCOLN, Neb., Aug. 27.—Lincoln relatives of General Pershing, including two sisters, learned of the tragic death of Mrs. Pershing and her children only through press dispatches. A sister, Miss May Pershing, stated that Mrs. Pershing was planning to join her husband at El Paso, and it was thought until today that she had already left the Presidio with her children.

Apparently Mrs. Pershing, aroused by the smoke and Mrs. Boswell's repeated efforts to awaken her, both from the hall and from the front porch, had gone through the smoke and fire to the room where Helen and Anne slept and brought them with her. Warren's room was inaccessible to her.

Fire started in Dining Room. The origin of the fire had not been determined late today. Apparently it started in the dining room on the first floor. It destroyed one corner of the house, burned to the roof and caused it to collapse.

Major Henry H. Whitney, commanding the Presidio, immediately appointed a board of inquiry to report on the fire. He named as it Major James G. Harbord, first cavalry; Major W. F. Lewis, medical corps, and Lieutenant Rutherford S. Hart, twenty-first infantry.

The business men's camp, recently opened at the Presidio, was close to the Pershing quarters. Members of the camp rallied to the call for aid and took part in the fighting of the fire and the rescue of bodies from the house.

The board of inquiry found that two grate fires had been burning in the house last night. A hole was found burning in the ceiling of the dining room, which was taken to indicate that live coals might have fallen from the grate on the second floor and burned through. The course of the fire was from the dining

Crossing is Won. Further south German troops are advancing toward Niemen. The crossing over the Berocovka tributary east of Osowets has been won. The pursuit is being carried on along the entire front between the Bobr and Suchawaola on the Berocovka and in the Bielovizh forest. On August 25 and 26, the army of General Von Gallwitz took 2,500 prisoners and captured five machine guns.

In all the wide sweep of Russian territory south of the Baltic provinces, which has been covered during the great Austro-German offensive movement, the fortress of Grodno is now the only strongly defended position remaining in the hands of the Russians. Olita was on the principal Russian line of defense, midway between Kovno, already in the hands of the Germans, and Grodno. It is about fifty miles southwest of the important railroad center of Vilna, which is on the direct trunk line to Petrograd. Olita is the ninth important fortress to fall before the invaders in the last three weeks.

French Official Report.

PARIS, Aug. 27.—French aviators continue their activities against certain positions in possession of the Germans in the eastern portions of the French line, according to announcement made today by the French war office. German aviators also are taking offensive measures in this territory.

The text of the statement follows: "In the sector to the north of Arras the artillery firing last night was less violent, but it was very spirited in the vicinity of Roper and on the plateau between the Oise and the Aisne."

"In the Champagne district in front of Auberville Sur-Suppe an offensive German reconnaissance was repulsed.

"In the Argonne there has been reported nothing more than fighting by means of mines, in which we had the advantage.

"In the Vosges to the north of Sondernach we have strengthened our front and accelerated our installation on the mountain top between Sondernach and Landersbach. This we did by taking possession of several German trenches. A counter attack on the part of the enemy was completely repulsed.

"During the night of August 26, our aviators bombarded St. Baussant and Emsey, in the Voivre district. In the Argonne section the railroad stations at Ivroly and Cierges also were bombarded by French aeroplanes. This followed an attack by German aviators on Clemoncourt-En-Argonne. The bombs thrown down on this position, however, by the Germans, caused no damage.

"During the night of August 25-27 a
