3-story and basement brick building, northwest corner 15th and Howard Sts.; 99-year lease, without reappraisement. When present leases expire the rental from stores alone will pay taxes, insurance and leasehold rental and interest on investment, leaving income from hotel for profit. NEW YORK, Aug. 31.—The extraordinary problems involved in the fole-gn exchange sit a lon a ain ered as a restraint upon stock market activity today. With demand sterins, when the stock exchange closed, at the almost incrediale rate of \$4.56% and virtually all other forcign bils falling to greater discounts, it was feared that the cytire international credit system might system the cancellation of many contracts by European interests.

Further se ing of our stocks proceeded in light volume, but was without noticeable effect. In fact, it is now realized that the extent of the European obligations canno, be ove come short of a credit, loan or other form of negot atton running into the hundreds of millians of dilars. While American backers decline to comment on this phase of millians of comment on this phase of millians of contern, acceptable to the prospective lenders is that consisting of high grade.

Stocks moved irregularly and at times suggishly, most of the trading occurring in the lirst hour, with mole moderate improvement toward the close. Pools continued their activity in cream specialtics, but failed to enlist outside support. Gains of a point or two in some of these issues were offset by greater losses caswhere in the same group Bethlehem Steel. New York Airbrake and Studebaker displaying especial heaviness.

United States Steel held tenaciously to its leader hip, but was more succeptible to realways as es and bear pressure. Coppers cancessions for the metal, Riilroad share were in better demand, increased earlings contributing to that end, but inprofit.

GRAIN AND PRODUCE MARKET

Wheat Decidedly Bearish and That Grain Falls Two to Five Cents.

CASH CORN ALSO DROPS A BIT

OMAHA, August 31, 1915.

The cash wheat market was decidedly bearirh today and dropped from 2c to be per bushes. The receipts of this cerea, were lairly light and there was sufficient demand to take care of all the wheat on the tables.

Corn receipts were fair and the sales were comparatively light. There was not much demand for cash form and the market was quoted light lower.

Outs receipts were very light and there was hardly any demand for this cereal. The oats market soid about 1914-5c lower.

Bears on oats predict a free movement despite the deciding prices. Their argument is that the crop is just starting to move and the grain is too damp to noid in interior exclusion.

Liverpool spot: Wheat, 2d lower to 2d higher; corn, 1,821d lower.

Primary wheat receipts were 1,382,000 bu, and shipments \$74,000 bu, against receipts of 1,62,000 bu, and shipments of 1,150,000 bu, and shipments of 27,000 bu, last year.

Everybody seemed to have wheat to sell at the opening of the market and prices at the start were quarter to le off. Private wire houses and commission firms led the bear raid. Demoralization of the foreign exchange situation hampered export conditions and an absence of demand from abroad promptly inwered values here. The market continued weak for most of the session, the only exception being a short period in the latter part of the session when some who had been early sellers took profits by buying on the break, this causing a small raily.

Bears were helped in their domination of the market by the fact that the movement of spring wheat is increasing rapidly and threshing is progressing well and showing larger yields than tirst expected.

Northwestern returns indicate that in Minnesota and the Dakotas the crop will be about 29, 00,000 bushels as against 15t.
OWNER WANTS CASH

be about 291,000,000 bushels as against 154,000,000 bushels last year.
Corn under general selling followed
wheat downward throughout almost the
entire session, a small temporary rally
being noted in the last half hour on a
covering spurt by shorts. Country commission houses were buyers of new crop
deliveries on a lower scale in spite of an
expert opinion that a record crop is yet
possible. Oats showed notable strength.
The break in other grains was offset
by purchasing of September and December by cash houses and the market,
which had a weak opening, unchanged
to a quarter lower, railied strongly after
noon and continued firm to the end.
Good buying sent provisions up in all
lines except ribs. Pork was down at the
start on lower prices of hogs, but the
buying strengthened prices a little after
midday. Brisk demand helped lard.

Moving Pictures of Head-On Collision

"A Speedway Thriller" has been se lected for the name of a motion picture to be taken in Omaha at the Auto speedway on Labor day by a film corporation. Contracts heve just been signed by the management of the head-on collision, which wil be staged as the climax to an afternoon's program of racing events. Several cameras will be trained on the scene of action. The picture is planned to open with a bird's-eye view of Omaha and vicinity, showing the automobiles. street cars and conveyances of all kinds going toward the speedway, the headquarters down town, crowds at the en-P. SHEEP—S uth Omaha receipts were the largest of any f the lig marke a and according to early estimates from o her points, the local run was larger than the combined supplies of the other western markets. Early estimates called for \$2.00 head, but later this was cut to 117 cars, or \$2.00 head. Total for the two days is \$6.868 head. Deling 15,000 larger than last week, and 27,700 heavier than two weeks ago, but about 7,500 smaller than a year ago. This is the largest M inday and Tuesday-gun of the season. Besides all this, today's run topped off the heaviest. August supplies the local sheep market ever saw, almost 414,000 head having been received here in the last month.

As was natural with another heavy run on hand, buyers were a little slow in getting stated, and made early offers on a somewhat easier basis. Sellers, however, set their mark at yesterdays prices, and by 10:30 a few strings of lambs had been cashed at about steady prices. On the basis of the early sales, bulk of the offerings was again selling at \$5.5028.90, with choice stock up to \$5.00, yesterday's best price.

Feeding lambs brought good, steady prices this morning, bulk of the desirable kind selling around \$2.50. Breeding ewes were plentifully supplied, but were cleaned up readily at figures fully as good as yesterday's, more than one sale being reported as high as \$6.00. A bunch of yearling ewes, the first to show up in some time, touched \$7.50, which is higher even than most sellers predicted.

Big end of the mutten offerings again consisted of ewes, which landed in about the some notches as on Monday. The best ones offered were real weighty and soid at \$5.70, but good handy we shis can still be quoted as high as \$5.75.

Guotations on sheep and lambs: Lambe, good to choice, \$5.2566.75; ewes, fair to good, \$4.25 (9.5.75; ewes, feeders, \$4.5090.70; wethers, fair to choice, \$5.2566.75; ewes, good to
