SHEEP—There was nothing startling in
the size of receipts this morning. The
run of 134 cars, or 36,000 head, was the
amaliest for any Monday during September, but was far larger than at any other
market point. As compared with last
week supplies show a falling off of nearly
3,000 head, while they are almost 2,000
short of two weeks ago and 3,000 lighter
than for the same Monday of last year.
Fat lamb trade was a little slow about
getting under way, but a good, healthy
advance was certain from the outset.
Among the carly sales were two loads of
lambs which sold on shipping account at
35.65. This promised to be the top for
the day.

orday night, tied a piece of string around one of his little fingers. He did this as a reminder that he should not forget that on Sunday morning the street cars would return to the old far-side stop system, after a short period of near-side stops. When he arose Sunday morning to go to church he straightway proceeded to the near-side of his intersection and when the car came along the motorman motioned with his hand and then the man who forgot suddenly remembered.

As a rule, however, most people went to the far-side as of yore, because they had observed notices in the newspapers

and placards in the cars.

During a few of the early morning trips yesterday some of the motormen forgot about the change back to the far-side and they stopped on the near-side.

The situation of returning to the faride was not as interesting as the recent
